Title: Engineering Lab Wing – B239 BSL2 Lab Upgrade

Location: Engineering Lab Wing (ELW) – B239 and Adjacent Spaces

Description: Facilities Management will be working with Cascadia West Contracting Ltd. to undertake renovations to expand and upgrade lab space for B239. Deliverables include expansion of lab space and renovation to meet biosafety level 2 requirements.

Work includes: partition demolition and construction, concrete coring, carpentry, painting, flooring, electrical work, mechanical work and lab casework installation. Upgrades will require work on the first second, and third floors and roof top. All affected labs, as a result of these renovations, will be scheduled with the department.

Time frame: May, 2019 through October, 2019
