

FACILITIES MANAGEMENT

Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title: Cunningham – Fume Hood Exhaust Fan Service

Location: Cunningham Building

Description: Facilities Management is working with Cascadia West Contracting Ltd. to undertake fume hood exhaust upgrades to the equipment located in the level 3 mechanical rooms and on the roof.

This is to notify the building occupants that on Wednesday, March 16, service work on the fan system may result in a minor drop in exhaust volume.

If this happens fume hood alarms may sound for short periods of time, and automatically reset as the fans ramp up to speed. You are free to silence the alarm if necessary. This is normal operation during a service interval.

If the fume hood alarm continues for an extended period of time please let us know so we can address it accordingly.

We apologize for any inconvenience this may cause.

Time frame: Wednesday, March 16, 2022 - 9:00 am to 12:00 noon
