

School of Health Information Science Seminar Series:

FHIR North - Introduction to Fast Healthcare Interoperability Resources

Speaker:

Lloyd Mackenzie

Chief Standards Officer, Dogwood Health Consulting

Oct 28 on Zoom
5:00pm PT

Lloyd Mackenzie

Lloyd is a healthcare data architect and internationally renowned expert in healthcare data exchange standards, particularly HL7 FHIR. He regularly consults for governmental and private organizations in varying countries and spends a considerable amount of his time guiding community members on how best to use standards to solve their problems. His 20+ years of experience in healthcare standards has given him in-depth knowledge of a range of healthcare domains as well as considerable experience as a facilitator and educator.
