

FAST revenue and expense account code list

Revenue and expense account codes classify financial transactions within FAST operating accounts. An appropriate account code must be assigned to each transaction. This document contains a list of the revenue and expense account codes in the University's chart of accounts and it is updated as new account codes are added.

Note: Choose an account code that best fits the nature of the transaction not because it has unspent budget.

How to Search for the Code You Want

This document is designed to help users find revenue and expense account codes to meet their needs and it can be used in two ways:

- Below is a summary of the main revenue and expense categories. If you know the relevant category for your needs, click on the category hyperlink and you will be directed to the detailed listing of account codes in that category. Scroll through the category list to find the appropriate code.
- If you do not know the revenue or expense category for your needs, use the 'Find' function to search for the account code.
 - Access the 'Find' function via the keyboard shortcut 'Ctrl+F'
 - o In the 'Find' window that pops up (see example below), type in any word, or part of a word, in the account code description that you are looking for and click the 'Next' button (or you can hit the 'Enter' key). This will search through all of the account codes and lead you through all of the codes that match your search.

If you still can't find a account code to fit your transaction, or if you need assistance, please contact Danying He (ext. 7035) or Graham Sedun (ext. 5348).

REVENUE

Category	Account code range
Government Grants and Contracts	5000-5302
Student Fees	5400-5499
Gifts, Grants and Bequests	5510-5599
