Title: Student Housing and Dining: Underground Utility Work at Lansdowne

Location: Cadboro Commons

Description: Commencing on Monday March 16, 2020 and with completion expected on March 31 2020, Facilities Management and EDK will be commencing underground utility work required to upgrade a storm water line required for the Student Housing and Dining project.

Work will take place between Cadboro Commons and Ring Road (see plan attached.) Flaggers will be present to ensure safe access, and temporary bridges will be installed to maintain access where required.

The work is expected to last for two weeks and some noise and vibration can be expected during the work.

Additional notices will be issued for any service shutdowns.

Please refer to the attached map for information.

Time frame: March 16 to March 31, 2020
