Title: Petch - Level 0 Sprinkler Shutdowns and Concrete Cutting PCH 033a & Corridor 001F

Location: Petch Building - Level 0 - Various Rooms (see attached sketch)

Description: Facilities Management and Aral Construction will be cutting concrete after 6:00 pm on February 11th, 2021 as part of the renovation project in Petch 033. This will be noisy work in the corridor 001F and room 033. The corridor work will be behind construction hoarding. Plumbing and Electrical Shops will be performing a shutdown of the fire sprinkler system for the duration of the work. The shutdown will deactivate the fire sprinkler system on most of the lower floor. See attached sketch highlighting affected areas.

The fire alarm is expected to remain operational on Normal AC power.

Building occupants should pull the fire pull stations and exit the building immediately in the event of a fire emergency during these shutdowns.

We apologize for any inconvenience this may cause.

Time frame: February 11, 2021 from 6:00 pm to 2:00 am
