

FACILITIES MANAGEMENT

Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title:	Petch - East Loading Bay Use and Lab Casework Delivery
Location:	Petch - East Loading Bay (also known as BWC Loading Bay)
Description:	<p>Facilities Management is working with Aral Construction Ltd. and Kingsview Construction to undertake renovations to upgrade PCH 246 to BSL2 research lab, and ELL 245 to a chemistry research lab.</p> <p>Lab casework is scheduled for delivery at the Petch East Loading Bay (also known as BWC Loading Bay). Please see attached plans for location of truck to be parked at the loading bay and routes of delivery through the building for the casework.</p> <p>Note: the elevator L25 will be used intermittently to move casework to the 2nd floor which may cause some short delays in the use of the elevator.</p> <p>FMGT apologizes for any inconvenience this work may cause.</p>
Time frame:	Monday, March 28, 2022 from 8:30am - 5:00pm approximately
