Title: F06878 Cunningham – Building Heat Update

Location: Cunningham Building

Description: Facilities Management is aware of the heat issue experienced in the Cunningham Building resulting from a failed hydronic valve.

A temporary solution is now in place and heating has been restored to the building. Facilities Management will continue to monitor the system until a future permanent repair can be completed.

Facilities Management does not anticipate impact to daily operations of this building.

Thank you for your ongoing patience as we work to correct this issue.

Time frame: October 2025
