Alcalá de Henares Study  
Abroad – 2024 Participants

*“Studying in Spain has not only given a hyper-boost to my Spanish vocabulary and communication skills, because I am immersed in the language every day, but has also been such an engrossing cultural experience. I've learned so much about Spanish culture, and become enveloped in it myself, not to mention the dozens of other cultures I interact with every day while living in the dorm and studying with students from around the world.”*
