Title: Engineering Lab Wing – B239 BSL2 Lab Upgrade – Coring

Location: Engineering Lab Wing (ELW) – B239 and B325

Description: Facilities Management and Cascadia West Contracting Ltd. will be coring for mechanical lines in B239 and B325 as part of the renovations to expand and upgrade lab space for B239. The coring work may be noisy and cause vibration that may be felt in other areas of the building.

FMGT recommends that ELW B325 and lab spaces adjacent to the area where coring is taking place power down computers and electrical equipment, wherever possible by 5:00 pm on Tuesday July 2nd as a pre-cautionary measure against inadvertent power disruption due the concrete coring work scheduled to start at 6:00 pm. See attached plan for areas recommended for powering down.

Time frame: Tuesday, July 2, 2019 from 6:00 pm – 9:00 pm

FMGT contact: Kim Frechette, Project Manager
