- Schuklenk and Chadwick, This is Bioethics (Wiley-Blackwell, 2021)

Formal Course Requirements and Grading Procedures

This course deals with ethical issues that arise in the context of healthcare both at the level of policy and at the hands-on level, with particular focus on the Canadian scene. It distinguishes between healthcare viewed as a commodity and healthcare viewed as a right, and considers more specific issues such as abortion, informed consent, the healthcare profession-patient relationship, substitute decision making, reproductive technologies and medical assistance in dying. The first few sessions of this course are devoted to acquainting students with the various ethical theories that are used when dealing with these issues, so no philosophical background is required.

Since this course deals with issues on the interface of theory and practice, emphasis will be placed on demonstrated understanding and mastery of the ethical concepts and reasoning as applied to various types of issues that are encountered in the planning, delivery and research of healthcare. This understanding will be tested through formally scheduled examinations: two mid-terms and a final examination. The first mid-term examination is 50 minutes long, the second is 70 minutes long and the final examination is three hours in length. The first examination is worth 20%, the second is worth 30% and the final examination is worth 50% of the course grade. Students who have taken (and received a grade for) both mid-term examinations have the option of having the final examination count for 100% of their course grade. Students who choose this option must write 100% on the front of their final exam booklet before handing it in. Once they have left the exam room, this option is no longer open to them. The examinations are cumulative in the material that they cover. Students are allowed to bring any notes they have authored themselves (or that have been shared with them by a note taker) into the examinations. However copies of lecture slides are not permitted, as neither is the use of electronic devices unless due accommodation requires that this be the case, where this must be previously arranged with the instructor or CAL. With the exception of due accommodation, examination should be written in ink, not pencil. The dates for the mid-term examinations are approximate because they depend on how much time is needed to cover the material in the relevant sections.

Exceptions to course requirements, adjustments for taking examinations at set examination dates, etc. will only be made in accordance with UVic regulations as published in the Calendar. It is the
responsibility of the students to acquaint themselves with these and with the relevant dates.

**Academic Integrity and Professional Conduct**

Chat GPT and similar tools are not permitted in the conduct of this course. It is each student’s responsibility to know the University’s regulations in this regard. Inappropriate behaviour and violations of standards of academic integrity as defined in the University Calendar will be dealt with in accordance with University Regulations. The Policy on Academic Integrity is published in the [University Calendar](#). Students can also consult the Libraries’ [plagiarism guide](#) or the [Tri-Faculty Standards for Professional Behavior for Students](#), which draws together a number of existing UVic policies in one place for ease of reference. Professionalism is expected from all students enrolled in courses in the Faculty of Humanities. As part of professionalism, students, faculty and staff are expected to be familiar with University policies, including the Tri-Faculty Standards.

**Significant dates:**

- Mid-term examination #1: Approximately Oct. 10
- Mid-term examination #2: Approximately Nov. 4
- Final examination: scheduled by the university

The mid-term examinations will be returned as soon as they are graded. Final examinations are the property of the University and will not be returned. They will be available for viewing at the Records Office at a time designated by the University.

**Grading:**

Grades will be assigned on a percentile basis with letter grade equivalents as follows: F=0-49; D=50-59; C=60-64; C+=65-69; B-=70-72; B=73-76; B+=77-79; A-=80-84; A=85-89; A+=90-100. The criteria for assigning grades may be found in the University Calendar. Students are encouraged to discuss their examinations with the instructor.

We acknowledge and respect the First Nations Peoples on whose territory the university stands, and the Lək̓ʷəŋən and WSÁNEĆ Peoples whose historical relationships with the land continue to this day.

**TENTATIVE OUTLINE OF LECTURES AND DISCUSSIONS**

1. Introduction
2. Ethical Theory

Readings: *This is Bioethics*: Chapters 1 and 2; materials on Brightspace

A. Meta-ethics
B. Ethical theories used in healthcare
C. Codes of Ethics and Professionalism

3. Healthcare Professional—Patient Relationship

Readings: *This is Bioethics*: Chapter 6; materials on Brightspace

A. Types of relationships
B. Relevance and ethical analysis
C. Emerging Issues

4. Informed Consent and the Competent Patient

Readings: *This is Bioethics*: Chapter 6; materials on Brightspace

A. Types of Consent
C. Standards of Disclosure and Standards of Comprehension
D. Exceptions

5. Substitute Decision Making

Readings: *This is Bioethics*: Chapter 6; materials on Brightspace

A. Competence / Capacity
B. Duly Empowered Substitute Decision Makers
C. Substitute Decision Making and Values

6. Research Using Human Subjects

Readings: *This is Bioethics*

A. Human Experimentation: Nature and Rationale
B. Consent in Experimentation
C. Tri-Council Guidelines

Mid-term # 1 (app. Oct. 10)
7. Right to Healthcare

A. Definition of “Health” and its Implications
B. Healthcare as a Right vs. Healthcare as a Commodity
C. The Canada Health Act and Significant Developments
   - Romanow Report, Building on Values, available at
     https://www.cimca.ca/i/m/The-Romanow-Report.pdf

. Allocation of Medical Resources

A. Macro-Allocation
B. Micro-Allocation
C. Special Issues

9. Personhood and Death

A. The Concept of Death
B. Criteria for the Determination of Death

Mid-term # 2 (app. Nov. 4)

10. Assisted Suicide and Euthanasia

A. Assisted Suicide
B. Killing vs. Letting Die
C. Arguments For and Against Euthanasia

11. Abortion

A. The Status of the Human Embryo/Fetus
B. Arguments For and Against Abortion
C. Ethical relevance of Methods of Abortion

12. The Right to Have Children

Readings: This is Bioethics:

Chapters 9 and 10; materials on Brightspace

Chapter 12 and 13; materials on Brightspace

Chapters 5 and 11; materials on Brightspace

Chapter 11; materials on Brightspace

Chapter 5; materials on Brightspace
Chapter 5; materials on Brightspace

A. Ambiguity of the Concept
B. Arguments For and Against the Right to Have Children
C. Surrogate Motherhood and Related Issues

13. Biotechnology

A. Ectogenesis
B. Cloning
C. Genetic Engineering, Etc.
D. Precision Medicine

14. Review

Readings: This is Bioethics:
Chapters 8 and 9; materials on Brightspace
