When to Submit a New Program Proposal
A new program is defined as:
• a master’s or doctoral degree that has not been previously granted by UVic, or
• a master’s or doctoral degree granted by UVic that is:
  ▪ a new field of specialization; or
  ▪ a revision of a program’s major objectives resulting in significant changes; or,
  ▪ a significant revision of a program that warrants credential renaming.

A new graduate program proposal must include an executive summary followed by a full program proposal and appendices. The executive summary and full program proposal will be posted for public review for 30 days on the Degree Granting Authorization web site of the BC Ministry of Advanced Education and Labour Market Development. The website will indicate the closing date for public comment and that comments from the public are to be directed to the submitting institution and copied to the Board secretariat.
