Title: Ian Stewart Complex – Electrical Power Shutdown - REVISED

Location: ISC - Ian Stewart Complex

Description: Facilities Management Electrical Shops and Houle Electric will be conducting two power shutdowns for the ISC facility. During these shutdown, power supplying the lighting, heating, and receptacles will be shut off.

It is advised that equipment is powered off as you leave the building for the Christmas break. It is recommended that electronic equipment, such as personal computers, facsimile machines, electronic and laboratory equipment be unplugged from power receptacles to avoid the risk of damage that could result from voltage fluctuations which may occur during this work.

Please DO NOT unplug any telephone sets.

This is required for the contractor to complete utility measurements in preparation for an electrical upgrade.

Time frame: Rink only: Monday, December 30, 2019, 8:00 am – 5:00 pm
Whole ISC: Friday, January 3, 2020, 8:00 am – 5:00 pm
