Graduate Registration Form
Complete the PDF version of this form for full functionality.
Submit this form to your graduate secretary; they will forward this to GARO

Use this form to register if you cannot do so through the online registration system: late registration, undergraduate courses, courses outside your home department, audit or for no credit, or section changes after the registration deadline. Students may only register in courses which are not part of the formal requirements of their graduate program if the courses will contribute to the research or provide background for the program. This form is not to be used to take courses for eventual transfer to a subsequent program. To drop courses, visit your Online Tools, or submit a Graduate Academic Concession form if the Academic Drop deadline has passed.
