

FACILITIES MANAGEMENT

Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title:	Petch Building - Seawater Tank Remediation Project Project No. F03965
Location:	Petch Building – Rooftop and Mechanical Penthouse
Description:	Please be advised Facilities Management and Kinetic Construction will be commencing the Seawater Tank Remediation in the Petch Mechanical Room. The project involves the replacement of the existing seawater refrigeration equipment, support system upgrades and related improvements. Cranes will be required to lift the new rooftop equipment into place. The project will be distracting to the adjacent areas intermittently during the execution of the contract. Please use caution around the demarked areas, barricades and obey all safety signage.
Time frame:	December 7, 2020 to March 19, 2021
