LING 203
Introduction to Morphology and Syntax
Winter/Spring 2021

Instructor: Dr. Megan Lukaniec
Email: mlukaniec@uvic.ca

Course Description:
This course provides introductions to word structure (morphology) and sentence structure (syntax), drawing from a wide variety of the world’s languages. Major typological categories found in morphology and syntax will be discussed. There will be practice in analyzing morphological and syntactic data, and elements of morphological and syntactic theories will also be introduced.

Proposed Assignments:
- Participation 10%
- Language Profile 10%
- Analysis Assignments 30%
- Midterm Exam 20%
- Final Exam 30%

Proposed Textbooks:

Learning Outcomes:
At the end of this course, students will be able to:
- recognize patterns in linguistic data;
- identify and describe major typological categories found in morphology and syntax;
- do a complete morphological analysis of data;
- do a complete syntactic analysis of data;
- summarize key points in current morphological and syntactic theories;
- and, understand how the process of decolonization can be applied to linguistics.
