Saunders Building

PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title: Fraser Building – Noisy Work in Loading Dock

Location: Fraser Building Loading Dock

Description: As part of the ongoing Fraser Building Renewals project, the contractor will be installing the acoustic screen components on the new Heat Plant equipment. In addition, a crane will be operating in this space to complete the work.

This work will result in increased noise levels within the loading dock area as the metal components are fastened together.

This noisy work should be expected periodically throughout the day.

Time frame: Friday, April 11, 2025 – 7:00am – 3:30pm
