

FACILITIES MANAGEMENT

Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title: Dispenser Installation – Hand Wash & Body Wash

Location: Gordon Head Campus – Various Buildings

Description: Facilities Management contractors will be replacing existing hand wash and body wash dispensers located throughout campus. These installers will be identified by UVic Contractor ID Badges. Although you may notice installers in your area, there should be little impact to your daily operation.

This change comes after extensive testing of both dispensers and product in several key areas. The hand wash is scent and dye-free. The hair and body wash has a mild scent and is enriched with moisturizers. These products are EcoLogo certified. The chosen dispensers are more robust than previous and the hand wash cartridges utilize less plastic. Deliberate choices were made in alignment with the University of Victoria's Strategic Framework priority of promoting sustainable futures.
