### PHILOSOPHY 201: Critical Thinking A01: 10 – 11:20am, DTB A120, CRN: 12474 A02: 11:30am – 12:50pm, COR B135, CRN: 23935 Mondays, Thursdays **Course Outline**

| Instructor:    | Dr. C. Klatt  |
|----------------|---|
| Office:        | CLE B311  |
| Email:         | cklatt@uvic.ca  |
| Office Hours:  | Mondays and Thursdays 1pm – 2pm and by appointment  |
| Drop-In Hours: | Wednesdays 12:30 – 2:30pm in CLE A314 and some Fridays (see schedule on CourseSpaces)   |
| Text:          | <i>The Power of Critical Thinking</i> 3 <sup>rd</sup> , 4 <sup>th</sup> or 5 <sup>th</sup> Can. Ed. By<br>Vaughn and MacDonald (Used copies can often be found at<br>the UVic Bookstore or at SUBText). |

#### Course Objectives:

Arguments serve as a way to persuade others that something is true. Arguments allow us to increase our knowledge of the world in the absence of direct observation. We see arguments every day: in the newspaper, in advertising, in lectures, in common conversation. Argumentation plays such a large role in our lives that we would be remiss if we did not take the time to learn how to evaluate them effectively. In this class we will investigate various techniques that can be applied to determine the worth of arguments. There is a treatment of elementary principles of deductive and inductive logic as well as informal fallacies. An understanding of the basics of logic will help the student write better essays, read more efficiently and think critically. This course will also be of benefit to anyone who plans to write the LSAT or GRE exam.

#### Grading:

| Best 10 of 15 homework assignments @ 2.5% each   | =                 | 25% |
|--|-------------------|-----|
| 5 Tests @ 15% each   | =                 | 75% |
| (Jan. 23 <sup>rd</sup> , Feb. 3 <sup>rd</sup> , Feb. 24 <sup>th</sup> , Mar. 12 <sup>th</sup> , Apr. 1 | 2 <sup>nd</sup> ) |     |

No Final Exam

The final grade will be recorded as a percentage. A+ = 90 - 100; A = 85 - 89; A- = 80 - 84; B+ = 77 - 79; B = 73 - 76; B- = 70 - 72; C+ = 65 - 69; C = 60 - 6; D = 50 - 59; F = 0 - 49.

# Homework:

Homework assignments will be completed online through CourseSpaces. I will spend some time during the first week of class explaining how to write the assignments online. If you have any questions, please email me. The assignments can be written any time **before 8 pm** on the day it is due (unless otherwise stated). For exact due dates see the *Syllabus* below. If you miss the homework assignment you will be able to view the answers online after the due date as long as you have opened the assignment before the due time. Please note that **it will be very difficult to do well in this course if you do not attempt most of the homework**. Late assignments will not be graded.

# Course Material on CourseSpaces:

I will put my lecture overheads, homework assignments, practice tests, solutions to selected homework problems, and any handouts given in class on CourseSpaces. I will also use our class CourseSpaces site to post grades. If you do not have consistent access to the internet then please come talk to me, and I will make a paper copy of the abovementioned available in the library.

# When you need help:

There are a number of different ways to receive assistance with any problems that you have with the material:

i) **Practice Questions on CourseSpaces** – Practice assignments with detailed explanations for the answers are available on our CourseSpaces site.

ii) **Drop-in hours** – Wednesdays 12:30– 2:30pm in CLE A314 and some Fridays (see schedule on CourseSpaces)

The instructor will be available to discuss any problems that you have with the course material.

iii) **Office hours** – Mondays and Thursdays 1 – 2pm and by apt.

Please feel free to come by my office during office hours to discuss any difficulties with the course material or homework problems. Most of the difficulties that student's have with logic can be cleared up quite easily. I encourage you to work and study with your classmates; they can be a great resource. However, please see below for information about what kinds of sharing information count as academic misconduct. If you have any questions, please ask me in advance. If you cannot attend the scheduled office hours then please email me and we will make other arrangements.

### When you miss a test or assignment:

Since I will be counting only the top 10 of 15 assignment grades, there is no need to contact me unless your illness causes you to miss more than five assignments.

If you miss a test, email me as soon as possible. You will have an opportunity to make up the missed material. Each student is permitted to miss ONE test without the need for proper documentation (e.g. doctor's note). For all other missed tests, students will need to submit proper documentation. The missed test will be written during the earliest rewrite session. That is, if you miss a Monday test, you will write that Friday. If you miss a Thursday test, you will write the following Tuesday.

# Other Information

For N grades and DEF status, please see Calendar.

Information regarding religious observance can be located in the UVIC Calendar, and in posted Department of Philosophy Policies.

Tests will be returned in class as soon as they are graded. For those students who have signed a Department of Philosophy Privacy Waiver (available on CourseSpaces), graded work will be distributed in class. All other graded materials must be picked up from the instructor during office hours.

# Academic Misconduct

See the section *Policy on Academic Integrity* in the UVic calendar for information on cheating and its consequences.

https://web.uvic.ca/calendar2018-05/undergrad/info/regulations/academic-integrity.html

#### In particular, note that:

"Cheating includes, but is not limited to:

- copying the answers or other work of another person
- sharing information or answers when doing take-home assignments, tests or examinations except where the instructor has authorized collaborative work
- having in an examination or test any materials or equipment other than those authorized by the examiners
- accessing unauthorized information when doing take-home assignments, tests or examinations
- impersonating a student on an examination or test, or being assigned the results of such impersonation
- accessing or attempting to access examinations or tests before it is permitted to do so

Students found communicating with one another in any way or having unauthorized books, papers, notes or electronic devices in their possession during a test or examination will be considered to be in violation of this policy.

Aiding Others to Cheat

It is a violation to help others or attempt to help others to engage in any of the conduct described above."

Cheating will not be tolerated and will result in a zero on the test or assignment or failure in the course.

This syllabus is tentative and subject to change.

What is the sense of studying philosophy if all that it does for you is enable you to talk with some plausibility about some abstruse questions of logic, etc., and if it does not improve your thinking about the important questions of everyday life? – Ludwig Wittgenstein
