

FACILITIES MANAGEMENT

Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title:	Medical Sciences Building - Update of DDC Systems - Replace Legacy Controllers - REVISED
Location:	Medical Sciences Building
Description:	<p>Facilities Management is working with SRD Controls on the replacement of the main Direct Digital Control (DDC) systems that control the heating, ventilation, and air conditioning (HVAC) in the Medical Sciences Building.</p> <p>This work is scheduled for December 28 and 29, 2022 and will intermittently impact all heating, cooling, ventilation, and <i>hot water</i> to the building.</p> <p>Temporary controls of sensitive areas will be in place during the replacement.</p> <p><u>Fume Hood Advisory:</u> Please note that fume hoods will continue to operate but will not be able to adjust to the opening and closing of the sashes. Due to this loss of ventilation control, sashes are to remain closed and fume hoods are not to be used during this time.</p>
Time frame:	Wednesday, December 28 & Thursday, December 29, 2022 7:00am to 4:00pm each day
