Title: MacLaurin - Telus Cell Tower Installation

Location: MacLaurin Building

Description: Facilities Management will be working with Villamar Construction and their contractors to install cellular antennas on the roof of the MacLaurin Building. This installation will require the disruption of the electrical services to the building.

As this power outage will affect the entire building, it is advised that everyone power off equipment as you leave the building on Monday, November 26th. It is recommended that electronic equipment, such as personal computers, facsimile machines, electronic and laboratory equipment be unplugged from power receptacles to avoid the risk of damage that could result from voltage fluctuations that may occur during this work.

*Do not unplug phones*

Time frame: Tuesday, November 27, 2018 – 5 AM to 7 AM
