Title: Engineering Lab Wing – B239 BSL2 Lab Upgrade

Location: Engineering Lab Wing (ELW) – B239 and B133
(See attached plans)

Description: Facilities Management and Cascadia West Contracting Ltd. will be coring for mechanical lines in B239 and B133 as part of the renovations to expand and upgrade lab space for B239.

The coring work may be noisy and cause vibration that may be felt in other areas of the building.

FMGT recommends that lab spaces adjacent to the area where coring is taking place power down computers and electrical equipment, wherever possible by 5:00 pm on Thursday July 11th as a pre-cautionary measure against inadvertent power disruption due the concrete coring work scheduled to start at 6:00pm. See attached plan for areas recommended for powering down.

Time frame: Thursday, July 11, 2019 from 6:00 pm until completion
