

# School of Health Information Science

## Seminar:

### Empowering the Next Generation of Healthcare Professionals with MYLE EMR

Speaker:

**Todd Toothill**

*Sales Manager for British Columbia at MEDFAR Clinical Solutions*

**Feb 20 on Zoom**  
**12:00pm PT**

As technology continues to shape the future of healthcare, it's essential for students and faculty to gain hands-on experience with modern electronic medical record (EMR) systems. MYLE EMR (Make Your Life Easier) is an intuitive, physician-driven platform designed to optimize workflows in family practice settings. This presentation will demonstrate how MYLE EMR enhances efficiency, improves patient care, and simplifies documentation—offering an ideal learning tool for medical and healthcare programs

Todd Toothill is the Sales Manager for British Columbia at MEDFAR Clinical Solutions, where he has been driving growth and adoption of MYLE EMR for nearly two years. With 15 years of experience leading high-performing sales teams, he specializes in helping healthcare organizations leverage innovative technology to enhance efficiency and patient care. Passionate about fostering strong partnerships, Todd is committed to empowering the next generation of healthcare professionals with the tools they need for success.
