Social Media Committee

Over the past few months the School of Health Information Science Social Media Committee has been working to connect with our students, alumni and health informatics community! There are many opportunities to connect and collaborate with the School! Follow us on our social media channels and sign up to receive our newsletter to learn more about our educational programs, cutting edge research, new courses and professional development opportunities as well as experiential learning! Thank you to Sherry Zhang, Olena Marun, Sandy Polomark, Jason Bond, Maria Orrego Diaz, and Elizabeth Boryck for their continued hard work in connecting and supporting our community!!
~ Andre Kushniruk, Director and Professor, School of Health Information Science, UVic

News and Events

Data Science Summer School

Stay tuned for the Visual Automated Disease Analytics (VADA) Summer School. The VADA Program trains the next generation of health informatics and computational science graduate students to translate complex health data into insights that can be used to improve the health of populations and support health professional decision making.

News, Awards and Recognitions

**Melissa Skirten**

**Melissa Skirten** is a Masters of Nursing and Masters of Health Informatics student. Melissa plans to use her clinical experience to inform the design, development and implementation of health technologies. Melissa is the recipient of the [Denis and Pat Protti Scholarship](#).

**Amirav Davy**

**Amirav Davy** is a Masters of Health Informatics student. His research focuses on how effectively healthcare organizations adopted COVID-19 predictive models for strategic care and hospital resource planning. His passion for health informatics extends to deployment of predictive analytics, dashboard usability and assessing the value of emerging digital health tools. Amirav is a recipient of the [Denis and Pat Protti Scholarship](#).

Experimental Learning and Co-op

Canadian Red Cross

The Canadian Red Cross is providing non-clinical technology and workflow support to provincial and local health authorities as British Columbia’s mass immunization plans accelerate.

The School of Health Information Science has 18 summer Co-op students working on the front lines as Emergency Care Workers for the Red Cross. Our students are supporting and reinforcing health and safety protocols with clients and working with registration data.

Health Information Science Co-op students are now available for Fall 2021 Co-ops (Sept-Dec). Our students are trained to assist with workflows, data analysis, databases, reporting, IT training, and more!

If you are interested in learning more about hiring please contact the Health Information Science Co-op office hiscoop@uvic.ca
Co-op Funding Opportunities

Co-op Funding Update: BioTalent
The Federal government’s Student Work Placement Program (SWPP) provides up to 50% of the student’s wages (to a maximum of $5,000) or 70% (to a maximum of $7,000) for students from underrepresented groups which includes female STEM students, first year students, indigenous students, student with a disability, visible minorities and newcomers to Canada.

SWPP has 12 funding partners who deliver the funding across Canada based on industry sector. Each funding partner has different application processes and there are some slight differences in criteria.

- Consider applying to BioTalent Canada

Employers, uncertain if your job qualifies? Contact Colleen at 1-866-243-2472, ext. 218 or askme@biotalent.ca

- You have to apply for the funding before the student starts their job.
- Multiple grants are possible eg. Hire two students and receive two grants.
- Student eligibility: This Federal program is only available to students who are Canadian citizens, Permanent Residents or students who have refugee status. International students are not eligible for this funding.

Employers have told us that the application process takes 15-20 minutes to complete. Grants are allocated on a first-come, first-served basis so you are encouraged to apply as soon as possible. Should you not find a suitable student for your position, simply inform the funding partner that you do not need the grant.

Educational Program Deadlines

Undergraduate Degree Admission
Learn more about:

- BSc in Health Information Science
- BSc in Health Information Science and Computer Science

Apply by September 31st 2021 for January 2022 entry
Read more and Apply Now

Graduate Degree Admission
Learn more about:
• MSc in Health Informatics
• Master of Nursing and MSc in Health Informatics
• PhD in Health Informatics

Apply by December 1st 2021 for September 2022 entry
Read more and Apply Now

Health Terminology Standards Graduate Certificate

Apply by June 1st 2021 for September 2021 entry
