Title: Ian Stewart Complex – Electrical Power Shutdown

Location: ISC - Ian Stewart Complex

Description: Facilities Management Electrical Shops and Houle Electric will be conducting a power shutdown for the entire ISC facility.

During the shutdown, power supplying the lighting, heating, and receptacles throughout the facility will be shut off.

This is required for the contractor to complete utility measurements in preparation for an electrical upgrade.

Time frame: Monday, December 30, 2019, 8:00am – 5:00pm

FMGT contact: Adam Gerber, Project Manager

On behalf of Rob Andrews, Project Manager
