Title: Cunningham Building – Water Main Repair

Location: Cunningham Building Front Doors

Description: The Water Main Repair work will continue until August 16th. The water main underground pipe work is targeted to be complete this week. The sidewalk and pathway reinstatement work will be completed next week. The reinstatement work will involve concrete installations and asphalt repairs. The north entrance to the Cunningham Building, accessed from the Quad, will continue to be closed until the water main repairs are completed. Alternate accessible entrances to the Cunningham Building are located at the Petch Building breezeway or through the Medical Sciences Building as shown on the attached map.

Time frame: Continuing to August 16th.
