Title: Ian Stewart Complex – Electrical Power Shutdown – Additional Information

Location: ISC - Ian Stewart Complex

Description: Additional information for the occupants of the ISC during the January 3, 2020 shutdown. Back up power will be supplied during business hours Friday, January 3rd, 2020.

To provide back up power there will be a brief power interruption to disconnect and reconnect building power to the BC Hydro service. This interruption will occur before 8am, Friday, January 3rd, and at the end of the business day January 3rd, at 5pm.

If individuals are taking vacation time over the January 3rd shutdown, it is recommended that electronic equipment, such as personal computers, facsimile machines, electronic and laboratory equipment be powered down or unplugged from power receptacles prior to January 2nd or before you leave for vacation, and again at the end of day Friday, January 3rd, prior to 5:00pm.

Please make the necessary arrangements so these power interruptions do not affect any critical equipment. Please DO NOT unplug any telephone sets. All normal power will be restored for January 4th onward.

Time frame: Rink only: Monday, December 30, 2019, 8:00am – 5:00pm
Whole ISC: Friday, January 3, 2020, 8:00am – 5:00pm
