Facilities Notice

Title: Oak Bay Sewage Pump Station Upgrade – Sewage Pump Station Bypass

Location: Parking Lot 10 (North end), grass area North of Parking Lot 10, grass area East of Parking Lot 10 and Parking Lot 5 (Southwest Corner). Key Plan attached.

Description: Facilities Management and IWC Excavation will be completing Mechanical & Electrical upgrades to the sewage pump station during which flow to the station will be diverted using vacuum trucks and then a temporary pumping station as noted on the attached key plans. Parking Lot 10 pathway to West Campus Way will be temporarily closed.

The temporary pumping station is an enclosed sound attenuated unit designed to minimize noise.

All work areas will be cordoned off.

Time frame: September 21 - 30, 2020 - 24 hrs/day
