

FACILITIES MANAGEMENT

Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title:	Engineering Lab Wing – Duct Installation
Location:	Engineering Lab Wing (ELW) Mechanical Penthouse
Description:	<p>Facilities Management, AME Consulting and Aral Construction Ltd. are working on renovations in ELW 140 Fluid Mechanics and heat transfer lab. For this scope of work to be completed, this project will be working on ducting in the mechanical penthouse but will affect both the fume hoods in ELW A140 and A353B. During this time frame, you can still work in the room but the fume hoods must be fully closed, it would be ideal that no materials are within the fume hoods, especially items that will off-gas and no work can happen in the fume hoods.</p> <p>Fire Alarm Masking is required for this scope of work as we are welding in the Mechanical Penthouse. Fire Alarm drain downs is not required as these rooms don't have sprinklers.</p> <p>We apologize for any inconvenience.</p>
Time frame:	August 28, 2023, 8:00am - 4:00pm – ELW Mechanical Penthouse
