REGISTRATION 101

University
of Victoria

REGISTRATION 101

1. START WITH YOUR STUDENT NUMBER

We're excited to welcome you to your new community. For the most up-to-date information and to access the tools and resources highlighted in this workbook, visit uvic.ca/new-students

Before you get started make sure to record your UVic student number – it's provided on your confirmation of application email.

My student number:

2. SET UP A NETLINK ID

Your NetLink ID will give you access to the *My page* portal and act as your UVic email account – you can set it up as soon as you receive your student number by visiting uvic.ca/uvicid. The university sends official correspondence to your preferred email address, as listed on *My page*, so make sure to check it frequently.

My NetLink ID:

3. PAY YOUR DEPOSIT

You'll need to pay your \$200 (CAD) acceptance deposit before you can register for courses. Processing can take up to 48 hours. Check out uvic.ca/tuition for payment options. International wire transfers can take several weeks, so it's best to plan accordingly.

4. EXPLORE YOUR COURSE OPTIONS

As a new student, there are many courses you can choose from and it can be hard to know where to start (or how to narrow your choices down). To help your planning, visit uvic.ca/program-planning

Write down the required first-year courses for your program or area of interest (example: ENGL 135)

.....
.....
.....
.....
.....

The University Calendar is your official source for program and course information, and requirements and will be a handy reference throughout the year. You can access the calendar at uvic.ca/calendar

5. LOG IN TO MY PAGE

Course registration takes place through *My page*, UVic's online information portal. Follow the steps below to log in and find the registration panel:

1. Go to uvic.ca/mypage and sign in with your NetLink ID and password.
2. Select **Student services** from the left navigation menu.
3. Click **Register for courses** beneath **What would you like to do?**

6. CHECK YOUR REGISTRATION DATE & TIME

We'll email you to let you know when your registration date and time have been assigned on *My page*. You should register as close to your registration day and time as possible, as courses fill up quickly – and if you're registering for the winter session, make sure to **sign up for both fall (Sept-Dec) and spring (Jan -Apr) courses at the same time.**

To check your assigned registration date and time, follow Step 5 to log in to *My page* and select **Registration status**.

I can register starting on:

Date:
Time:

7. LOOK UP YOUR COURSES

Take some time to find out when each course is offered and how your schedule will look with the courses you'd like to take.

For each course you've chosen, make sure to identify what it includes:

- Lectures – "A" sections
- Labs – "B" sections
- Tutorials – "T" sections

In *My page*, select **Look up courses**.

- If your course has an associated lab or tutorial, add it to your timetable.
- You'll also need to sign up for labs and tutorials separately to complete registration for that course.

8. BUILD YOUR TIMETABLE

Courses are added by inputting a Course Reference Number (CRN). Any year-long courses will need to be added to both your fall (Sept-Dec) and spring (Jan-Apr) term registration. Lab and tutorial sections for year-long courses can differ between terms, but your lecture sections must remain the same. uvic.ca/timetable

9. BROWSE OUR TUTORIALS

For a walkthrough of the steps associated with course registration, take advantage of the tutorials available at uvic.ca/course-registration or contact Student Support Services at studentsupport@uvic.ca or by phone Mon-Fri at 250-721-8121. You can also find answers to common registration questions at uvic.ca/askuvic.

10. PLAN AHEAD

You'll find a list of important dates and deadlines in the University Calendar under "General Info." Check out uvic.ca/calendar for:

- last day to drop courses
- fee deadlines
- holiday closures and examination periods

Make sure to add these dates to your calendar or agenda.

FALL TERM COURSES (SEPT-DEC)

Course	Section	CRN

SPRING TERM COURSES (JAN-APR)

Course	Section	CRN

If a course has an associated lab or tutorial, you'll need to sign up for it – in addition to the lecture section – to complete your registration. Make sure to add these to your course list above.

LEARN THE LINGO.

COURSE

A particular part of a subject area to be studied, such as ENGL 135, which is offered by the Department of English. The courses offered by the university are described in the UVic Calendar.

ELECTIVE

An elective is a course of your choice that is not specifically required for your program, but counts towards the minimum number of courses required to graduate.

UNIT

Every course is assigned a unit value and students must reach 60.0 units and meet their program requirements before they're eligible to graduate. Single-term courses typically have a 1.5 unit value while 3.0 units are typically given to year-long and intensive courses.

SECTION

Courses may be offered several times during a term. Register for one lecture section (e.g., A01) as well as one lab (e.g., B01) and/or tutorial (e.g., T01) section if there is one associated with the course. For year-long courses, you must register individually in both terms.

PRE- AND COREQUISITE

A prerequisite must be met before registration in a prescribed course. A corequisite can be taken before or at the same time as a prescribed course.

LECTURE ("A" SECTION)

The main instructional part of your course in which your instructor or professor gives a formal presentation about a particular topic.

LAB ("B" SECTION)

Smaller classes held for the purpose of reviewing key concepts from the lecture in a hands-on way, such as conducting a scientific experiment or practising conversation in another language to enforce specific vocabulary.

TUTORIAL ("T" SECTION)

A smaller section of your class that complements a lecture, where students have an opportunity to discuss the course materials and assignments and share ideas. Tutorials are often led by teaching assistants.
