PHILOSOPHY 351 (A01): EPISTEMOLOGY
SPRING 2016

Class times
Tuesday, Wednesday, Friday 11:30-12:20pm, CLE (Clearihue) A303

Professor
Patrick Rysiew
Office Hours: Wednesday 2:30-3:30 & Friday 10:30-11:20, or by appointment, Clearihue B321
E-mail: rysiew@uvic.ca
Phone: 721-7520 (my office), 721-7512 (Philosophy Dept.)

Texts

C: Jack S. Crumley II, An Introduction to Epistemology, 2nd edition (Broadview, 2009);
ISBN: 9781551119076

CS: Additional readings will be made available via the course’s CourseSpaces page

Course Description
Epistemology is concerned with such things as knowledge, justification, evidence, rationality, doubt, truth, scepticism, and many others. This course is an advanced survey of issues and positions in contemporary epistemology. Subjects to be addressed include: analyses of knowledge, and whether knowledge admits of an analysis; the debate between foundationalists and coherentists; the internalism-externalism debate; why we should care about truth; naturalistic and feminist approaches to knowledge; the epistemology of disagreement; whether knowledge is somehow context-dependent; and what the proper response to scepticism might be. Students will read both the introductory textbook and original readings from leading figures in current epistemology. Upon successfully completing this course, students will have a very good sense of what is happening in contemporary epistemology.

Expectations
Students are expected to come to class having read the assigned readings, and prepared to talk and ask questions about the material. Students who miss a class are responsible for any material covered therein, as well as for finding out what announcements, if any, were made.

Three quick tips for doing well in the course
1. Come to class. When you must miss a class, let the instructor know ahead of time if you can; afterwards, talk to a classmate about what happened and try to get their lecture notes; visit the instructor in office hours.
2. Do the readings ahead of time, and read ‘actively’ – pay attention to what you’re reading, ask yourself what point(s) the author(s) is trying to make, why this matters, what questions you’d like to ask the author, and so on.
3. If you’re having difficulty with any of the course material (readings or lecture content), speak to the instructor – take advantage of scheduled office hours.
Evaluation

Students’ grades will be based on:

a) Two mid-term exams (worth 30% each), calling for short essay-style responses. For each exam, students will be given 4 study questions calling for essay-style responses; 3 of these will appear on the exam, and students will have to write a response to two of them.

b) Several short in-class quizzes (T/F, multiple-choice, fill-in-the-blank, short answer, etc.). These may or may not be announced ahead of time (10%).

c) A final paper (30%). 8-10 pages long; some topics will be suggested. Students may write on a topic of their own design, but only if they obtain the instructor’s permission in advance.

Contributions to class discussions may be taken into account in borderline cases – i.e., where a student’s final grade is right on the dividing line between grades. Beyond the student’s having adequately addressed the topic question(s) on which he/she writes, evaluation of students’ written work will be based on: evidence of comprehension of the materials and issues addressed; evidence of original and critical thought with regard to that material; the extent to which the student stakes out a position and provides good reasons and arguments for it; the extent to which the student communicates his/her ideas clearly (using complete and grammatical sentences, correct terms, a clear structure, and so on). For the papers, *the use of outside materials (i.e., any readings not assigned for the course) is prohibited*. All materials used in the papers must be properly cited in the standard way.

Without exception, *late assignments unaccompanied by a documented medical excuse will be penalized at the rate of 5% per day or portion thereof, starting as soon as the due date and time have passed*.

Numerical grades on assignments will be converted to a letter grade using the standard University scheme. Here is an extract from the University website (full version: [http://web.uvic.ca/calendar2014-09/FACS/UnIn/UARe/Grad.html](http://web.uvic.ca/calendar2014-09/FACS/UnIn/UARe/Grad.html)):

A C+ or C is earned by work that indicates an adequate comprehension of the course material and the skills needed to work with the course material and that indicates the student has met the basic requirements for completing assigned work and/or participating in class activities.

A D is earned by work that indicates minimal command of the course materials and/or minimal participation in class activities that is worthy of course credit toward the degree.

Plagiarism and other forms of cheating will not be tolerated. It is each student’s responsibility to know the University’s regulations in this regard. Ignorance of these regulations is not a valid excuse. The Policy on Academic Integrity can be found in the University Calendar: http://web.uvic.ca/calendar2015-05/FACS/UnIn/UARe/PoAcI.html.

Schedule of Topics and Readings
What follows is subject to revision at the instructor’s discretion. Any changes to the schedule will be announced in class. (If a student misses a class, he/she is responsible for finding out whether any such announcements were made, as well as for other class content.) Readings for a given subject/week are listed in the order in which you should read them.

Introduction, Scepticism: Epistemology, arguably, begins when we find ourselves unable to accept sceptical arguments and in need of an adequate response to them.

**Week 1 (Jan 5, 6, 8): Introduction**
-C: pp. 15-38 (= Introduction, and first part of Chapter 1)

**Understanding Knowledge:** Historically, knowledge and justification have been the main topics in epistemology. Over three weeks, we’ll (re)familiarize ourselves with some basic concepts and distinctions, and look at Gettier’s famous argument against the idea that knowledge is justified true belief, as well as some post-Gettier attempts to understand knowledge. We’ll also consider some views that pull apart knowledge and justification, and some general reasons to wonder about the prospects for a satisfactory analysis of ‘knowledge’.

**Week 2 (Jan 12, 13, 15): JTB, Gettier, and JTB+**
-C: Chapter 2
-Gettier, “Is Justified True Belief Knowledge?” (CS)

**Week 3 (Jan 19, 20, 22): can the Gettier problem be solved? is it a good idea to try to analyze ‘knowledge’ in the first place?**
-Zagzebski, “The Inescapability of the Gettier Problem” (CS)
-Williamson, excerpt from Knowledge and Its Limits (CS)

**Week 4 (Jan 26, 27, 29): non-justificationist approaches to knowledge**
-Nozick, excerpt from Philosophical Explanations (CS)
-Dretske, “Précis of Knowledge and the Flow of Information” (CS)
The Structure of Justification - Foundationalism and Coherentism: A long-standing debate within epistemology, it centers on whether all beliefs owe their justification to other beliefs.

**Week 5 (Feb 2, 3, 5): foundationalism vs coherentism**
-C: Chapters 4, 5

**First Midterm: Friday Feb. 5**

Feb 9, 10, 12, [no classes: reading break]

Reliabilism and the Internalism/Externalism Debate: Reliabilism is a recent competitor to ‘internalist’ theories of justification and knowledge. In recent years, the internalism/externalism debate has been a central dispute in contemporary epistemology.

**Week 6 (Feb 16, 17, 19): reliabilism, pro & con**
-C: Chapter 3
-Goldman, “What is Justified Belief?” (CS)
-Bonjour, “Externalist Theories of Empirical Knowledge” (CS)

**Week 7 (Feb 23, 24, 26): (more on) the internalism-externalism debate**
-C: Chapter 6
-excerpts from Lehrer (Theory of Knowledge, “Discursive Knowledge”) (CS)
-Dretske, “Two Conceptions of Knowledge: Rational vs. Reliable Belief” (CS)

‘Naturalized’ Epistemology: Since Quine’s famous paper, “Epistemology Naturalized” (1969), whether we ought to ‘naturalize’ epistemology – and what, exactly, that involves – has been a matter of much controversy.

**Week 8 (March 1, 2, 4-[no class March 4]): ‘naturalism’, pro and con**
-C: Chapter 7
-Kornblith, “In Defense of a Naturalized Epistemology” (CS)
-optional: Quine, “Epistemology Naturalized” (CS)

Epistemic Values and Norms: It is standard to assume that truth is the epistemic goal, and that anything that is epistemically valuable owes that value to its contribution to truth. But why would truth have this status? And why should we care about epistemic norms?

**Week 9 (March 8, 9, 11): epistemic normativity**
-Kornblith, “Epistemic Normativity” (CS)
-Grimm, “Epistemic Normativity” (CS)

*Study Questions for second midterm distributed Friday March 11
*Suggested paper topics distributed
Feminist Epistemology: In some ways allied with naturalistic approaches (as well as themes within social epistemology), feminist theory has challenges various assumptions of traditional epistemology.

**Week 10 (March 15, 16, 18): feminist epistemology**
- C: Chapter 8
- Longino, “Feminist Epistemology” (CS)

*Second midterm: Friday March 18*

The Epistemology of Disagreement: Does the fact that someone disagrees with you about some question give you reason to modify your opinion? What if they are your epistemic peer and have all the same evidence you do?

**Week 11 (March 22, 23, 25-{no class March 25: Good Friday}): disagreement**
- Christensen, “Disagreement as Evidence: The Epistemology of Controversy” (CS)

Scepticism (again): We return to scepticism, and look at a number of responses to sceptical arguments, including the recent and controversial contextualist response.

**Week 12 (March 29, 30, April 1): why not scepticism?**
- C: Chapter 1, pp. 38-52
- Lewis, “Elusive Knowledge” (CS)

*Papers due: Friday April 1*

**Some important administrative dates** (http://web.uvic.ca/calendar2015-05/GI/2AYeID.html)
Sun., Jan. 17: last day for 100% reduction of fees  
Wed., Jan 20: last day for adding second-term courses  
Sun., Feb. 7: last day for 50% reduction of tuition fees. 100% of tuition fees will be assessed for courses dropped after this date.  
Mon, Feb. 29: last day for withdrawing from second-term courses without penalty of failure
