## **Dedication**

Personal messages, inspirational quotes, thanks and celebrations should be recorded on your dedication page. This is your canvas and will be published as part of your thesis or dissertation.

**Acknowledgements:** follows the same format as the dedication. These pages are optional. If included in the thesis, acknowledgements must be on their own page, preceding the dedication.

## **Introduction**

This is the first page of the body of your thesis or dissertation. In some fields of study, an introduction is not required and your thesis may begin with Chapter One: follow your academic style guide and consult with your supervisory committee.

Note that the first page of the body of your thesis always begins on page 1. You may display that page number or hide it, as you prefer. Beginning with page 2, all page numbers must be displayed.

Check the format of the body of your thesis before you submit your thesis. Look for any oddly-placed tables or figures, and any surprises in font and margins; check that all headings that are meant to be in the table of contents are reflected accurately. Check that “track changes” are no longer showing.
