# SURVEY OF UNDERGRADUATE UNIVERSITY STUDENTS:

## University of Victoria

June 2005

Prepared for:
Canadian Undergraduate Survey Consortium

**CANADIAN UNDERGRADUATE SURVEY CONSORTIUM ("CUSC")**

# PROTOCOL FOR DATA USE

Members of the consortium are bound by the following protocol for the control of survey data.

It was agreed by the participants that data were owned collectively and would be distributed only by collective agreement.

1.   The purpose of the survey is to produce data that will allow participating institutions to assess their programmes and services.  Comparisons with other institutions are made to assist in these assessments.  Ranking of institutions is not, in itself, a purpose of the survey.

2.   The survey data are owned collectively by the participating institutions.

3.   The report that has been prepared may be reproduced and distributed freely on the campuses of participating institutions.  However, use of the institutional code key is restricted to members of the steering committee and senior administration at the various campuses <u>on a confidential basis</u>.

4.   Institutions will receive a data package that includes data for all participating institutions along with the institutional identifiers so that appropriate institutional comparisons can be made by each institution.  This must be done in a way that protects the confidentiality of the institutional identities and respects the absolute right of each institution to decide what portions of its data should be disclosed.

5.   For institutional promotion, recruiting or other public dissemination, rankings may not be used.  However, an institution's mean results, the aggregate mean results, and mean results for the comparable group of institutions in the survey report may be used, although the names of other institutions may not be used.

6.   Access to the aggregate data for research purposes may be granted to interested persons provided that the intended use is a legitimate, non-commercial one, the researcher is qualified and agrees to acknowledge the ownership of the data by participating universities and to provide the consortium with a copy of any report or publication that is produced.  Decisions on such requests will be made by a sub-committee consisting of Dennis Domoney and Garth Wannan with consultation with members of the full steering committee in the case of requests that seem problematic.

Amended May 17, 2001

**DEDICATION**

This report is dedicated to Dr. James L. Walker, author of the
original Canadian University Survey Consortium (CUSC) reports.
His contribution has been critical to both the growth and success
of the Consortium and is greatly appreciated.

APPENDIX D          LETTERS

## EXECUTIVE SUMMARY

## Methodology

This is the eleventh cooperative study undertaken by the Canadian Undergraduate Survey Consortium (CUSC). The surveys target various undergraduate groups; five of the surveys, including this year's, have focused on a sample of all undergraduates, while others have targeted specific types of students.

Twenty-eight universities across Canada participated in the 2005 survey. Traditionally, this has been a paper-based survey, which is mailed to students. This year, as part of a pilot project, six universities participated in an on-line version of the survey. Universities participating in the paper-based survey distributed packages consisting of a cover letter, questionnaire, and a postage-paid, self-addressed return envelope to a sample of about 1,000 undergraduate students. Those participating in the pilot study provided PRA Inc. with e-mail addresses for a random sample of 1,000 students, an electronic logo for their university, and an electronic signature of a university official. PRA managed the on-line survey, which involved liaising with universities and the company that hosted the on-line survey. The overall response rate was about 46% and produced a sample of almost 12,800 students.

## Profile of respondents

### Personal profile

The typical student who responded is female, 22 years of age, and single. In fact, about 64% of the respondents are female, 62% are younger than 22 years of age, and 89% are technically single, although many (28%) are in a long-term relationship. Most students live independently (57%), most often in rented accommodations, but also in an on-campus residence or a personally owned home. The remaining students live with their parents. Some 15% of students self-identify as a visible minority, 3% report being Aboriginal, and 6% report having a disability.

### Academic profile

The typical undergraduate student is attending university full-time, has been in post-secondary education for almost three years, and is planning to complete a degree at his or her current university. Most commonly, students plan to complete their post-secondary education with a Bachelor's (33%) or Master's (31%) degree, although about 14% plan to obtain a Ph.D. Most students report that their current average grade is between a B and B+, although this average tends to rise as students progress in their studies.

### Time availability

On average, students spend 15 hours per week attending class and labs, and another 17 hours per week on academic study outside of class. Students typically complete an average of 11 papers, reports, or assignments during the academic year.

Most students report being satisfied with the amount of time they have for study outside of classes and labs, but this appears to come at the expense of time devoted to family, work, and leisure. Almost all students (89%) report having at least some time available each week for study outside of class and labs, and most are satisfied (71%) with the amount of time they have available for this activity. Fewer students (64%) report having at least some time available for weekly family responsibilities, and while most are satisfied (63%), many are not. Fewer still (58%) say they have at least some time available for work each week, although most (63%) are satisfied with this time availability. Similarly, while most (58%) say that each week, they have at least some time available for leisure activities, fewer (53%) are satisfied with the amount of time they have available to devote to this activity.

### Type of academic instruction

The majority of students report that most of their instruction is classroom based, although many also report that they have at least one such class with on-line supports. Indeed, among undergraduates, in-class instruction with on-line supports is the most common (with 77% reporting at least one class taught this way). Most students (73%) also report taking courses that use strictly classroom-based instruction. Other methods of instruction are less common: a mix of classroom and on-line instruction (21%) or strictly on-line instruction (10%).

Regardless of the type of teaching method, a majority of students report being satisfied with that type of instruction. However, in-class instruction with on-line supports remains the most favoured approach. Almost all students (93%) who have experience with in class instruction with on-line supports are satisfied with this teaching method. In fact, some 66% of students say that this is the preferred method of instruction. The majority of those (82%) who have taken courses with a mix of in-class and on-line instruction are satisfied with this approach, and another 12% of students overall say it is their preferred type of instruction. Many students (79%) who have taken strictly classroom-based courses are satisfied with this approach. About 18% of all students say this is their preferred method of instruction. Few prefer methods that rely strictly on on-line instruction.

## Work and financing education

### Current and future employment

Just over half (53%) of undergraduate students are currently employed, most commonly working off campus (44%). The remaining students (46%) are not employed, including 32% who are not seeking employment. Students who are employed work an average of 18 hours per week. Some

64% of those who are working say that their employment has at least some negative impact on their academic performance.

Part-time students (76%) are more likely to be employed than full-time students (50%). A typical part-time student who is employed spends an average of 31 hours per week at a job. This compares to 16 hours per week for full-time students who are employed.

Most undergraduate students have made some decisions about a career path. A slim majority (56%) report that they have decided on a career path, while some others (28%) report that they may have decided. Regardless, most students (69%) have a current curriculum vitae or resume, which suggests that they are ready to seek employment.

While some students (26%) are optimistic about their job prospects, saying that many jobs are available in their career field, others (20%) believe there are few such jobs. Many students (41%) believe there will be some jobs in their field. As students near graduation, their perception of the job market becomes less favourable. Only 23% of fourth-year students believe there are many jobs in their career field compared to 30% of first-year students.

### Current debt

About half of all undergraduate students (51%) report having at least some debt resulting from their university education. The most common source of debt is student loans, which 33% of all students report using. Other common sources of debt are loans from parents or family (18%) and loans from financial institutions (16%). On average, students with debt report owing more than $16,000. Typically, as students progress in their studies, their debt load increases.

### Financing education

Students tend to use multiple sources to fund their current year of university. The most common source, used by more than half of the respondents (56%), is parents or family. Other common sources include earnings from summer work (42%), personal savings (38%), earnings from current employment (31%), and government loans or bursaries (30%). On average, students report receiving almost $11,300 from these and other sources.

Since most students depend on multiple sources of funding, perhaps it is not surprising that 71% of students have at least some concern about having sufficient funds to complete their education. The loss of any one source could prevent them from completing their post-secondary education.

Credit cards appear to be a common source of managing cash flow as about 70% of students report having at least one credit card. However, credit cards do not seem to be a major source of debt for most students. About 73% of students with credit cards say that they pay off their balance each month. However, the average outstanding balance for those who do not pay off their credit card each month is almost $2,500.

## Perceptions of university

In general, students tend to have a positive impression of most aspects of their university. However, about half (48%) believe that sometimes, their university gives them the run around.

The vast majority of students also have positive impressions of their universities in terms of treating students fairly, independently of race or gender (over 90% in both cases). They also feel that they have had an intellectually stimulating experience at their university (86%).

### Services prior to class

Most students are satisfied with the services they received prior to class. About 76% of students report being satisfied with the process of registering for courses, including 29% who are very satisfied. Slightly fewer, but still a majority of students (63%), are satisfied with the availability of courses required for their program, including 16% who are very satisfied. Students' satisfaction with course availability decreases as they progress through university. While 74% of those in first-year are satisfied with the availability of courses, this decreases to less than 60% of students in third and fourth year.

### Services and facilities

Most students report being satisfied – although not necessarily very satisfied – with key educational services and facilities at their institutions. A majority of students are satisfied with academic facilities such as average class sizes (88%), libraries (82%), instructional facilities (80%), and the general condition of buildings and grounds (78%). Fewer students, although still a majority, are satisfied with the available study space (68%).

A majority of students are also satisfied with most other university facilities and special services offered such as computer facilities, campus medical services, and university-based social activities. They are not satisfied with practical services such as parking and food services. In fact, only 39% of students who have used the parking facilities are satisfied with them.

Relatively few students report using many of the special services tested. That said, most students who use these services are satisfied. Special services include such things as study skill support services, career counselling, and academic advising. Students attending Group 1 universities are more likely to be satisfied with special services than those attending Group 2 and Group 3 universities.

### Perception of faculty

Regardless of the type of university, students tend to report positive experiences with faculty. However, in several areas, students attending Group 1 universities are more likely than those attending Group 2 and Group 3 institutions to agree.

More than 80% of students report that professors encourage student participation in class, are available outside of class to help students, and show sensitivity to racial issues. About 75% agree that professors are sensitive to gender issues, generally look out for students' interests, and treat students as individuals, not just numbers.

This generally positive perception of professors is reflected in the fact that 83% of students agree that they are satisfied with the quality of teaching they have experienced at their university, including 16% who strongly agree. That said, about 16% disagree.

## University experience

### Campus activities

Generally, students' involvement in on-campus, non-academic activities appears to be limited. Although many students report attending events occasionally, few are often involved in any one activity. That said, the most common activities, often attended by less than one-fifth of students, are campus lectures and campus social events.

### Personal growth and development

We asked students to rate their university's contributions to their personal growth and development in 24 different areas. On average, these universities receive a rating between a "C" and a "B" on most items tested, suggesting that they are doing a fair to good job.

On average, universities tend to receive the highest score for contributing to students' growth and development in terms of working independently. About three-quarters of students rate their university's contribution as good or excellent in this regard. Universities also receive higher-than-average grades for their contribution to students' development of thinking logically and analytically and cooperative group interaction. In both cases, about 6 students in 10 or more rate their universities as good or excellent.

Universities receive the lowest scores in terms of contributing to students' spiritual development. Only one-quarter of students rate their university as doing a good or excellent job in this regard. Other aspects receiving low scores include: appreciation of the arts; preparation for employment; and mathematical skills.

## Areas requiring improvement

Twice we asked students to rank from separate lists the three areas requiring the greatest improvement at their university. Opinions are diverse, and no single facility or service was named by a majority of respondents. Among some 30 facilities and services tested, both academic and practical concerns top the list. The two most commonly cited areas that require improvement are emphasis on teaching excellence (41%) and parking facilities/student parking (40%). These are closely followed by: food services (37%) and university spending on financial

aid (35%). Students also indicate that other areas relating to the balance between academics and social life (28%) and a sense of community among students (28%) are in need of improvement.

## Overall satisfaction

While universities do not necessarily receive high ratings in terms of their contribution to personal growth and development issues, students are generally satisfied with their experience at university.  In particular, the vast majority of students (89%) report being satisfied with their decision to attend their current university, and almost as many (86%) are satisfied with the quality of education they have received from their university.  However, according to students, universities do not perform as well in showing concern for students as individuals or making students feel as if they are part of the university. About 3 students in 10 are dissatisfied with their institutions in these areas.

## Conclusion

There is remarkable consistency among students' responses across time. As in past years, undergraduate students are generally satisfied, if not very satisfied, with their university experience. Almost all students report being satisfied with two key facets, that is, with the overall quality of education they are receiving and with their choice of university.

However, students can identify areas that require improvement.  Indeed, when students are asked to name the three top areas needing improvement at their university, four issues stand out: emphasis on teaching excellence; university spending on financial aid; balance between academic and social life; and sense of community among students.

## 1.0     Introduction

This is the eleventh cooperative study undertaken by the Canadian Undergraduate Survey Consortium (CUSC). The surveys have targeted various undergraduate sub-samples; five of the surveys have focused on a sample of all undergraduates, while others have targeted specific types of students. The 2005 study presents the results for all undergraduate students regardless of the year of program.

Table 1 shows the types of students surveyed each year by CUSC.

| Table 1:  Past CUSC surveys | | |
|---|---|---|
| **Year** | **Sample** | **Number of participating universities** |
| 1994 | All undergraduates | 8 |
| 1996 | All undergraduates | 10 |
| 1997 | Graduating students | 9 |
| 1998 | First-year students | 19 |
| 1999 | All undergraduates | 23 |
| 2000 | Graduating students | 22 |
| 2001 | First-year students | 26 |
| 2002 | All undergraduates | 30 |
| 2003 | Graduating students | 26 |
| 2004 | First-year students | 27 |
| 2005 | All undergraduates | 28 |

Each study is coordinated through the University of Manitoba Department of Housing and Student Life by Garth Wannan, and is a cooperative effort by all universities involved.

## 1.1     How this research was conducted

Each year, PRA Inc. (Prairie Research Associates) and representatives from several participating universities review past surveys and methodology to prepare the future questionnaire. Representatives of participating universities reviewed the draft for 2005, which PRA then revised to produce the final questionnaire (Appendix A.).

Except for independent or special students, this year all undergraduates, either full-time or part-time, were eligible to participate in the survey.

Traditionally, this is a paper-based survey, which is mailed to students. This year, as part of a pilot project, six universities participated in an on-line version of the survey.

Below we summarize the methodology used for each approach.

## Paper-based survey

Each university participating in the paper-based survey supported the study by:

- generating a random sample of 1,000 students who were undergraduate students in 2005

- mailing a package containing a cover letter, questionnaire, and a postage-paid, self-addressed return envelope to sampled students

- mailing a reminder letter to all non-respondents approximately two to three weeks after the original mailing

- mailing a final reminder letter to all non-respondents approximately four to six weeks after the original mailing

- reviewing and returning the completed questionnaires to PRA for processing.

Appendix B presents the methodology guidelines for universities participating in the paper-based survey.

## On-line survey

Each university participating in the on-line survey supported the study by:

- generating a random sample of 1,000 students who were undergraduate students in 2005 and providing PRA with an electronic database containing the e-mail addresses for these students

- providing PRA with an electronic logo for their university and the electronic signature of a university official. Both items were included in an e-mail that was sent to the sample of students.

Appendix C presents the methodology guidelines for universities participating in the on-line survey.

PRA was responsible for managing the on-line survey. This involved liaising with universities participating in the pilot study, providing the company contracted to host the on-line survey with a database of student e-mail addresses, preparing the introductory

and reminder letters to students, and responding to student questions about questionnaire content as well as technical questions about using the on-line survey.

PRA was also responsible for compiling the data for the on-line and paper surveys. This involved reviewing completed questionnaires (on-line and paper-based), coding responses to open-ended questions, entering the responses from the paper survey on computer, merging the on-line and paper-based datasets, reconciling/correcting any data errors, and programming the data tables using SPSS.

Table 2 shows the response rate by university, which ranged from about 34% to 55% with an average of 45.7%. This represents a good response rate for a survey of this type. In total, 12,783 complete surveys were returned as part of this study.

| Table 2: Survey response rate | | |
|---|---|---|
| **University** | **Number returned** | **Response rate** |
| Alberta | 473 | 47.3% |
| British Columbia | 498 | 49.8% |
| Brock | 409 | 40.9% |
| Calgary | 477 | 47.7% |
| Carleton | 358 | 35.8% |
| Concordia | 397 | 39.7% |
| Dalhousie | 386 | 38.6% |
| Lakehead | 434 | 43.4% |
| Lethbridge | 553 | 55.3% |
| Manitoba | 406 | 40.6% |
| Montréal | 552 | 55.2% |
| Mount Saint Vincent | 498 | 49.8% |
| New Brunswick (Fredericton Campus) | 435 | 43.5% |
| Nipissing | 515 | 51.5% |
| Northern British Columbia | 513 | 51.3% |
| Ottawa | 437 | 43.7% |
| Regina | 501 | 50.1% |
| Ryerson Polytechnic | 416 | 41.6% |
| Saint Mary's | 436 | 43.6% |
| Saskatchewan | 478 | 47.8% |
| Simon Fraser | 551 | 55.1% |
| Toronto at Scarborough | 385 | 38.5% |
| Trinity Western | 470 | 47.0% |
| Wilfrid Laurier | 527 | 52.7% |
| Windsor | 405 | 40.5% |
| Winnipeg | 495 | 49.5% |
| Victoria | 341 | 34.1% |
| York | 437 | 43.7% |
| Total | 12,783 | 45.7% |

For comparison purposes, we have categorized the participating universities into three groups (see Table 3):

- Group 1 consists of universities offering primarily undergraduate studies and with smaller student populations.

- Group 2 consists of universities offering both undergraduate and graduate studies and tend to be of medium size in terms of student population.

- Group 3 consists of universities offering both undergraduate and graduate degrees, with most having professional schools as well. These tend to be the largest institutions in terms of student populations.

| Table 3: Categories of participating universities | | |
|---|---|---|
| **Group 1** | **Group 2** | **Group 3** |
| Lakehead University | Brock University | University of Alberta |
| University of Lethbridge | Carleton University | University of British Columbia |
| Mount Saint Vincent University | University of New Brunswick | University of Calgary |
| Nipissing University | (Fredericton Campus) | Concordia University |
| University of Northern British | University of Regina | Dalhousie University |
| Columbia | Ryerson Polytechnic University | University of Manitoba |
| Saint Mary's University | Simon Fraser University | Université de Montréal |
| Trinity Western University | University of Toronto at Scarborough | University of Ottawa |
| Wilfrid Laurier University | University of Windsor | University of Saskatchewan |
| University of Winnipeg | University of Victoria | York University |

Participating universities change from year to year. Six universities that participated in the 2002 survey declined to participate in the 2005 survey. However, four universities that did not participate in the 2002 survey decided to join this year's survey. See Table 4.

| Table 4: Changes in participating universities | | |
|---|---|---|
| | **Included in 2005, but not in 2002** | **Included in 2002, but not in 2005** |
| Group 1 | Northern British Columbia | UNB (Saint John) Ontario College of Art & Design Trent University |
| Group 2 | Brock Victoria | Waterloo |
| Group 3 | York | Queens McMaster |

### 1.2 Discipline or area of study

Students recorded their major or subject area of concentration, which their university or PRA recoded into approximately 100 subject areas. PRA also grouped these subject areas into nine themes.

The process for defining subject area of concentration (or major) moved through the following steps:

- Individual universities reviewed and categorized student responses. However, some students recorded their personal area of interest rather than their current area of study. Some participating universities ignored students' responses and categorized area of concentration based on administrative records.

- Those universities that did not code a student's area of study left it to PRA to make the decision. When a student's response was vague, unclear, or did not obviously fall into an existing category, we classified it as "other field."

- If students provided more than one major field of study, all were recorded, but the first listed became primary for purposes of the classification shown in Table 5.

| Table 5: Subject of major concentration | |
|---|---|
| **Discipline** | **%<br>(n=12,783)** |
| Social Science | 23% |
| Arts and Humanities | 17% |
| Business | 15% |
| Biological Science | 9% |
| Professional | 9% |
| Engineering | 5% |
| Physical Science | 4% |
| Education | 4% |
| Other fields | 10% |
| Don't know/No response | 3% |
| Total | 99% |
| Note: Columns may not sum to 100% due to rounding. | |

### 1.3     Comparison with previous undergraduate student survey

In 2002, a similar survey was conducted with graduating students. Throughout this report, we compare the results of this survey with the results of the 2002 study. However, we note that not all universities that participated in 2002 also participated in 2005. Further, some of the universities participating this year did not participate in 2002. Thus any difference may result from the inclusion of different universities rather than changes over time. We include these comparisons as a point of interest but recognize that further investigation may be necessary to more definitively assess true differences across time. That said, there are few differences in results between the two surveys.

### 1.4     Statistically significant differences

Large sample sizes may inflate measures of statistical significance and lead to false conclusions about the strength of association. The chi square measure of association, in particular, is susceptible to this. Therefore, we increased the standards for designating whether a relationship can be termed "statistically significant." Two of the benchmarks shown in Table 6 must be met for us to term the association *statistically significant:* the Pearson's chi square must have probability of a type 1 error of .000 or less, and the Phi coefficient or Cramer's V must have values of .150 or greater. Throughout this document, we only report differences that meet this criteria.

| Table 6:  Criteria for statistical significance | |
|---|---|
| **Test** | **Level for significance** |
| Pearson's chi square | .000 |
| Phi coefficient | .150 or higher |
| Cramer's V | .150 or higher |

## 1.5     Outliers

Outliers can be caused by student error in recording their response or data entry errors at PRA. After scanning the data for values that deviate from the norm, and verifying/correcting any data entry errors, we accepted the values provided by students as valid responses.  This still means that the data may contain responses that some would consider unrealistic given the question asked. The number of these "outliers" is small, and rather than arbitrarily setting a minimum and maximum, we have included such responses in the analysis.[1] The impact on the distribution of results is small, and we believe it does not bias the results.

## 1.6     Non-response

As has been the practice for the last several years, non-responses have been included in the analysis.  Thus, throughout this report, unless explicitly stated as a sub-population, overall results include those who did not respond to a particular question.

---

[1]    Three exceptions are: question 28 where responses of less than $10 were set to zero, question 29 where responses of less than $25 were set to no response, and question 49 where responses totalling more than 10 children were set to no response.

## 2.0    Profile of respondents

In this section, we provide a profile of undergraduate students who participated in the survey.

### 2.1    Personal profile

As shown in Table 7, in 2005 overall, the typical student is a 22-year-old single female.

- Almost 2 students in 3 are female, which is typical in opinion research since females are more likely to respond to surveys and reflective of the make-up of Canadian universities. While the majority of students in most disciplines are female, only 19% of Engineering students and 49% of Physical Science students are female. Disciplines with the highest proportion of female students are Professional (86%) and Education (81%) programs.

- The typical undergraduate student is an average of 22 years of age. However, just over 6 students in 10 (62%) are younger than 22. About 1 student in 10 (14%) is 26 years of age or older, including one student who is 76 years old. Students in Biological Science and Physical Science programs tend to be younger (24% and 22%, respectively, are 18 years of age or younger), while those in Professional and Education programs tend to be older (25% in each program are 26 years of age or older).

- More than 6 in students 10 say they are single, including 42% who consider themselves *single and not seeing someone* and 19% who are currently *single and seeing someone*. The remaining students are in a *long-term relationship* (28%) or are *married* (8%).

- About 1 student in 7 (15%) self-identifies as a *visible minority*, the most common being Chinese (3%), South Asian (2%), Black (2%), and Asian (1%). Students are more likely to self identify as visible minorities in Group 2 and 3 universities, which reflects the fact that these universities tend to be in larger, urban centres.

- Less than 1 student in 10 (8%) *has children,* most commonly one or two children (38% each of those with children).

- About 1 student in 20 (6%) reports *having a disability*, most commonly a learning (2%) or mental health (2%) disability.

- Few students (3%) self-identify as *Aboriginal*, either *First Nations*, *Métis*, *Inuit*, or *non-status*.

| Table 7: Personal profile | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |

As Table 8 shows, the personal characteristics of students participating in 2005 are almost identical to those in 2002. That said, students this year are slightly younger, which likely reflects the elimination of Grade 13 in Ontario after the 2001-02 academic year.

| Table 8: Personal profile: A comparison 2005 and 2002 | | |

| Total self-identified | 3% | 3% |
| Note: The 'don't know/no response' category is not shown. Therefore, columns may not sum to 100%. | | |

### 2.1.1  Living arrangements

Table 9 shows undergraduate students' living arrangements.

- Some 4 students in 10 (42%) live *with their parents*. Students attending Group 1 universities (32%) appear to be less likely to report this living arrangement compared to students at Group 2 (46%) and Group 3 (49%) universities.

- Almost 6 students in 10 live independently. Most rent accommodations (37%), with (30%) or without roommates (7%), and some live in *on-campus residence* (12%) or in a *personally owned home* (8%).

The typical student travels an average of 28 minutes (one-way) to university.

- Although 2 students in 3 live within half an hour of the university, 7% of students live more than an hour from their university. Students attending Group 1 universities tend to live closer to their university than students attending Group 2 or 3 universities. In fact, 20% of Group 1 students live within 5 minutes of their university, compared to 16% of Group 2 and 10% of Group 3 students. This likely reflects the fact that Group 1 universities are in smaller communities.

| Table 9: Living arrangements | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Living arrangements Q46*** | | | | | |
| With parents | 42% | 32% | 46% | 49% | 27% |
| Rented home/apartment/room (shared/alone) | 37% | 41% | 35% | 35% | 49% |
| On-campus residence | 12% | 16% | 11% | 8% | 12% |
| Personally owned home | 8% | 9% | 7% | 7% | 11% |
| **Distance from university (minutes) Q47** | | | | | |
| 0/Not applicable** | 5% | 5% | 5% | 4% | 13% |
| 5 or less | 10% | 15% | 11% | 6% | 10% |
| 6 to 15 | 26% | 34% | 26% | 19% | 30% |
| 16 to 30 | 27% | 25% | 27% | 30% | 29% |
| 31 to 60 | 21% | 12% | 21% | 29% | 14% |
| Over 60 minutes | 7% | 3% | 9% | 11% | 2% |
| Average number of minutes to get to campus*** | 28.1 | 20.7 | 29.2 | 34.2 | 21.8 |

Note: * Respondents could provide more than one answer. Therefore, columns may not sum to 100%.
** The '0/Not applicable' category includes those who said zero minutes, that the question was not applicable, that they live on campus, take part in distance education or take courses on-line.
*** Those who said more than 6 hours have been excluded from the calculation of the average.
The 'don't know/no response' category is not shown. Therefore, columns may not sum to 100%.

Students' living arrangements in 2005 are similar to those in 2002. It appears that slightly more students are living at home than independently in 2005, which may reflect the fact that students responding to this year's survey are slightly younger than in 2002.

| Table 10: Living arrangements: 2005 and 2002 | 2005 (n=12,783) | 2002 (n=12,695) |
|---|---|---|
| With parents | 42% | 39% |
| Rented home/apartment/room | 37% | 38% |
| On-campus residence | 12% | 14% |
| Personally owned home | 8% | 8% |

Note: Respondents could provide more than one answer. Therefore, columns may not sum to 100%.

### 2.1.2  Permanent residence

Undergraduates come from communities of various sizes (see Table 11).

- Almost half the students come from communities with a population of at least 100,000, including 30% who come from large, urban centres with *more than 300,000 people*.

- Just over 1 student in 10 (14%) comes from a community of *less than 5,000* or *lives on a farm or ranch*.

The size of community that students come from tends to reflect whether they attend a smaller or larger university.

- Given that Group 3 universities tend to be in large, urban centres, it is not surprising that students attending these institutions are more likely to come from larger centres. About 39% of students attending Group 3 universities come from communities with populations greater than 300,000 compared to 27% of students at Group 2 universities and 23% of those at Group 1 universities.

| Table 11: Size of community Q45 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| Lived on a farm/ranch | 4% | 4% | 3% | 5% | 1% |
| Less than 5,000 | 10% | 13% | 9% | 9% | 6% |
| 5,000 to 9,999 | 7% | 9% | 5% | 5% | 7% |
| 10,000 to 49,999 | 14% | 15% | 15% | 14% | 14% |
| 50,000 to 99,999 | 11% | 16% | 9% | 7% | 12% |
| 100,000 to 300,000 | 17% | 16% | 23% | 14% | 22% |
| Over 300,000 | 30% | 23% | 27% | 39% | 34% |
| No response | 7% | 5% | 9% | 7% | 4% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

Table 12 shows students' province of permanent residence:

- About 33% of students are from Ontario, and 24% are from the Prairies.

- Some 16% of students live in British Columbia, and 7% live in Quebec.

- About 11% of students come from Atlantic Canada, most commonly Nova Scotia.

- Some 7% report permanent residence outside Canada.

| Table 12: Province of permanent residence Q44 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| British Columbia | 16% | 17% | 21% | 10% | 79% |
| Alberta | 11% | 11% | 1% | 19% | 4% |
| Saskatchewan | 7% | <1% | 12% | 10% | <1% |
| Manitoba | 6% | 10% | <1% | 8% | <1% |
| Ontario | 33% | 34% | 47% | 19% | 5% |
| Québec | 7% | <1% | <1% | 20% | <1% |
| Nova Scotia | 8% | 16% | 1% | 5% | <1% |
| Prince Edward Island | <1% | <1% | <1% | <1% | - |
| New Brunswick | 3% | 1% | 8% | <1% | - |
| Newfoundland and Labrador | <1% | <1% | <1% | <1% | - |
| Territories | <1% | <1% | <1% | <1% | 1% |
| International/USA/other | 7% | 9% | 7% | 7% | 9% |
| No response | <1% | <1% | <1% | <1% | <1% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

As shown in Table 13, the distribution of students across provinces is fairly similar between 2005 and 2002. However, it appears that in 2005, more students in our study are permanent residents of British Columbia, and fewer are permanent residents of Ontario. This reflects the different combinations of universities that participated in each of the two survey years (see Section 1).

| Table 13: Province of permanent residence: 2005 and 2002 | | |
|---|---|---|
| **Province** | **2005 (n=12,783)** | **2002 (n=12,695)** |
| British Columbia | 16% | 7% |
| Alberta | 11% | 12% |
| Saskatchewan | 7% | 7% |
| Manitoba | 6% | 6% |
| Ontario | 33% | 38% |
| Québec | 7% | 8% |
| Nova Scotia | 8% | 8% |
| Prince Edward Island | <1% | <1% |
| New Brunswick | 3% | 5% |
| Newfoundland and Labrador | <1% | <1% |
| Territories | <1% | <1% |
| USA/International | 7% | 6% |
| No response | <1% | <1% |
| Note: Columns may not sum to 100% due to rounding. | | |

The province of permanent residence is similar to the distribution of respondents by the province in which their university is located (see Table 14).

| Table 14: Province in which attending university | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| British Columbia | 19% | 22% | 23% | 11% | 100% |
| Alberta | 12% | 12% | - | 21% | - |
| Saskatchewan | 8% | - | 13% | 11% | - |
| Manitoba | 7% | 11% | - | 9% | - |
| Ontario | 34% | 33% | 52% | 19% | - |
| Québec | 7% | - | - | 21% | - |
| Nova Scotia | 10% | 21% | - | 9% | - |
| New Brunswick | 3% | - | 11% | - | - |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

As was the case with students' province of permanent residence, in 2005, more students are attending universities in British Columbia and fewer are attending universities in Ontario. See Table 15.

| Table 15: Province in which attending university: 2005 and 2002 | | |
|---|---|---|
| | **2005 (n=12,783)** | **2002 (n=12,695)** |
| British Columbia | 19% | 7% |
| Alberta | 12% | 13% |
| Saskatchewan | 8% | 7% |
| Manitoba | 7% | 7% |
| Ontario | 34% | 41% |
| Québec | 7% | 9% |
| Nova Scotia | 10% | 10% |
| New Brunswick | 3% | 6% |
| Note: Columns may not sum to 100% due to rounding. | | |

As Table 16 shows, the vast majority of students attend a university in the province of their permanent residence.

- British Columbia's residential representation is lower because it has the highest percentage (13%) of international students attending. No other province has more than 9% international student population.

- The two east coast provinces have the lowest provincial representation, although many students are from other Atlantic provinces, making up some 10% of Nova Scotia university students and 15% of New Brunswick students.

| Table 16: Students whose university is in their province of permanent residence | |
|---|---|
| **Location of university** | **% Students from province** |
| Ontario | 90% |
| Saskatchewan | 89% |
| Manitoba | 86% |
| Québec | 86% |
| Alberta | 84% |
| British Columbia | 76% |
| Nova Scotia | 70% |
| New Brunswick | 66% |

## 2.2    Academic profile

Table 17 provides an academic profile of respondents. In 2005:

- The vast majority of students (88%) are attending university full-time.

- While half the students (51%) began their university studies within the last three years, about three-quarters (72%) began attending their current university within the same time frame. This suggests that many students began their post-secondary studies at another university.

- Students are fairly evenly distributed across the four years that it typically takes to complete a degree. About one-quarter of students are in their first, second, third, or fourth or more year of university.

- The vast majority of students (88%) plan to complete their degree at their current university. Only 3% of students explicitly say that they do not plan to complete their degree at their current university.

- One-third of students say that the highest degree they plan to complete is a Bachelor's degree (33%), while almost as many plan to obtain their Master's degree (31%).  Other students plan to complete a Ph.D. (14%) or a medical (M.D., D.D.S., D.V.M.) or law degree (L.L.B).

- Just over one-third of students (35%) have changed their major since coming to university.

- Few students (7%) are studying at their current university on a student visa.

- Almost one-third of students (31%) have received a scholarship from their current university. Such scholarships appear to be more common in Group 1 than Group 2 or 3 universities (although this is not statistically significant).

| Table 17: Academic profile | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Student status Q1** | | | | | |
| Part-time student | 11% | 13% | 11% | 10% | 19% |
| Full-time student | 88% | 87% | 89% | 89% | 80% |
| **Year began studies Q4** | | | | | |
| 2005/2004 | 17% | 18% | 17% | 16% | 11% |

| None | 3% | 3% | 3% | 4% | 2% |
| **Changed major Q7** | | | | | |
| Yes | 35% | 34% | 36% | 34% | 43% |
| **Studying in Canada on a visa Q50** | | | | | |
| Yes | 7% | 9% | 7% | 6% | 10% |
| **Received academic scholarship from this university Q33** | | | | | |
| Yes | 31% | 36% | 30% | 28% | 21% |
| Note: The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

## 2.3 Disciplines

Table 18 shows students' majors or subject areas of concentration. It is important to recognize that students may change their major one or more times during their three or four years at university.

- Students most commonly pursue degrees in Social Science (23%), Arts and Humanities (17%), or Business (15%) programs.

- Other areas with fair student representation are Biological Science and Professional programs (9% each).

- Some 3% of students have not decided on their major or did not provide information.

Students attending Group 1 universities (46%) are more likely to major in Arts and Humanities or Social Science programs compared to those in Group 2 (37%) or Group 3 (36%) universities. In part, this reflects the fact that the larger universities in Group 2 and Group 3 offer a wider variety of program options.

| Table 18: Major/subject area of concentration Q6 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Social Science | 23% | 26% | 21% | 21% | 24% |
| Arts and Humanities | 17% | 20% | 16% | 15% | 17% |
| Business | 15% | 18% | 16% | 11% | 5% |
| Biological Science | 9% | 9% | 8% | 11% | 13% |
| Professional | 9% | 5% | 9% | 11% | 15% |
| Engineering | 5% | 1% | 7% | 7% | 3% |
| Physical Science | 4% | 4% | 4% | 5% | 6% |
| Education | 4% | 5% | 3% | 4% | 6% |
| Other fields | 10% | 9% | 11% | 11% | 9% |
| Don't know/no response | 3% | 3% | 3% | 3% | 2% |
| Note: In cases where students provided more than one major, we took the first mention as the primary area of concentration. Columns may not sum to 100% due to rounding. | | | | | |

The distribution of major or subject area of concentration in 2005 is very similar to 2002. Minor variations include a slight increase in Social Science students and a slight decrease in Arts and Humanities and Engineering students. See Figure 1.

# Major or area of concentration: 2005 and 2002

**Figure 1**

As Table 19 shows, the highest intended degree varies depending on the discipline in which students major. Regardless of their major, more students plan to continue their studies beyond an undergraduate degree, than plan to stop after completing their Bachelor's degree.

- Students most likely to pursue a Master's degree are those who are enrolled in a Professional (40%) or Business (39%) program.

- Students pursuing Arts and Humanities or Science programs are most likely to plan to complete a Ph.D. This includes more than one-fifth of those in Physical Science (22%) and Biological Science (21%) and just under one-fifth of those in Social Science (18%) and Arts and Humanities students (18%).

| Table 19:  Highest intended degree by discipline | | | |
|---|---|---|---|
| | **Bachelor's** | **Master's** | **Ph.D.** |
| Engineering | 44% | 32% | 13% |
| Other fields | 39% | 31% | 10% |
| Business | 37% | 39% | 4% |
| Education | 33% | 33% | 10% |
| Professional | 33% | 40% | 8% |
| OVERALL | 33% | 31% | 14% |
| Physical Science | 32% | 24% | 22% |
| Arts and Humanities | 32% | 30% | 18% |
| Social Science | 29% | 31% | 18% |
| Biological Science | 21% | 20% | 21% |

As shown in Table 20, the longer students have been attending their current university, the more likely they are to plan to complete their degree there. Almost all fourth-year students (98%) plan to complete their degree at their current university compared to 77% of first-year students.

| Table 20: Plan to complete degree at university by year registered | | | | |
|---|---|---|---|---|
| | 1<sup>st</sup> year (n=3,503) | 2<sup>nd</sup> year (n=3,141) | 3<sup>rd</sup> year (n=3,058) | 4<sup>th</sup> year (n=2,983) |
| Yes | 77% | 87% | 94% | 98% |
| No | 5% | 3% | 2% | 1% |
| Not sure | 19% | 10% | 4% | 1% |

### 2.4 Students' grades

Table 21 shows the grades of students attained to the point of participating in this survey.

- The average grade for all undergraduates is between a B and a B+, that is 4.6 out of 7, where 7 means A/A+.

- Almost half of students report an average grade of B+ or higher, including 10% with an average grade of A or A+.

- Only 8% of students report an average grade of C or lower.

| Table 21: Average grade for courses completed so far Q12 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| A or A+ | 10% | 11% | 8% | 10% | 12% |
| A- | 17% | 17% | 16% | 16% | 31% |
| B+ | 22% | 21% | 20% | 24% | 29% |
| B | 29% | 29% | 30% | 28% | 19% |
| C+ | 13% | 13% | 14% | 12% | 5% |
| C or lower | 8% | 7% | 9% | 7% | <1% |
| Average | 4.6 | 4.6 | 4.4 | 4.6 | 5.3 |
| Note: This grade scale is based on the following: A/A+=7, A-=6, B+=5, B=4, C+=3, C=2, D=1. The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

Students' average grades can vary by discipline. Those in Education (5.3) and Professional (4.9) programs tend to have higher average grades, while those in Social Science (4.4) and Engineering (4.4) programs tend to have lower average grades (see Table 22).

| Table 22:  Average grades to date by discipline | |
|---|---|
| **Discipline** | **Average grade (7=A/A+)** |
| Education | 5.3 |
| Professional | 4.9 |
| Arts and Humanities | 4.7 |
| Biological Science | 4.6 |
| Physical Science | 4.6 |
| Overall | 4.6 |
| Business | 4.5 |
| Other fields | 4.5 |
| Social Science | 4.4 |
| Engineering | 4.4 |

Typically, as undergraduates advance through their programs, their reported grades increase. As shown in Table 23, average grades increase from 4.4 in first year to 4.8 in fourth year.

| Table 23: Average grades to date by year | |
|---|---|
| **Year of program** | **Average grade (7=A/A+)** |
| 1st | 4.4 |
| 2nd | 4.5 |
| 3rd | 4.6 |
| 4th or more | 4.8 |
| Overall | 4.6 |

As shown in Table 24, students' average grades in 2005 and 2002 are virtually identical.

| Table 24: Student grades across time | | |
|---|---|---|
| | **2005 (n=12,783)** | **2002 (n=12,695)** |
| **Average grade for courses completed so far** | | |
| A or A+ | 10% | 10% |
| A- | 17% | 16% |
| B+ | 22% | 22% |
| B | 29% | 29% |
| C+ | 13% | 13% |
| C or lower | 8% | 8% |
| Average | 4.6 | 4.6 |

## 2.5      Interrupted studies

Less than 1 in 5 students report having had to interrupt their studies at some time (see Table 25). The most common reasons relate to money, either employment (6%) or financial reasons (5%). Some other reasons for interrupting studies include: to travel, for other family reasons (other than children), or due to illness (3% each).

| Table 25: Interrupted studies Q8 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| Have not interrupted studies | 81% | 80% | 79% | 83% | 63% |
| For employment | 6% | 7% | 7% | 5% | 15% |
| For financial reasons | 5% | 5% | 5% | 4% | 7% |
| To travel | 3% | 3% | 4% | 3% | 10% |
| For other family reasons | 3% | 3% | 3% | 3% | 5% |
| Due to illness | 3% | 3% | 3% | 3% | 5% |
| To have/raise children | 2% | 2% | 2% | 1% | 5% |
| Required to withdraw by the university | 2% | 2% | 2% | 1% | <1% |
| Other reasons | 2% | 2% | 3% | 2% | 4% |
| No response | 1% | 1% | 1% | <1% | 3% |
| Note: Respondents could provide more than one answer. Therefore, columns may not sum to 100%. | | | | | |

## 2.6      Study patterns

We asked students about the time they spend studying and on other academic work. The typical student spends 31 hours per week on these activities, which is almost equivalent to a full-time job.

- On average, students report spending 15 hours in class and labs and almost another 17 hours on academic work outside of class. In each case, the number of weekly hours spent on these activities ranges from less than 10 to more than 30.

- As part of their academic program, most students are required to complete assignments and write papers or reports. The typical student has to complete about 11 papers or reports per year. However, about 20% of students say they have to complete 16 or more reports, with a few students indicating that they have to complete 100 or more papers or reports.

- Students may participate in work experience as part of their academic program. Some 20% of students say that they participated in work experience such as a co-op or internship. This is up significantly from 8% in 2002, but may partially reflect a change in question wording. In 2005, we asked

students if they were involved in work experience programs, that included co-op and internship programs for course credit. In 2002, we asked if students were enrolled in a co-op program only, and did not specify that it was any work that resulted in course credit.

See Table 26.

| Table 26: Study patterns | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **Hours spent in class and labs Q10A** | | | | | |
| 10 or fewer | 23% | 25% | 23% | 21% | 19% |
| 11 to 15 | 37% | 38% | 38% | 37% | 36% |
| 16 to 20 | 22% | 22% | 20% | 22% | 18% |
| 21 to 30 | 13% | 11% | 13% | 15% | 15% |
| More than 30 | 2% | 2% | 2% | 3% | 3% |
| Average number of hours* | 14.9 | 14.5 | 14.8 | 15.5 | 15.5 |
| **Hours spent on academic work outside of class and labs Q10B** | | | | | |
| 10 or fewer | 39% | 42% | 39% | 37% | 29% |
| 11 to 15 | 17% | 18% | 16% | 18% | 21% |
| 16 to 20 | 16% | 16% | 16% | 17% | 21% |
| 21 to 30 | 15% | 14% | 14% | 16% | 18% |
| More than 30 | 8% | 8% | 9% | 8% | 10% |
| Average number of hours* | 16.5 | 16.0 | 16.6 | 16.9 | 18.5 |
| **Total hours spent on academic work in and out of class** | | | | | |
| 15 or fewer | 14% | 14% | 15% | 12% | 13% |
| 16 to 20 | 12% | 13% | 11% | 11% | 8% |
| 21 to 30 | 29% | 29% | 29% | 28% | 28% |
| 31 to 40 | 23% | 23% | 22% | 25% | 23% |
| More than 40 | 21% | 20% | 21% | 23% | 27% |
| Average number of hours* | 30.8 | 30.1 | 30.6 | 31.8 | 32.5 |
| **Number of papers/reports completed during school year Q11** | | | | | |
| 2 or fewer | 10% | 8% | 10% | 12% | 12% |
| 3 to 5 | 19% | 18% | 18% | 20% | 20% |
| 6 to 10 | 31% | 32% | 31% | 31% | 30% |
| 11 to 15 | 16% | 17% | 15% | 15% | 14% |
| 16 to 20 | 10% | 10% | 10% | 9% | 9% |
| More than 20 | 10% | 12% | 10% | 9% | 12% |
| Average number of papers/reports | 11.4 | 12.1 | 11.3 | 10.8 | 11.7 |
| **Currently in a work experience program Q13** | | | | | |
| Yes | 20% | 16% | 27% | 18% | 30% |
| Note: The 'other/non-numeric', 'not applicable' and 'don't know/no response' categories are not shown. Therefore, columns may not sum to 100%. * The 'other/non-numeric' and 'not applicable' categories have been excluded from the calculation of the average. | | | | | |

The time students devote to their academic work varies with their major. Those in Engineering programs are likely to spend more time in class (22 hours) and on academic work outside of class (22 hours) than students in other disciplines. Other programs that require students to devote more time to their studies than the typical student are Biologic al Science, Physical Science, Professional, and Education programs.

The number of papers and reports students have to write does not necessarily reflect the amount of time they devote to their studies. For example, students in Education (15), Arts and Humanities (13), and Engineering (13) programs tend to have to write more papers and reports than the typical student (11).

See Table 27.

| Table 27:  Average hours/assignments by discipline | | | | |
|---|---|---|---|---|
| | Average | | | |
| | Hours in class | Hours outside class | Total hours | Number of papers/reports |
| Engineering | 22 | 22 | 43 | 13 |
| Biological Science | 18 | 19 | 36 | 11 |
| Physical Science | 17 | 19 | 35 | 11 |
| Professional | 18 | 18 | 35 | 11 |
| Education | 18 | 17 | 34 | 15 |
| Overall | 15 | 17 | 31 | 11 |
| Other fields | 15 | 16 | 30 | 11 |
| Arts and Humanities | 14 | 16 | 29 | 13 |
| Business | 13 | 16 | 28 | 11 |
| Social Science | 13 | 15 | 27 | 11 |
| Note: Hours in and outside class may not sum to total hours due to rounding. | | | | |

The typical first-year student spends more time in class than students in later years, and with each additional year of study, the time in class appears to decline. However, it also appears that for each successive year students are in university, they typically spend, on average, an additional hour outside of class on academic work (although this difference is not statistically significant). Thus, students in each year of their program are typically spending about the same amount of time on academic work, in and out of class.

| Table 28: Average hours/assignments by year in program | Average | | | |
|---|---|---|---|---|
| | Hours in class* | Hours outside class | Total hours | Number of papers/reports |
| 1st year | 16 | 15 | 31 | 11 |
| 2nd year | 15 | 16 | 30 | 11 |
| 3rd year | 15 | 17 | 31 | 12 |
| 4th year or more | 14 | 18 | 31 | 12 |
| All years | 15 | 17 | 31 | 11 |

Note: Hours in and outside class may not sum to total hours due to rounding.
* These differences are statistically significant.

Students in certain disciplines are more or less likely to participate in a work experience program (see Table 29).

- Those in Engineering (45%) and Education (44%) programs are twice as likely as the typical student to participate in work experience.

- Those in Social Science (12%) and Arts and Humanities (10%) programs are about half as likely as the typical student to participate in work experience.

| Table 29: Currently in a work experience program by discipline | Yes |
|---|---|
| Engineering | 45% |
| Education | 44% |
| Professional | 31% |
| Other fields | 27% |
| Business | 25% |
| OVERALL | 20% |
| Physical Science | 16% |
| Biological Science | 14% |
| Social Science | 12% |
| Arts and Humanities | 10% |

### 2.7    Time availability

We asked students about their time availability for study, work, family responsibilities, and leisure activities and how satisfied they are with this time availability.

As shown in Table 30,

- Almost 9 in 10 students have at least some time available to study outside of class and labs. This includes 57% who have enough or lots of time. The remaining 1 in 10 reports that he or she has little or no time available to study.

- More than 7 in 10 students (who provided a rating) are at least satisfied with the amount of time they have available to *study outside of class and labs,* including 9% who are very satisfied. Almost 3 in 10 are dissatisfied with the amount of time available.

| Table 30: Time available for study outside of class and labs | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **Time available Q22A (all respondents)*** | | | | | |
| Lots of time | 15% | 15% | 12% | 16% | 17% |
| Enough time | 42% | 43% | 42% | 41% | 38% |
| Some time | 32% | 32% | 33% | 31% | 33% |
| Little time | 9% | 9% | 10% | 9% | 7% |
| No time | 1% | <1% | 2% | 1% | 2% |
| **Satisfaction with time availability Q23A (those who provided a rating)** | | | | | |
| Very satisfied | 9% | 11% | 8% | 8% | 11% |
| Satisfied | 62% | 63% | 62% | 60% | 60% |
| Dissatisfied | 25% | 22% | 25% | 27% | 25% |
| Very dissatisfied | 4% | 4% | 4% | 5% | 4% |
| Note: * The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

As shown in Table 31,

- About 6 students in 10 have at least some time available for work. This includes 30% of students who have enough or lots of time for work. Almost 4 in 10 students report having little or no time available for work.

- About 2 students in 3 (who provided a rating) are at least satisfied with the time available for *work,* including 7% who are very satisfied. Over 1 student in 3 is dissatisfied.

| Table 31: Time available for work | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **Time available Q22B (all respondents)*** | | | | | |
| Lots of time | 6% | 6% | 5% | 6% | 7% |
| Enough time | 24% | 27% | 23% | 23% | 19% |
| Some time | 28% | 27% | 29% | 28% | 28% |
| Little time | 20% | 19% | 22% | 20% | 21% |
| No time | 18% | 17% | 17% | 20% | 20% |
| **Satisfaction with time availability Q23B (those who provided a rating)** | | | | | |
| Very satisfied | 7% | 8% | 7% | 7% | 8% |
| Satisfied | 56% | 58% | 54% | 56% | 59% |
| Dissatisfied | 29% | 28% | 31% | 28% | 28% |
| Very dissatisfied | 7% | 6% | 8% | 8% | 5% |
| Note: * The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

As shown in Table 32,

- About 6 students in 10 have at least some time available for family responsibilities. This includes 29% who indicate that they have enough or lots of time. About 1 in 3 indicates that they have little or no time available to deal with family responsibilities.

- As with work, about 2 students in 3 (who provided a rating) are at least satisfied with the time available for *family responsibilities,* including 7% who are very satisfied. Again, almost 4 students in 10 are dissatisfied.

| Table 32: Time available for family responsibilities | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Time available Q22C (all respondents)*** | | | | | |
| Lots of time | 5% | 5% | 5% | 4% | 5% |
| Enough time | 24% | 26% | 23% | 23% | 21% |
| Some time | 35% | 36% | 34% | 34% | 36% |
| Little time | 27% | 25% | 28% | 29% | 27% |
| No time | 6% | 5% | 6% | 7% | 8% |
| **Satisfaction with time availability Q23C (those who provided a rating)** | | | | | |
| Very satisfied | 7% | 8% | 7% | 6% | 9% |
| Satisfied | 56% | 57% | 54% | 56% | 55% |
| Dissatisfied | 30% | 28% | 31% | 31% | 29% |
| Very dissatisfied | 7% | 7% | 8% | 8% | 7% |
| Note: * The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

As shown in Table 33,

- Almost 6 students in 10 have at least some time available for leisure activities. This includes 26% who have enough or lots of time. Some 4 in 10 students report that they have little or no time for leisure activities.

- Students (who provided a rating) are split on their satisfaction with time available for *leisure activities*, with just over half reporting that they are satisfied and just less than half saying that they are dissatisfied.

| Table 33: Time available for leisure activities | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **Time available Q22D (all respondents)*** | | | | | |
| Lots of time | 5% | 6% | 5% | 4% | 5% |
| Enough time | 21% | 23% | 19% | 21% | 21% |
| Some time | 32% | 33% | 31% | 33% | 32% |
| Little time | 32% | 30% | 33% | 33% | 31% |
| No time | 8% | 7% | 10% | 8% | 9% |
| **Satisfaction with time availability Q23D (those who provided a rating)** | | | | | |
| Very satisfied | 8% | 9% | 8% | 7% | 9% |
| Satisfied | 45% | 48% | 43% | 43% | 48% |
| Dissatisfied | 34% | 32% | 35% | 36% | 34% |
| Very dissatisfied | 13% | 11% | 14% | 14% | 10% |
| Note: * The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

As expected, students who believe they have *enough* time to devote to these activities are more likely to say that they are *very satisfied* with the amount of time they have available to spend on these activities. Likewise, those with *little* or *no* time are more likely to say that they are *dissatisfied* with their time availability.

Students' perceived availability of time for work varies depending on their major or area of concentration. Students in Arts and Humanities, Social Science, and Business programs (33% or more) tend to say that they have enough or lots of time available to work, while students in Engineering programs (41%) tend to say that they have no time available for work.

## 2.8    Type of academic instruction: experience and satisfaction

We asked students what types of academic instruction they are receiving at their university. Most commonly, students report classroom-based courses, with far fewer reporting mixed on-line and classroom or strictly on-line courses. As shown in Table 34:

- The single most commonly reported instruction is *classroom-based courses with on-line supports* (that is, instruction is carried out in class, supports such as study notes and lecture notes are available on-line). Almost 8 students in 10 (77%) report this type of instruction, including 32% who report having four or more classes in this format this academic year This type of instruction appears to be slightly more common in courses offered at Group 2 and 3 universities.

- Also very common is instruction that is *strictly classroom-based* (that is, instruction is all in-class, with no on-line supports). Almost 3 students in 4 (73%) report this type of instruction, including 29% who report that four or more of their classes are in this format.

- Other formats for instruction are less common. About 1 student in 5 reports that he or she had at least one course that used a *mix of classroom and on-line instruction* (that is, involving reduced classroom instruction and some instruction on-line).

- About 1 student in 10 reports that he or she had at least one course that was *on-line instruction* (that is, taught completely on-line with no classroom instruction).

On average, students' course complement includes courses that are taught using two of four different types of instruction. The course load of about 1 student in 5 (21%) includes only one type of instruction. Less than 1 student in 20 (4%) has a course load that includes all four types of instruction.

| Table 34: Type of academic instruction | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |

| Four or more | <1% | <1% | 1% | <1% | 2% |
| Avg. # of courses (all respondents) | 0.2 | 0.2 | 0.2 | 0.2 | 0.3 |
| Avg. # of courses (those who have used it) | 1.8 | 1.6 | 1.7 | 1.9 | 2.4 |
| Note: The 'non-numeric' and 'don't know/no response' categories are not shown. Therefore, columns may not sum to 100%. | | | | | |

Table 35 shows students' experience with each type of instruction by discipline.

- Students in Professional programs (14%), Other Fields (14%), and Business (13%) programs are more likely to have taken at least one course this year that was taught on-line.

- Students in Arts and Humanities (81%) and Social Science (78%) programs are the most likely to report having taken at least one course that was strictly classroom-based.

- Students in Biological Science (85%), Physical Science programs (84%), Other Fields (83%), and Engineering (82%) are most likely to have taken at least one or more courses this year that was taught in the classroom and used on-line supports.

| **Table 35: Type of academic instruction by discipline for students who have taken at least one course** | | | | |
|---|---|---|---|---|
| | **On-line** | **Mix of classroom and on-line** | **Strictly classroom based*** | **Classroom with on-line support*** |
| Professional | 14% | 21% | 63% | 68% |
| Other fields | 14% | 26% | 73% | 83% |
| Business | 13% | 25% | 64% | 81% |
| Social Science | 12% | 20% | 78% | 78% |
| Biological Science | 10% | 22% | 72% | 85% |
| Overall | 10% | 21% | 73% | 77% |
| Arts and Humanities | 10% | 15% | 81% | 70% |
| Education | 8% | 15% | 73% | 68% |
| Physical Science | 8% | 18% | 75% | 84% |
| Engineering | 6% | 21% | 66% | 82% |
| *Note: Differences are statistically significant. | | | | |

We asked students to rate their satisfaction with the type of instruction they have received.

- Students are most satisfied with *classroom-based instruction with on-line support*. More than 9 in 10 students report that they are satisfied with this method of instruction, including 40% who are very satisfied.

- About 8 in 10 students say that they are satisfied with *a mix of classroom and on-line instruction* (82%) and *strictly classroom-based instruction* (79%). In each case, about 1 student in 5 is very satisfied with these methods of instruction (20% each).

- Some 7 students in 10 are satisfied with *on-line instruction*, including 13% who are very satisfied.

See Table 36.

| Table 36: Satisfaction with type of instruction (% satisfied/very satisfied) (those who provided a rating) Q25 | | | | | |
|---|---|---|---|---|---|
| | **All students** | **Group** | | | **University of Victoria** |
| | | **1** | **2** | **3** | |
| c. Classroom instruction with on-line supports | 93% | 94% | 92% | 92% | 92% |
| b. A mix of classroom and on-line instruction | 82% | 84% | 81% | 81% | 79% |
| d. Strictly classroom-based | 79% | 85% | 75% | 77% | 87% |
| a. On-line instruction | 70% | 73% | 69% | 68% | 70% |

Students' satisfaction with strictly classroom-based instruction varies by discipline. Those in Arts and Humanities (88%) and Education (88%) programs are more likely to be satisfied with this type of instruction than those in Engineering (72%) and Business (73%) programs.

### 2.9    Preferred type of instruction

We asked students what type of instruction they prefer and why. The results are shown in Table 37.

- The majority – 2 students in 3 – prefer *classroom instruction with on-line support*. They prefer this approach because of the amount of information it provides (61%); the mix of in-class and on-line was said to be good (53%); the quality of instruction is superior (43%); and they prefer face-to-face interaction (40%).

- About 1 in 5 students prefers *strictly classroom-based instruction*. The most common reason for this is that it offers face-to-face interaction (84%), although others say that they prefer it because of the quality of instruction (63%) and because they like to meet other students (54%).

- About 1 student in 10 prefers a *mix of classroom and on-line instruction*, mainly because such an approach offers a good mix (61%), provides students the flexibility to learn when they want (54%), and gives students the freedom to learn at their own pace (45%).

- Less than 1 in 20 prefers *on-line instruction* to any of the other three methods. They prefer it primarily because it allows them the flexibility to learn when they want (83%) and they can learn at their own pace (58%).

| Table 37: Preferred type of instruction Q26 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| Classroom instruction with on-line supports | 66% | 64% | 66% | 68% | 60% |
| Strictly classroom-based | 18% | 22% | 14% | 17% | 17% |
| A mix of classroom and on-line instruction | 12% | 11% | 15% | 12% | 15% |
| On-line instruction | 3% | 2% | 3% | 2% | 8% |
| Note: The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

Even though the majority of students in each discipline prefer classroom instruction with on-line supports, many students in Arts and Humanities (31%), Education (28%), and Professional (22%) programs prefer strictly classroom-based instruction.

## 3.0    Work and financing education

In this section, we report on students' employment while attending
university as well as the methods they use to finance their
education.

### 3.1    Current employment profile

Over half (53%) of these undergraduate students report being
employed, including almost 1 in 10 who is employed on a
university campus.

- Among those students who are employed, the typical student
  works about 18 hours a week.

- Most students work on a part-time basis, with 7 students in 10
  who report working 20 hours or less per week. This includes
  29% who work 10 hours or less.

- Few students work full-time. Just over 1 student in 10 reports
  working over 30 hours a week, including some who report
  working as much as 60 to 90 hours a week.

Among those students who are working, over 6 students in 10 say
that their employment has at least *some* negative impact on their
academic performance. This includes over one-third who feel that
their job has a moderate, significant, or substantial negative impact
on their performance in school. See Table 38.

| Table 38: Employment status | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Currently employed Q30 (all respondents)** | | | | | |
| Yes, both on and off campus | 2% | 3% | 2% | 2% | 2% |
| Yes, on campus | 7% | 9% | 8% | 5% | 8% |
| Yes, off campus | 44% | 41% | 42% | 48% | 38% |
| No, but seeking work | 14% | 13% | 17% | 13% | 13% |
| No, not seeking work | 32% | 34% | 30% | 31% | 37% |
| **Number of hours worked per week Q31\*** | | | | | |
| 10 hours or less | 29% | 27% | 30% | 30% | 35% |
| 11 to 20 hours | 40% | 38% | 41% | 42% | 32% |
| 21 to 30 hours | 15% | 17% | 14% | 15% | 11% |
| Over 30 hours | 13% | 16% | 13% | 12% | 19% |
| Average number of hours | 18.3 | 19.4 | 17.9 | 17.7 | 18.8 |
| **Negative impact of non-co-op related employment on academic performance Q32\*** | | | | | |
| None | 29% | 31% | 30% | 27% | 29% |
| Some | 30% | 30% | 29% | 30% | 31% |
| Moderate | 20% | 19% | 21% | 21% | 18% |
| Significant | 10% | 8% | 11% | 11% | 12% |
| Substantial | 4% | 3% | 4% | 3% | 4% |
| Note: * Only students who are currently employed were asked how many hours they work per week and whether their employment has a negative impact on their academic performance. The 'don't know/no response' category is not shown. Therefore, columns may not sum to 100%. | | | | | |

- As students progress in their studies, they are more likely to become employed. Some 45% of first-year students are currently employed compared to 61% of fourth-year students.

- Although a student's likelihood of employment increases with each year of study, among those with jobs, the number of hours worked per week does not change significantly regardless of their year of study.

- Part-time students (76%) are more likely to be employed than full-time students (50%). A typical part-time student who is employed spends an average of 31 hours per week at a job. This compares to 16 hours per week for full-time students who are employed.

- Typically, as the number of hours students spend working increases, the number of hours they devote to their studies decreases. This is particularly true of students who spend more than 20 hours per week working for pay. Even so, regardless of the hours employed, students tend to devote a lot of time to their studies. For example, those who work 21 to 30 hours per

week also report spending an average of 26 hours per week on academic work in and out of class (see Table 39).

- On average, students who are employed devote 46 hours to both their academic work and their job. In fact, half of those who are employed spend over 45 hours per week balancing their studies and their job.

| Table 39:  Average hours on academic study by hours employed | | | |
|---|---|---|---|
| **Hours employed per week** | **Average hours per week on academic work: in or out of class** | | |
| | **All students** | **Full-time students** | **Part-time students** |
| None – no job | 34 hours | 34 hours | 22 hours |
| 10 hours or less | 34 hours | 34 hours | 24 hours |
| 11 to 20 hours | 30 hours | 30 hours | 20 hours |
| 21 to 30 hours | 26 hours | 28 hours | 17 hours |
| 31 hours or more | 17 hours | 27 hours | 13 hours |
| Overall | 31 hours | 16 hours | 31 hours |

Depending on their major area of study, some students are more likely to be working at a job during their academic term (see Table 40). Students in Social Science and Arts and Humanities programs are most likely to report working for pay, while those in Engineering programs are the least likely to be employed.

| Table 40:  Employment by discipline | | |
|---|---|---|
| | **Employed on or off campus** | **Not employed** |
| Social Sciences | 58% | 41% |
| Arts and Humanities | 57% | 42% |
| Professional | 56% | 43% |
| Business | 55% | 44% |
| Overall | 53% | 46% |
| Other fields | 51% | 49% |
| Education | 50% | 50% |
| Biological Sciences | 49% | 50% |
| Physical Sciences | 49% | 50% |
| Engineering | 29% | 71% |

The average number of hours devoted to paid and academic work varies by discipline.

- Overall, students spend an average of over 40 hours per week working either on their studies (31 hours) or for pay (10 hours).

- The typical Engineering students spends the most time per week working (47 hours), but spends most of it on academic study (43 hours) and much less on paid employment (4 hours).

- Conversely, the typical Social Science student spends the least amount of time working (38 hours), spending less on academic studies (11 hours) and more on paid employment (27 hours).

- Business students on spend the most time on paid employment (11 hours per week).

Table 41 provides the average number of hours devoted to study and paid work for all students by discipline.

| Table 41: Average number of hours per week by discipline | | |
|---|---|---|
| | Average hours per week | |
| **All students** | **Employed hours** | **Job and academic work** |
| Business | 11.4 | 39.4 |
| Social Sciences | 10.9 | 38.0 |
| Arts and Humanities | 10.4 | 39.4 |
| Professional | 9.7 | 44.5 |
| Overall | 9.6 | 40.4 |
| Other fields | 9.1 | 39.0 |
| Education | 8.5 | 42.8 |
| Physical Sciences | 7.3 | 42.3 |
| Biological Sciences | 7.2 | 43.6 |
| Engineering | 3.8 | 46.6 |

### 3.2    Career prospects

Table 42 below shows that:

- Almost 6 students in 10 (56%) say that they have *definitely* decided on a specific career field, while 28% indicate that they may have decided on a specific career path.

- Almost 7 students in 10 (69%) report that they have a *current curriculum vitae* or resume.

- Only about 1 student in 4 believes that there will be *many* jobs available in his or her career field when he or she graduates, while 4 in 10 think that there will be at least *some* jobs. About 1 student in 5 thinks that there will only be *few* or *very few* jobs available in his or her career field.

| Table 42: Career considerations | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Decided on a specific career field Q39*** | | | | | |
| Yes | 56% | 59% | 55% | 53% | 58% |
| Maybe | 28% | 26% | 29% | 30% | 25% |
| No | 15% | 15% | 15% | 16% | 16% |
| **Have a current CV or resume Q40*** | | | | | |
| Yes | 69% | 66% | 70% | 73% | 75% |
| No | 28% | 32% | 27% | 25% | 25% |
| **Perceived availability of job opportunities Q41** | | | | | |
| Many jobs | 26% | 28% | 23% | 27% | 20% |
| Some jobs | 41% | 42% | 43% | 39% | 43% |
| Few/very few jobs | 20% | 16% | 23% | 22% | 25% |
| Don't know/no response | 12% | 13% | 12% | 11% | 12% |
| Note: * The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

Students in certain disciplines are more likely to have decided on a career field.

- Not surprisingly, students in Education and Professional programs are the most likely to have decided on a career field, while those in Social Science and Biological Science programs are the least likely.

- Students in Professional programs are also the most likely to believe that there are many jobs available in their career field, while those in Arts and Humanities and Social Science programs are the least likely to think this.

See Table 43.

| Table 43: Career prospects by discipline | | |
|---|---|---|
| | **Decided on a career field** | **Many jobs available** |
| Education | 88% | 30% |
| Professional | 82% | 50% |
| Engineering | 62% | 36% |
| Overall | 56% | 26% |
| Arts and Humanities | 56% | 17% |
| Business | 55% | 34% |
| Physical Science | 53% | 29% |
| Other fields | 53% | 25% |
| Biological Science | 50% | 24% |
| Social Science | 46% | 18% |

As students near graduation, their perception of the job market becomes less favourable.

- Only 23% of fourth-year students believe that there are many jobs in their career field compared to 30% of first-year students.

- Conversely, about 26% of students in fourth year believe that there are few or very few jobs available compared to 15% of first-year students.

### 3.3     Debt from financing post-secondary education

We asked students to identify the repayable debt that they have incurred from financing their university education. We defined repayable debt as money students had acquired to help finance their education that they owe and will have to pay back.

About half (51%) of the students report owing money to at least one of the four sources tested.  As Table 44 shows, overall:

- One-third of students have debt from *student loans*.

- Just under one-fifth of students have debt from *loans from parents or family*.

- One-sixth has debt from *loans from financial institutions*.

- About one-twentieth has debt from *other sources*.

| Table 44: Sources of debt Q28 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| Any debt | 51% | 55% | 51% | 47% | 47% |
| Student loans | 33% | 35% | 33% | 30% | 33% |
| Loans from parents/family | 18% | 18% | 20% | 17% | 19% |
| Loans from financial institutions | 16% | 19% | 16% | 14% | 13% |
| Debt from other sources | 6% | 6% | 6% | 5% | 6% |

The average debt is about $8,500 with the largest share owed to student loans. The median debt is much lower: $2,000.

- Among those with *student loans*, the average debt from this source is almost $14,000. The median is less: $10,000.

- Among those with *loans from financial institutions*, the amount they owe averages about $10,000 (with a median value of $8,000).

- Students who have *loans from their parents or other family members* report owing their relatives an average of over $9,000. However, the median is much lower at $5,000.

- Those using *other sources* owe an average of $5,500. The median is $3,000.

See Tables 45 and 46.

| Table 45: Average amount of repayable debt Q28 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Average total debt** | | | | | |
| - All respondents | $8,529 | $9,304 | $9,122 | $7,262 | $9,747 |
| - Those with debt | $16,019 | $16,447 | $16,945 | $14,691 | $20,464 |
| **Average among those with these sources** | | | | | |
| -Student loans | $13,988 | $14,647 | $14,669 | $12,622 | $19,081 |
| -Loans from financial institutions | $10,152 | $10,139 | $10,721 | $9,643 | $9,367 |
| -Loans from parents/family | $9,367 | $9,668 | $9,911 | $8,508 | $10,321 |
| -Debt from other sources | $5,516 | $4,728 | $4,401 | $7,505 | $4,005 |

| Table 46: Median amount of repayable debt Q28 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Median total debt** | | | | | |
| - All respondents | $2,000 | $3,500 | $2,000 | $0 | $0 |
| - Those with debt | $12,000 | $12,000 | $13,000 | $10,000 | $15,000 |
| **Median among those with these sources** | | | | | |
| -Student loans | $10,000 | $11,000 | $11,200 | $10,000 | $15,000 |
| -Loans from financial institutions | $8,000 | $8,000 | $8,000 | $6,500 | $7,500 |
| -Loans from parents/family | $5,000 | $5,000 | $5,000 | $5,000 | $5,000 |
| -Debt from other sources | $3,000 | $2,800 | $2,500 | $3,000 | $2,400 |

Overall, 45% of students report that they have no debt. The half (51%) with at least some debt report owing various amounts of money, including 17% who owe less than $8,000 and 16% who owe $20,000 or more. (See Table 47).

| Table 47: Total debt Q28 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| No debt | 45% | 42% | 44% | 48% | 52% |
| Less than $4,000 | 7% | 7% | 6% | 7% | 5% |
| $4,000 to $7,999 | 10% | 10% | 9% | 11% | 8% |
| $8,000 to $11,999 | 8% | 9% | 8% | 8% | 6% |
| $12,000 to $19,999 | 10% | 11% | 10% | 9% | 9% |
| $20,000 or more | 16% | 18% | 17% | 13% | 20% |
| Note: The 'don't know/no response' category is not shown. Therefore, columns may not sum to 100%. | | | | | |

As one would expect, the amount of debt increases the longer a student is in school.

- Fourth-year students are more likely to report debt (59%) than those in first year (44%).

As Table 48 shows, among all students:

- The average amount of debt more than triples over the course of four or more years of study. Those in their first year of studies owe an average of about $4,200, while those in their fourth year owe an average of about $13,100.

- As students progress in their studies, they rely less on their parents or family for financial support and more on loans from financial institutions.

| Table 48:  Debt by year of program | | | | |
|---|---|---|---|---|
| | 1st year (n=3,503) | 2nd year (n=3,141) | 3rd year (n=3,058) | 4th year (n=2,983) |
| **All students** | | | | |
| Average total debt | $4,216 | $7,127 | $10,206 | $13,136 |
| Student loans | $2,353 | $3,719 | $5,853 | $7,410 |
| Loans from financial institutions | $755 | $1,356 | $2,025 | $2,819 |
| Loans from parents/family | $961 | $1,762 | $1,978 | $2,428 |
| Debt from other sources | $147 | $312 | $355 | $509 |
| **Students with debt** | | | | |
| Average total debt | $9,177 | $14,235 | $17,950 | $21,532 |

### 3.4    Sources of university funding

We asked students to indicate which of 11 different sources they are using to fund their education in the current year.

The most common sources in the 2004-05 academic year are:

- **Parents/family/spouse.** More than half (56%) of students report receiving financial support from their family.

- **Earnings from summer work.** Some 4 students in 10 (42%) finance their post-secondary education through summer employment.

- **Personal savings.** Almost 4 students in 10 (38%) finance their education through personal savings.

- **Earnings from current employment.** Some 3 students in 10 (31%) use earnings from current employment to fund their education.

- **Government loan or bursary.** About 3 students in 10 (30%) also say that they received some type of government loan or bursary.

- **University scholarship.** About 1 student in 5 (22%) reports receiving a university-based scholarship or financial award. Reliance upon this source of financing appears to be more common among students attending Group 1 universities than among those attending Group 2 or Group 3 universities.

Less common sources of financing, each used by 1 student in 10 or less, are: university bursaries, RESPs, investment income, or co-op or work-study programs.

These and other sources are shown in Table 49.

| Table 49: Sources of financing Q29 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| Parents/family/spouse | 56% | 54% | 57% | 57% | 56% |
| Earnings from summer work | 42% | 46% | 39% | 42% | 35% |
| Personal savings | 38% | 38% | 38% | 38% | 36% |
| Earnings from current employment | 31% | 30% | 31% | 33% | 30% |
| Government loan or bursary | 30% | 30% | 31% | 28% | 30% |
| University scholarship/financial award | 22% | 27% | 20% | 20% | 16% |
| University bursary | 10% | 13% | 10% | 8% | 9% |
| RESP | 6% | 5% | 6% | 5% | 5% |
| Investment income (bonds, dividends, interest, etc.) | 4% | 4% | 3% | 4% | 6% |
| Co-op program/work term | 3% | 2% | 5% | 3% | 10% |
| Work-study program | 1% | <1% | 3% | 1% | 2% |
| Multiple other | 10% | 13% | 9% | 8% | 9% |
| Note: Respondents could provide more than one answer. Therefore, columns may not sum to 100%. | | | | | |

Almost three-quarters of students rely on two or more of these sources to finance their education. Indeed, on average, students report using more than two different sources to help pay for their education. See Table 50.

| Table 50: Number of sources of financing Q29 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| One | 26% | 23% | 27% | 27% | 23% |
| Two | 24% | 24% | 23% | 24% | 27% |
| Three | 23% | 23% | 22% | 23% | 25% |
| Four or more | 25% | 26% | 24% | 23% | 21% |
| No response | 3% | 3% | 3% | 3% | 4% |
| Average | 2.6 | 2.7 | 2.6 | 2.6 | 2.5 |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

Typically, students report that the various sources contribute just over $11,000 toward financing their education this year. The largest sources, on average, contributing more than half of their financing are:

- *Government loan or bursary* (over $8,200)

- *Co-op program or work term* (almost $7,000)

- *Parents, family, or spouse* (almost $6,800).

Of less importance, but still contributing one-third or more are:

- *RESP* (over $4,100)

- *Investment income* (almost $3,800)

- *Summer work* (over $3,600)*.*

See Table 51.

| Table 51: Average amount from each financing source Q29 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **All respondents** | | | | | |
| Overall | $11,291 | $11,593 | $11,429 | $10,877 | $10,542 |
| **Average among those with these sources** | | | | | |
| Government loan or bursary | $8,254 | $8,426 | $8,717 | $7,664 | $8,082 |
| Co-op program/work term | $6,950 | $5,076 | $7,442 | $7,330 | $5,574 |
| Parents/family/spouse | $6,774 | $7,085 | $6,905 | $6,378 | $6,024 |
| RESP | $4,138 | $4,136 | $4,401 | $3,878 | $4,009 |
| Investment income (bonds, dividends, etc.) | $3,785 | $4,525 | $2,764 | $3,692 | $1,928 |
| Earnings from summer work | $3,656 | $3,642 | $3,519 | $3,779 | $3,731 |
| Earnings from current employment | $2,946 | $2,425 | $3,005 | $3,393 | $2,553 |
| Personal savings | $2,816 | $2,871 | $2,761 | $2,804 | $2,604 |
| University scholarship/financial award | $2,712 | $2,416 | $2,793 | $3,027 | $2,792 |
| Work-study program | $2,187 | $1,255 | $1,687 | $3,762 | $1,196 |
| University bursary | $1,547 | $1,428 | $1,766 | $1,505 | $1,790 |
| Multiple other | $6,116 | $6,202 | $5,774 | $6,307 | $4,548 |
| Note: Non-numeric amounts have been excluded from the calculation of averages. | | | | | |

A similar pattern can be found in Table 52, which shows the median values for these same sources.

| Table 52: Median amount from each financing source Q29 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **All respondents** | | | | | |
| Overall | $9,000 | $9,600 | $9,361 | $8,000 | $8,400 |
| **Median among those with these sources** | | | | | |
| Government loan or bursary | $7,200 | $7,912 | $8,000 | $6,613 | $8,000 |
| Co-op program/work term | $5,000 | $3,000 | $5,000 | $5,000 | $4,750 |
| Parents/family/spouse | $4,500 | $4,500 | $5,000 | $4,000 | $4,000 |
| RESP | $3,000 | $3,000 | $3,000 | $3,000 | $4,000 |
| Earnings from summer work | $2,500 | $2,500 | $2,500 | $2,500 | $3,000 |
| Investment income (bonds, dividends, etc.) | $2,000 | $2,000 | $1,000 | $2,000 | $2,000 |
| Personal savings | $2,000 | $2,000 | $2,000 | $2,000 | $2,000 |
| University scholarship/financial award | $1,750 | $1,500 | $2,000 | $2,000 | $2,000 |
| Earnings from current employment | $1,500 | $1,400 | $1,600 | $1,500 | $1,500 |
| Work-study program | $1,500 | $1,000 | $1,200 | $2,000 | $1,134 |
| University bursary | $1,000 | $1,000 | $1,000 | $1,000 | $1,600 |
| Multiple other | $4,000 | $5,000 | $4,000 | $4,100 | $2,550 |
| Note: Non-numeric amounts have been excluded from the calculation of medians. | | | | | |

### 3.4.1 Concern for funding

We asked students to rate their level of concern with having sufficient funding to complete their university education (see Table 53).

- About 7 students in 10 are at least somewhat concerned, including 27% who are very concerned.

| Table 53: Sufficient funds to complete education Q34 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Very concerned | 27% | 28% | 29% | 24% | 27% |
| Somewhat concerned | 44% | 44% | 42% | 45% | 42% |
| Not concerned | 28% | 27% | 28% | 30% | 30% |
| Note: The 'don't know/no response' category is not shown. Therefore, columns may not sum to 100%. | | | | | |

### 3.5 Most students follow a budget

As Table 54 shows, about two-thirds of students report following a budget.

| Table 54: Budget Q35 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Yes | 67% | 68% | 65% | 66% | 65% |
| No | 27% | 26% | 27% | 28% | 28% |
| Note: The 'don't know/no response' category is not shown. Therefore, columns may not sum to 100%. | | | | | |

### 3.6    Credit cards

Some 7 in 10 students report that they have at least one credit card, including 9% who say that they have three or more credit cards.

Of those who have credit cards:

- About three-quarters report that they pay off their balance each month and as such their current credit card balance is zero.

- The remaining quarter carries a balance each month, most often over $1,000.

- The average balance each month is almost $600. The average outstanding balance for those who do not pay off their credit card each month is about $2,500.

See Table 55.

| Table 55: Credit cards | | | | | |
|---|---|---|---|---|---|
| | **All students** **(n=12,783)** | **Group** | | | **University of Victoria** **(n=341)** |
| | | **1** **(n=4,441)** | **2** **(n=3,801)** | **3** **(n=4,541)** | |
| **Number of credit cards Q36 (all respondents)** | | | | | |
| None | 23% | 24% | 23% | 20% | 18% |
| One | 44% | 44% | 43% | 45% | 44% |
| Two | 17% | 15% | 18% | 18% | 20% |
| Three or more | 9% | 9% | 9% | 9% | 10% |
| No response | 7% | 8% | 7% | 7% | 7% |
| Average number | 1.3 | 1.2 | 1.4 | 1.3 | 1.4 |
| **Regularly pay off your balance each month Q37*** | | | | | |
| Yes | 73% | 69% | 74% | 76% | 69% |
| **Total credit card balance Q38*** | | | | | |
| Zero | 76% | 72% | 76% | 79% | 71% |
| $500 or less | 5% | 6% | 5% | 5% | 5% |
| $501 to $1,000 | 6% | 6% | 5% | 5% | 6% |
| Over $1,000 | 12% | 14% | 11% | 10% | 16% |
| No response | 2% | 2% | 2% | 1% | 2% |
| Average | $579 | $717 | $511 | $507 | $702 |
| Note: * Total credit card balance and payment of the balance were asked of those who had at least one credit card. | | | | | |

As students advance in university, they are more likely to have obtained a credit card. Some 52% of those in first year have at least one credit card compared to 84% of those in fourth year. Likewise, the total number of credit cards that students have also increases. However, students' likelihood of paying off the balance each month or the total outstanding balance they carry does not appear to significantly change over time.

## 4.0    Perceptions of university

In this section, we report on students' satisfaction with services prior to class, their personal safety, and academic, general, and special services and facilities.

### 4.1    Satisfaction with services prior to classes

Below we examine some services typically used by students prior to the start of classes.

#### 4.1.1    Course registration

About three-quarters of students (76%) report being satisfied with the process of registering for courses, including 29% who are very satisfied with the process. The remaining one-quarter are dissatisfied.

See Table 56.

| Table 56: Satisfaction with the process of registering for your courses Q14C | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Very satisfied | 29% | 26% | 28% | 32% | 38% |
| Satisfied | 47% | 48% | 46% | 47% | 50% |
| Dissatisfied | 17% | 18% | 19% | 16% | 10% |
| Very dissatisfied | 6% | 7% | 6% | 4% | 1% |
| Don't know/no response | <1% | <1% | <1% | <1% | <1% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

### 4.1.2  Course availability

Slightly less than two-thirds of students (63%) are satisfied with the availability of courses required for their program, including 16% who are very satisfied. The remaining one-third is dissatisfied with course availability. (See Table 57.)

| Table 57: Satisfaction with the availability of courses for your program Q14I | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Very satisfied | 16% | 19% | 14% | 16% | 16% |
| Satisfied | 47% | 46% | 47% | 49% | 55% |
| Dissatisfied | 26% | 26% | 27% | 26% | 22% |
| Very dissatisfied | 9% | 8% | 10% | 8% | 6% |
| Don't know/no response | 2% | 1% | 2% | 2% | 1% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

Satisfaction with course availability decreases as students progress through university. Some 74% of first-year students report being satisfied or very satisfied with the availability of courses for their program.  Significantly fewer students in third (58%) and fourth (59%) year are satisfied with the courses available.

### 4.2    Satisfaction with safety

Almost 9 students in 10 report being satisfied with their personal safety on campus, including 39% who are very satisfied (see Table 58). That being said, some 1 student in 20 reports that he or she is dissatisfied with his or her personal safety on campus.

| Table 58: Satisfaction with personal safety on campus Q14G | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Very satisfied | 39% | 46% | 36% | 35% | 45% |
| Satisfied | 50% | 44% | 53% | 52% | 43% |
| Dissatisfied | 5% | 5% | 5% | 6% | 1% |
| Very dissatisfied | 1% | 1% | 1% | 1% | - |
| Don't know/no response | 4% | 4% | 4% | 5% | 11% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

Regardless of gender, about 9 students in 10 are at least satisfied with their personal safety on campus. That said, it appears that males (48%) are slightly more likely than females (35%) to be very satisfied. However, this difference is not statistically significant.

### 4.3    Satisfaction with academic facilities

We asked students to rate their satisfaction with a number of academic facilities on their campus. In each case, a majority of students are satisfied with each of the items tested, as shown in Table 59.

- Almost 9 students in 10 are satisfied (56%) or very satisfied (32%) with the *average size of their classes.* Those attending smaller universities tend to be more satisfied than those attending larger universities. Among Group 1 students, some 52% are very satisfied with their average class sizes compared with only 24% of Group 2 students and 18% of Group 3 students.

- About 8 students in 10 are satisfied with the *library facilities* (including 30% who are very satisfied), *instructional facilities* (20% very satisfied), and *general condition of buildings and grounds* (22% very satisfied).

- Almost 7 students in 10 are satisfied (47%) or very satisfied (21%) with *study space*.

| Table 59: Satisfaction with facilities (% satisfied/very satisfied) Q14 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| a. Average size of your classes | 88% | 96% | 87% | 81% | 84% |
| d. Library facilities | 82% | 78% | 82% | 87% | 80% |
| b. Instructional facilities (e.g., classrooms, labs, equipment) | 80% | 85% | 78% | 78% | 79% |
| f. General condition of buildings and grounds | 78% | 84% | 72% | 78% | 84% |
| e. Study space | 68% | 73% | 64% | 67% | 62% |

Students' satisfaction with *average class size* varies by discipline. In terms of those who are very satisfied, students in Education (42%) and Arts and Humanities (38%) programs tend to be most satisfied with *average class sizes* while students in Engineering (20%) programs tend to be least satisfied.

As students progress in their program, they become less satisfied with the available *study spaces*. Some 72% of first-year students are at least satisfied with the *study space,* compared to 62% of fourth-year students.

### 4.4      Use of and satisfaction with facilities and services

We asked students to rate their use of and satisfaction with 20 different facilities and services at their universities.

### 4.4.1   Use of general facilities and services

Some facilities and services are, by their very nature, used by almost all students, while the use of others is based on circumstances. As Table 60 shows:

- Virtually all students (96%) have used the *campus bookstore*.

- Over 8 students in 10 have used the *computer facilities* (86%) and *food services* (81%).

- More than half of students have used their university's *athletic facilities* (58%) and *parking facilities* (56%).

- Some 4 students in 10 have participated in *university-based social activities* (40%).

- About 3 students in 10 have used *facilities for student associations and clubs* (35%), *campus medical services* (31%), and *university residences* (27%).

Results are similar across groups, although Group 1 students (36%) are more likely to report the use of university residence than Group 2 (27%) or Group 3 (17%) students.

| Table 60: Use of facilities/services Q15 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| i. Campus book store(s) | 96% | 96% | 96% | 95% | 95% |
| c. Computer facilities | 86% | 84% | 88% | 87% | 80% |
| t. Food services | 81% | 84% | 82% | 76% | 84% |
| d. Athletic facilities | 58% | 60% | 59% | 55% | 56% |
| g. Parking facilities | 56% | 61% | 57% | 51% | 64% |
| h. University-based social activities | 40% | 44% | 39% | 38% | 35% |
| f. Facilities for student associations, clubs, etc. | 35% | 34% | 36% | 34% | 37% |
| r. Campus medical services | 31% | 35% | 31% | 27% | 38% |
| e. University residences | 27% | 36% | 27% | 17% | 27% |

Use of the university's *computer facilities* is more common among students in Engineering (98%) programs and less common among students in Education (79%), Arts and Humanities (81%), and Professional (81%) programs.

The longer students have been at university, the more likely they are to have used particular services or facilities.

- Some 42% of first-year students have used the *parking facilities* compared to 69% of fourth-year students.

- About 21% of students in their first year have used the *campus medical services* compared to 40% of those in their fourth year.

### 4.4.2  Satisfaction with general facilities and services

Students who had used particular facilities or services provided satisfaction ratings.

As shown in Table 61:

- Some 8 in 10 students report being satisfied with:
  - *computer facilities,* including 26% who are very satisfied
  - *campus medical services,* including 36% who are very satisfied
  - *university-based social activities*, including 17% who are very satisfied
  - *facilities for student association and clubs,* including 16% who are very satisfied.
  - *athletic facilities*, including 28% who are very satisfied.

- About 7 students in 10 are satisfied with:
  - *university residences*, including 25% who are very satisfied
  - *campus bookstore*, including 16% who are very satisfied.

Students are least satisfied with two of the practical services:

- Just over 6 students in 10 are satisfied (52%) or very satisfied (10%) with the *food services*.

- Only 4 students in 10 students are satisfied (33%) or very satisfied (5%) with the *parking facilities*. Most students are dissatisfied (34%) or very dissatisfied (26%) with this service.

| Table 61: Satisfaction with general facilities/services (% satisfied/very satisfied) Q15 | All students | Group | | | University of Victoria |
|---|---|---|---|---|---|
| | | 1 | 2 | 3 | |
| c. Computer facilities | 85% | 86% | 83% | 84% | 86% |
| r. Campus medical services | 84% | 85% | 83% | 83% | 86% |
| h. University-based social activities | 83% | 84% | 79% | 85% | 88% |
| f. Facilities for student associations, clubs, etc. | 80% | 80% | 79% | 82% | 88% |
| d. Athletic facilities | 79% | 74% | 81% | 83% | 92% |
| e. University residences | 74% | 76% | 71% | 73% | 76% |
| i. Campus book store(s) | 72% | 74% | 66% | 76% | 84% |
| t. Food services | 62% | 62% | 59% | 66% | 76% |
| g. Parking facilities | 39% | 43% | 38% | 34% | 57% |
| Note: Percentages are based on those who have used the service. | | | | | |

Those attending larger universities are more likely to be very satisfied with the *athletic facilities.* About 34% of students in Group 3 universities are very satisfied compared to 30% of those in Group 2 universities and 20% of those in Group 1 universities.

As students advance in their program, they become less satisfied with their university's *athletic facilities.* Twice as many first-year students (40%) are very satisfied compared to fourth-year students (21%).

## 4.5     Use of special services

Table 62 shows undergraduates' use of various special services.

- The most commonly used special service is *academic advising*. Almost 6 students in 10 used this service.

- About 1 student in 3 used *services for students in need of financial aid*.

- Less than 1 student in 5 reports using: *employment services, tutoring services, career counselling services,* and *study skills/learning support services.*

- About 1 student in 10 reports using *personal counselling services* or *co-op programs.*

- Few students report using services designed for specific types of students. Less than 1 student in 10 used *services for international students* (7%), which is consistent with the number of students who identify themselves as from outside of

Canada (7%). Few students also report having used either *services for students with disabilities* (4%) or *services for First Nations students* (2%). Again, this is consistent with the percentage of students who self-identified as having a disability (6%) or being of Aboriginal ancestry (3%).

| Table 62: Use of special services Q15 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| a. Academic advising | 59% | 66% | 56% | 54% | 63% |
| l. Services for students in need of financial aid | 31% | 35% | 31% | 26% | 34% |
| s. Employment services | 16% | 15% | 17% | 17% | 16% |
| b. Tutoring services | 16% | 16% | 16% | 15% | 14% |
| p. Career counselling services | 14% | 14% | 16% | 14% | 18% |
| q. Study skills/learning support services | 14% | 17% | 16% | 11% | 13% |
| o. Personal counselling services | 12% | 13% | 12% | 10% | 22% |
| n. Co-op programs | 9% | 8% | 14% | 7% | 21% |
| k. Services for international students | 7% | 7% | 7% | 7% | 9% |
| j. Services for students with disabilities | 4% | 4% | 4% | 3% | 3% |
| m. Services for First Nations students | 2% | 2% | 2% | <1% | 1% |

The longer students are in university, the more likely they are to use certain services:

- About 39% of first-year students used *academic advising* compared to 72% of fourth-year students.

- Some 8% of first-year students used *employment services* compared to 25% of fourth-year students.

- Only 3% of first-year students used *co-op programs* compared to 16% of fourth-year students.

Students' use of *co-op programs* also varies by discipline. Students in Engineering programs (31%) are more likely to use this service compared to students in Arts and Humanities (3%), Social Science (4%), and Professional (5%) programs.

### 4.5.1  Satisfaction with special services

Most students who have used the special services tested are satisfied with them (see Table 63). Among those who have experience with a service:

- More than 8 students in 10 are satisfied with *study skills/learning support services,* including 21% who are very satisfied with their experience.

- About 3 students in 4 are satisfied with:
    - *services for students with disabilities,* including 41% who are very satisfied with their experience
    - *personal counselling services,* including 33% who are very satisfied
    - *tutoring services,* including 24% who are very satisfied
    - *academic advising,* including 23% who are very satisfied
    - *career counselling services,* including 23% who are very satisfied
    - *employment services,* including 20% who are very satisfied.

- About 7 students in 10 are satisfied with:
    - *services for First Nations,* including 26% who are very satisfied (21%)
    - *services for international students,* including 21% who are very satisfied
    - *co-op programs,* including 24% who are very satisfied
    - *services for students in need of financial aid,* including 18% who are very satisfied.

There are few significant differences among groups. Students attending Group 1 (41%) universities are more likely to be very satisfied with *personal counselling services* than those attending Group 2 (32%) and Group 3 (25%) universities.

| Table 63: Satisfaction with special services (% satisfied/very satisfied) Q15 | All students | Group | | | University of Victoria |
|---|---|---|---|---|---|
| | | 1 | 2 | 3 | |
| q. Study skills/learning support services | 84% | 87% | 81% | 83% | 82% |
| o. Personal counselling services | 79% | 83% | 79% | 75% | 74% |
| b. Tutoring services | 78% | 80% | 77% | 76% | 80% |
| a. Academic advising | 76% | 79% | 76% | 73% | 74% |
| j. Services for students with disabilities | 76% | 74% | 76% | 78% | 70% |
| p. Career counselling services | 75% | 76% | 76% | 72% | 71% |
| s. Employment services | 74% | 75% | 72% | 75% | 75% |
| m. Services for First Nations students | 71% | 68% | 69% | 83% | 60% |
| k. Services for international students | 69% | 70% | 65% | 71% | 56% |
| n. Co-op programs | 68% | 67% | 70% | 67% | 69% |
| l. Services for students in need of financial aid | 68% | 71% | 68% | 64% | 69% |
| Note: Percentages are based on those who have used the service. | | | | | |

Students' satisfaction with *co-op programs* tends to increase significantly in fourth year. About one-quarter of fourth-year students are very satisfied with co-op programs compared to about one-fifth of students in the first three years of their programs.

## 4.5.2  Areas requiring biggest improvements

We asked students to identify the top three areas that require the most improvement at their university. The most commonly cited areas are:

- Some 4 in 10 students indicate that *parking facilities* are one of the top three areas requiring improvement.

- Almost 4 students in 10 report that *food services* are a top priority for improvement.

Other frequently mentioned areas are:

- *Campus bookstore.* Almost 3 students in 10 say that the *campus bookstore* is a priority area for improvement.

- *Computer facilities* and *academic advising*. About 1 student in 4 mentions each of these as one of the top areas in need of improvement.

- *Athletic facilities.* About 1 student in 5 says that *athletic facilities* are most in need of improvement.

- *Services for students in need of financial aid.* About 1 in 7 cites this as a top priority for improvement.

See Table 64 for a complete list of all facilities and services.

While the order of most priorities for improvement remains similar across all university groups, students attending Group 1 universities are more likely than their Group 2 or 3 counterparts to name *food services* and *athletic facilities* as priorities for improvement. Students attending Group 3 institutions are slightly more likely to cite *academic advising* as an area in need of improvement.

| Table 64: Top three suggested improvements Q15 | All students (n=12,783) | Group 1 (n=4,441) | Group 2 (n=3,801) | Group 3 (n=4,541) | University of Victoria (n=341) |
|---|---|---|---|---|---|
| g. Parking facilities | 40% | 42% | 40% | 37% | 30% |
| t. Food services | 37% | 44% | 37% | 30% | 29% |
| i. Campus book store(s) | 28% | 29% | 30% | 25% | 18% |
| c. Computer facilities | 24% | 21% | 25% | 26% | 21% |
| a. Academic advising | 24% | 21% | 24% | 27% | 25% |
| d. Athletic facilities | 18% | 22% | 16% | 15% | 10% |
| l. Services for students in need of financial aid | 15% | 14% | 16% | 15% | 18% |
| e. University residences | 10% | 13% | 9% | 9% | 10% |
| s. Employment services | 10% | 8% | 12% | 11% | 7% |
| h. University-based social activities | 9% | 8% | 9% | 8% | 10% |
| p. Career counselling services | 8% | 6% | 7% | 10% | 10% |
| n. Co-op programs | 8% | 6% | 10% | 8% | 13% |
| f. Facilities for student associations, clubs, etc. | 7% | 7% | 7% | 8% | 5% |
| b. Tutoring services | 7% | 5% | 8% | 8% | 5% |
| r. Campus medical services | 6% | 6% | 5% | 6% | 6% |
| q. Study skills/learning support services | 5% | 4% | 6% | 6% | 7% |
| o. Personal counselling services | 3% | 3% | 3% | 4% | 3% |
| k. Services for international students | 3% | 2% | 3% | 3% | 5% |
| j. Services for students with disabilities | 2% | 2% | 3% | 2% | 4% |
| m. Services for First Nations students | <1% | 1% | 1% | <1% | 2% |
| Note: Respondents could provide more than one answer.  Therefore, columns may not sum to 100%. | | | | | |

### 4.6    Satisfaction with faculty

Regardless of the type of university, students tend to report positive experiences with faculty. However, in several areas, students attending Group 1 universities are more likely to agree that their experiences were positive than those attending the larger Group 2 and 3 institutions.

- Almost 9 students in 10 agree that:
    - *Professors encourage students to participate in class discussions*, including 31% who strongly agree.
    - *Most of [their] professors are reasonably accessible outside of class to help students,* including 24% who strongly agree.

- Just over 8 students in 10 agree that their *professors show sensitivity to racial issues* including 16% who strongly agree. About 12% of students disagree. While a majority of students still agree, students who self-identify as a visible minority are more likely to disagree. Some 22% of visible minority students disagree compared to 9% of students who are not a visible minority.

- About 3 students in 4 agree that:
    - *Professors show sensitivity to gender issues,* including 13% who strongly agree. Men and women are both as likely to agree with this statement.
    - *Professors generally look out for students' interests,* including 15% who strongly agree. Students at Group 1 universities (83%) are more likely to agree with this statement than students at Group 2 (73%) or Group 3 (69%) universities.
    - *Professors treat students as individuals,* including 22% who strongly agree. Again, students at Group 1 universities (87%) are more likely to agree with this statement than students at Group 2 (71%) or Group 3 (66%) universities.

- About 7 students in 10 agree that *professors have had a major positive influence on [their] academic career,* including 26% who strongly agree. Some 28% of students disagree with this statement.

- Some 6 students in 10 agree that *some professors have taken a personal interest in [their] academic progress,* including 16%

who strongly agree. About 38% of students disagree. Those attending Group 1 universities (70%) are more likely to agree with this statement than those attending Group 2 (57%) or Group 3 (55%) universities.

- About 4 students in 10 agree that they *feel free to turn to some of [their] professors for advice on personal matters,* including only 10% who strongly agree. A majority of students (58%) disagree with this statement, including 17% who strongly disagree.

See Table 65.

| Table 65: Perception of professors (% agree/strongly agree) Q16 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| g. Most of my professors encourage students to participate in class discussions | 89% | 93% | 87% | 86% | 87% |
| j. Most of my professors are reasonably accessible outside of class to help students | 87% | 91% | 87% | 85% | 91% |
| c. My professors show sensitivity to racial issues | 82% | 88% | 78% | 79% | 88% |
| b. My professors show sensitivity to gender issues | 76% | 83% | 71% | 74% | 83% |
| e. My professors generally look out for students' interests | 75% | 83% | 73% | 69% | 77% |
| h. At this university, professors treat students as individuals, not just numbers | 75% | 87% | 71% | 66% | 75% |
| d. Some professors at this university have had a major positive influence on my academic career | 70% | 75% | 69% | 66% | 69% |
| a. Some of my professors have taken a personal interest in my academic progress | 61% | 70% | 57% | 55% | 62% |
| f.  I feel free to turn to some of my professors for advice on personal matters | 39% | 46% | 37% | 35% | 35% |

As students progress in their studies, they become more likely to agree that *some of [their] professors have taken a personal interest in [their] academic progress*. About half of first-year students agree with this statement compared with three-quarters of fourth-year students.

Perceptions of professors differ depending on the program students are in. In general, students in Arts and Humanities programs tend to be the most positive, while Engineering students tend to be the least positive about their professors.

- About 9 students in 10 in Arts and Humanities and Business programs agree that *most professors encourage students to*

*participate in class discussions.* Only 3 Engineering students in 4 agree.

- More than 8 students in 10 in either Arts and Humanities or Education programs agree that their *professors show sensitivity to gender issues.* Only 2 Engineering students in 3 agree.

- While about 7 students in 10 in Arts and Humanities and Education programs agree that *some of [their] professors have taken a personal interest in [their] academic progress,* just over half of the Engineering students agree with this statement.

These and other findings are presented in Table 66. Included in this table are those disciplines where the level of agreement was significantly higher or lower than that of students overall.

| Table 66: Perception of faculty by discipline | | |
|---|---|---|
| **Issue** | **Discipline** | **Agree/ Strongly Agree** |
| Most of my professors encourage students to participate in class discussions | Arts and Humanities | 94% |
| | Business | 92% |
| | Overall | 89% |
| | Engineering | 76% |
| My professors show sensitivity to racial issues | Arts and Humanities | 90% |
| | Education | 89% |
| | Professional | 88% |
| | Overall | 82% |
| | Engineering | 69% |
| My professors show sensitivity to gender issues | Arts and Humanities | 85% |
| | Education | 84% |
| | Overall | 76% |
| | Engineering | 64% |
| At this university, professors treat students as individuals, not just numbers | Arts and Humanities | 83% |
| | Overall | 75% |
| | Biological Science | 65% |
| | Engineering | 64% |
| Some professors have taken an interest in my academic progress | Education | 74% |
| | Arts and Humanities | 70% |
| | Overall | 61% |
| | Engineering | 52% |

### 4.6.1  Overall quality of teaching

Over 80% of students agree that they are satisfied with the quality of teaching they have received, including 16% who strongly agree. Some 16% disagree that they are satisfied with the quality of teaching.

Students attending Group 1 universities are not only more likely to agree, they are also more likely to strongly agree compared with those attending Group 2 or 3 institutions (see Table 67).

| Table 67: Agreement level: Generally, I am satisfied with the quality of teaching I have received Q16M | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Agree strongly | 16% | 23% | 14% | 11% | 18% |
| Agree | 67% | 67% | 67% | 68% | 65% |
| Disagree | 13% | 8% | 15% | 16% | 14% |
| Disagree strongly | 3% | 1% | 3% | 4% | 1% |
| Don't know/no response | <1% | <1% | 1% | <1% | 2% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

Given that they do not have as positive a perception of their professors, it is not surprising that students in Engineering programs (71%) are the least likely to agree that they are satisfied with the quality of teaching they have received. Conversely, reflecting their generally more positive evaluation of faculty, those in Arts and Humanities (89%) and Education (89%) programs are the most likely to agree with this statement.

### 4.7     Other perceptions of university

Students also rated eight other statements about learning, participation, and other staff at their university. Table 68 shows the percentage of students who agree with statements about their university.

- Over 9 students in 10 agree that:

- *The university treats students fairly, independently of their gender,* including 25% who strongly agree. Only 4% disagree. Students' perceptions do not appear to vary with gender.

- *In most of [their] classes, [they] have been given the chance to evaluate the course,* including 51% who strongly agree. About 7% disagree.

- *The university treats students fairly, independent of their race*, including 24% who strongly agree. Some 5% disagree. Although the difference is not statistically significant, it appears that students who self-identify as a visible minority (11%) are slightly more likely to disagree compared to those who are not a visible minority (3%).

- Over 8 students in 10 agree that:

- *[Their] learning experience at the university has been intellectually stimulating,* including 22% who strongly agree. Some 13% disagree.

- *Most university support staff are helpful* (83%), including 19% who strongly agree. About 16% disagree.

- Some 7 students in 10 agree that *grading is consistent and fair,* although only 9% strongly agree. About 28% disagree.

- Over half agree that *teaching assistants have been helpful in [their] academic program*. This includes 12% who strongly agree. Some 41% disagree.

- Of concern, is that about half *feel that [they] get the run around at their university,* although only 11% strongly agree. Almost half (47%) disagree.

Although there are some slight differences among university groups none are statistically significant.

| Table 68: Learning and participation (% agree/strongly agree) Q16 | All students (n=12,783) | Group 1 (n=4,441) | Group 2 (n=3,801) | Group 3 (n=4,541) | University of Victoria (n=341) |
|---|---|---|---|---|---|
| s. The university treats students fairly, independently of their gender | 93% | 95% | 90% | 92% | 95% |
| i. In most of my classes, I have been given the chance to evaluate the course | 92% | 92% | 92% | 92% | 91% |
| r. The university treats students fairly, independently of their race | 91% | 94% | 88% | 89% | 92% |
| n. My learning experiences at this university have been intellectually stimulating | 86% | 90% | 83% | 84% | 89% |
| o. Most university support staff (e.g., clerks, secretaries, etc.) are helpful | 83% | 86% | 81% | 80% | 86% |
| l. Grading is consistent and fair at this university | 70% | 77% | 65% | 67% | 71% |
| k. Teaching assistants have been helpful in my academic program | 55% | 50% | 55% | 58% | 53% |
| p. I sometimes feel I get the run around at this university | 48% | 42% | 48% | 52% | 40% |

Students' agreement that they have *been given the chance to evaluate their courses* increases with the length of time they have been in university. Virtually all students in their fourth year (96%) agree with this statement compared to slightly fewer students who are in their first year (85%).

Students' perceptions of the usefulness of teaching assistants varies by discipline. About two-thirds of students in Biological Science (69%) and Physical Science (65%) programs agree that teaching assistants have been helpful, compared to only 42% of those who are in Education programs.

### 4.8 Areas requiring improvement

We asked students to rate the need for improvement of various facilities and services on a five-point scale: needing no improvement or very little, some, much, or very much improvement. Anyone who did not provide a rating is assumed not to have used the service or facility and therefore is not included in the calculation of the ratings.

#### 4.8.1 Improvement of academic services and facilities

Table 69 shows the percentage of students who provided a rating of these academic services. While most could provide ratings for *emphasis on teaching excellence* and *use of technology in the classroom,* only 6 in 10 rate *course accessibility for mature and part-time students.*

| Table 69: Areas requiring improvement: academic services (percent who offered a rating) Q17 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| a. Emphasis on teaching excellence (ability) | 96% | 95% | 95% | 97% | 91% |
| i. Use of technology in the classroom | 93% | 93% | 92% | 93% | 85% |
| d. Course accessibility for mature and part-time students | 58% | 60% | 59% | 55% | 57% |

As shown in Table 70, while students are generally pleased with academic services, about one-quarter of students report that improvements are needed.

Of the students who provided a rating:

- About one-third report that much or very much improvement is needed in terms of *course accessibility for mature students.* As expected, as students age they are more likely to say that much or very much improvement is needed in this area. About 43% of those who are 26 years of age and older report that much or very much improvement is needed, compared to 21% of those who are 18 years of age or younger. Part-time students (46%) are also more likely to say that this aspect requires much or very much improvement than full-time students (28%).

- Almost one-quarter report that the *use of technology in the classroom* needs much improvement.

- Just over one-fifth say the *emphasis on teaching excellence (ability)* needs much improvement. Students in Group 2 (24%) and Group 3 (29%) universities are more likely than those in Group 1 (14%) universities to say that this area needs much or very much improvement.

| Table 70: Areas requiring improvement: academic services (% much/very much) Q17 | All students | Group | | | University of Victoria |
|---|---|---|---|---|---|
| | | 1 | 2 | 3 | |
| d. Course accessibility for mature and part-time students | 31% | 30% | 32% | 31% | 30% |
| i. Use of technology in the classroom | 24% | 22% | 28% | 24% | 28% |
| a. Emphasis on teaching excellence (ability) | 22% | 14% | 24% | 29% | 23% |
| Note: Percentages are based on those who offered a rating. | | | | | |

Students' perceived need for improvements in *teaching excellence* varies by discipline. Given that students in Engineering programs are less satisfied with their professors than students in other programs, it is not surprising that 4 Engineering students in 10 (40%) say that much improvement in this area is needed. This compares with less than 1 student in 5 in Arts and Humanities (15%) and Social Science (19%) programs.

### 4.8.2  Work study programs

In Table 71, we present students' reactions to work study and opportunity programs.  Two-thirds or less provided ratings.

| Table 71: Areas requiring improvement: work/employment programs (percent who offered a rating) Q17 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| j. Work opportunities on campus | 67% | 66% | 70% | 65% | 57% |
| f. Student employment services | 64% | 63% | 67% | 63% | 57% |
| g. Work study opportunities | 63% | 59% | 67% | 64% | 55% |
| e. Opportunities for international study and exchange | 56% | 55% | 57% | 57% | 47% |

Most students are satisfied with these services. However, some state that they need much or very much improvement.

As Table 72 shows, of the students who provided a rating:

- About 4 in 10 say that much improvement is needed for *work-study opportunities, work opportunities on campus,* and *student employment services*.

- Almost 3 in 10 say the same for *opportunities for international study and exchange*.

| Table 72: Areas requiring improvement: work/employment programs (% much/very much) Q17 | All students | Group | | | University of Victoria |
|---|---|---|---|---|---|
| | | 1 | 2 | 3 | |
| g. Work study opportunities | 40% | 34% | 42% | 45% | 53% |
| j. Work opportunities on campus | 39% | 35% | 43% | 40% | 45% |
| f. Student employment services | 37% | 33% | 40% | 37% | 41% |
| e. Opportunities for international study and exchange | 28% | 27% | 28% | 30% | 36% |
| Note: Percentages are based on those who offered a rating. | | | | | |

### 4.8.3  Other issues

Table 73 shows some other issues tested for improvement with students and the percentage of students who provided ratings.

| Table 73: Areas requiring improvement: other issues (percent who offered a rating) Q17 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| b. Sense of community among students | 94% | 94% | 94% | 95% | 91% |
| c. Balance between academics and social life (too little social life) | 93% | 92% | 93% | 93% | 87% |
| h. University spending on financial aid | 69% | 68% | 71% | 68% | 63% |

Of the students who provided a rating:

- About half report much improvement is needed to *university spending on financial aid*.

- Some 3 in 10 say that much improvement is needed to the *sense of community among students.* Students attending Group 1 universities (23%) are less likely than those in Group 2 (36%) or Group 3 (35%) universities to say this area requires much improvement.

- Again, 3 in 10 report that much improvement is needed in the *balance between academics and social life.*

See Table 74.

| Table 74: Areas requiring improvement: other issues (% much/very much) Q17 | | | | | |
|---|---|---|---|---|---|
| | **All students** | **Group** | | | **University of Victoria** |
| | | **1** | **2** | **3** | |
| h. University spending on financial aid | 53% | 49% | 53% | 56% | 55% |
| b. Sense of community among students | 31% | 23% | 36% | 35% | 33% |
| c. Balance between academics and social life (too little social life) | 30% | 25% | 34% | 31% | 30% |
| Note: Percentages are based on those who offered a rating. | | | | | |

### 4.8.4 Top priorities for improvements

From the list of services and facilities tested, we asked students to rank the top three in terms of requiring the greatest need for improvement. Those most often cited as requiring improvements are:

- *Emphasis on teaching excellence (ability).* Slightly more than 4 in 10 students indicate that universities' emphasis on teaching excellence is one of the top three areas that require improvement.

- *University spending on financial aid.* Just under 4 students in 10 indicate that university spending is top priority for improvement.

- About 3 in 10 students ranked two areas of social life as the top areas needing improvement:

  - *balance between academics and social life (too little)*

  - *sense of community among students.*

See Table 75 for these and other priority areas for improvement.

| Table 75: Areas requiring improvement: top three Q17 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| a. Emphasis on teaching excellence (ability) | 41% | 32% | 43% | 48% | 39% |
| h. University spending on financial aid | 35% | 36% | 34% | 34% | 32% |
| c. Balance between academics and social life | 29% | 28% | 31% | 30% | 22% |
| b. Sense of community among students | 29% | 26% | 31% | 31% | 30% |
| i. Use of technology in the classroom | 24% | 26% | 23% | 22% | 24% |
| j. Work opportunities on campus | 22% | 24% | 23% | 19% | 20% |
| g. Work study opportunities | 20% | 18% | 20% | 20% | 22% |
| f. Student employment services | 18% | 18% | 19% | 17% | 13% |
| d. Course accessibility for mature and part-time students | 16% | 19% | 16% | 14% | 18% |
| e. Opportunities for international study and exchange | 12% | 12% | 10% | 13% | 10% |
| Note: Respondents could provide more than one answer.  Therefore, columns may not sum to 100%. | | | | | |

## 5.0     University experience

In this section, we report on students' involvement in campus activities and their personal growth and development.

## 5.1     Involvement in campus activities

The tables in this section show students who report attending various campus activities often or very often. Table 76 shows students involvement in campus activities.

- About 1 student in 5 (18%) attends *campus lectures* (in addition to regular classes), and about 10% of students report attending very often.

- About 1 in 10 students attends *campus social events* (13%), home games of *university athletic teams* (11%), or *campus cultural events* (10%). Less than 1 student in 20 reports attending these events very often.

| Table 76: Involvement in campus activities (% often/very often) Q18 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| b. Attended campus lectures (in addition to regular classes) | 18% | 16% | 20% | 18% | 15% |
| a. Attended campus social events | 13% | 15% | 12% | 11% | 10% |
| g. Attended home games of university athletic teams | 11% | 16% | 11% | 8% | 8% |
| c. Attended campus cultural events (theatre, concerts, art exhibits, etc.) | 10% | 11% | 9% | 9% | 10% |

Table 77 shows those students who are involved often or very often in student-based activities.

- About 1 in 5 students participates in *on-campus student recreational and sports programs,* and 8% report participating very often.

- Some 1 in 6 students participates in *student clubs,* but only 6% participate very often.

- About 1 in 20 reports participating in *student government*.

| Table 77: Involvement in student activities (% often/very often) Q18 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| f. Participated in on-campus student recreational and sports programs | 18% | 18% | 20% | 18% | 22% |
| e. Participated in student clubs | 15% | 16% | 15% | 14% | 15% |
| d. Participated in student government | 5% | 4% | 4% | 6% | 1% |

### 5.1.1 Participation by discipline

There are few differences in participation in various campus activities by discipline. The exceptions are:

- *Participate in on-campus student recreational and sports programs* and *attend home games of university athletic teams,* which students in Other Fields of study are more likely than students overall to do often or very often. (Partly, this reflects that this would include students in such programs as physical education, recreational sciences, etc.)

- *Participate in student clubs,* which students in Physical Science and Engineering programs are the most likely to participate in often or very often. Conversely, students in Education programs are much less likely than students overall to participate often or very often.

- *Attend campus cultural events,* which students in Arts and Humanities programs are most likely to do often or very often compared to students overall.

See Table 78.

| Table 78: Attendance at various campus activities by discipline | | |
|---|---|---|
| **Issue** | **Discipline** | **% often/ very often** |
| Participated in on-campus student recreational and sports programs | Other fields | 30% |
| | Overall | 18% |
| | Professional | 14% |
| | Arts and Humanities | 13% |
| Participated in student clubs | Physical Science | 20% |
| | Engineering | 19% |
| | Overall | 15% |
| | Education | 8% |
| Attended home games of university athletic teams | Other fields | 18% |
| | Overall | 11% |
| Attended campus cultural events | Arts and Humanities | 18% |
| | Overall | 10% |

### 5.2    Volunteer activities

Table 79 shows those students who report volunteering either on or off campus often or very often.

- About 1 student in 5 often or very often participates in community service or volunteer activities either on or off campus.

- More students participate in off-campus (17%) than on-campus (9%) volunteer activities.

| Table 79: Involvement in community service/volunteer activities (% often/very often) Q18 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| i. Participated in off-campus community service/volunteer activities | 17% | 17% | 18% | 17% | 18% |
| h. Participated in on-campus community service/volunteer activities | 9% | 10% | 8% | 8% | 7% |
| Participated in on/off-campus community service/volunteer activities | 21% | 23% | 21% | 20% | 20% |

Table 80 shows the number of hours students participate in community service or volunteer activities.

- Thirty-six percent (36%) report some hours engaged in community service or volunteer activities, either on or off campus, in a typical week.

- While most who volunteer spend five hours or less a week (29%), a few are involved for six or more hours a week (7%).

The typical student spends two hours per week in such activities. Among those who report community service and volunteer activity, the average doubles to four hours.

| Table 80: Average number of hours engaged in community service/volunteer activities per week Q19 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| None | 57% | 56% | 57% | 60% | 52% |
| 1 or 2 | 14% | 15% | 14% | 14% | 20% |
| 3 to 5 | 15% | 16% | 15% | 15% | 14% |
| 6 or more | 7% | 8% | 8% | 6% | 8% |
| Average hours (all respondents) | 1.7 | 1.8 | 1.7 | 1.5 | 1.7 |
| Average hours (those who participate) | 4.3 | 4.4 | 4.3 | 4.1 | 3.8 |
| Note: The 'don't know/no response' category is not shown.  Therefore, columns may not sum to 100%. | | | | | |

### 5.3    Personal growth and development

We asked students to "grade" their university in 24 skill areas in terms of contributing to their personal growth and development. We have grouped these various attributes under broad categories of academic skills, communication skills, analytical and learning skills, and life skills.

### 5.3.1  Academic skills

About 9 students in 10 rate their university in terms of the institution's contribution to their development of *effective use of library resources, language skills,* and *computer literacy skills.* Almost as many (78%) grade their university in terms of *mathematical skills* development.

Overall, students give their universities an average grade of a C+, about halfway between rating their university as fair and good.

Among those who rate these academic skills, half or more think their university makes a good or excellent contribution to:

- *Effective use of library resources*. This skill receives an average rating of a C+ with 40% rating their university as good and 18% rating it as excellent. Just over 1 student in 10 rates his or her university as poor or as a failure in this regard.

- *Language skills*.  This skill also receives an average grade of C+. Some 44% of students rate their university as good, and 12% rate it as excellent. Less than 1 student in 10 gives it a poor or failing grade.

Less than half rate the contribution of their university to these academic skills as good or excellent (average rating of C):

- *Computer literacy skills*. Almost half of the students rate their university as good (35%) or excellent (13%). Just less than 1 in 5 rates it as poor or as a failure.

- *Mathematical skills*. Some 31% of students rate their university as good, and 12% rate it as excellent. About 1 in 5 rates his or her university as poor or as a failure.

See Table 81.

| Table 81: Academic skills Q20 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Percent who graded the university** | | | | | |
| k. Effective use of library resources | 96% | 96% | 95% | 96% | 91% |
| j. Language skills | 91% | 91% | 90% | 91% | 84% |
| r. Computer literacy skills | 88% | 88% | 89% | 88% | 87% |
| i. Mathematical skills | 78% | 77% | 78% | 78% | 72% |
| **Average grade (out of 5)** | | | | | |
| k. Effective use of library resources | 3.6 | 3.6 | 3.5 | 3.6 | 3.7 |
| j. Language skills | 3.6 | 3.6 | 3.5 | 3.5 | 3.7 |
| r. Computer literacy skills | 3.4 | 3.4 | 3.4 | 3.4 | 3.5 |
| i. Mathematical skills | 3.3 | 3.2 | 3.3 | 3.3 | 3.4 |
| Note: Those students who did not respond or claimed that it was 'not applicable' have been excluded from the calculation of the average. 5=A:Excellent, 4=B:Good, 3=C:Fair, 2=D:Poor, 1=F:Fail. | | | | | |

Perceptions of contribution to the growth and development of these academic skills varies by discipline.

- On average, students in Engineering and Business programs give their universities lower marks for their contribution to *effective use of library resources.*

- Those in Arts and Humanities or Education programs give higher marks to their universities for contributing to *language skills,* while those in Engineering or Physical Science programs give lower marks to their universities for these same academic skills.

- Typically, students in Engineering or Physical Science programs give their universities much higher marks for contributing to the development of *mathematical skills* than do students in Arts and Humanities programs.

See Table 82.

| Table 82: Contribution to academic skills by discipline | | |
|---|---|---|
| **Contribution to…** | **Discipline** | **Average grade (5=A)** |
| Effective use of library resources | Biological Science | 3.7 |
| | Arts and Humanities | 3.7 |
| | Social Science | 3.7 |
| | Education | 3.7 |
| | Professional | 3.7 |
| | Overall | 3.6 |
| | Business | 3.4 |
| | Engineering | 3.3 |
| Language skills | Arts and Humanities | 3.8 |
| | Education | 3.8 |
| | Overall | 3.6 |
| | Physical Science | 3.3 |
| | Engineering | 3.1 |
| Mathematical skills | Engineering | 4.1 |
| | Physical Science | 4.0 |
| | Overall | 3.3 |
| | Arts and Humanities | 2.8 |

### 5.3.2  Communication skills

Almost all students rate their universities in terms of developing three types of communication skills.

While the average grade given by students is a high C+, the majority of students give their universities a good or excellent grade in terms of developing these communication skills.

- *Written communication skills*. Just over 6 students in 10 rate their university as good (48%) or excellent (13%) in terms of contributing to their written communication skills. Less than 1 in 10 gives his or her university a poor or failing grade.

- *Cooperative interaction in groups*. Some 6 students in 10 rate their university as good (43%) or excellent (17%) in contributing to their growth in cooperative interaction in groups. About 1 in 10 gives his or her university a poor or failing grade.

- *Oral communication skills*. More than half rate their university as good (43%) or excellent (12%) in terms of contributing to their oral communication skills. Just over 1 in 10 gives his or her university a poor or failing grade.

See Table 83.

| Table 83: Communication skills Q20 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **Percent who graded the university** | | | | | |
| a. Written communication skills | 97% | 97% | 97% | 97% | 95% |
| g. Cooperative interaction in groups | 96% | 97% | 96% | 96% | 95% |
| b. Oral communication skills | 96% | 96% | 96% | 95% | 90% |
| **Average grade (out of 5)** | | | | | |
| a. Written communication skills | 3.6 | 3.7 | 3.6 | 3.6 | 3.7 |
| g. Cooperative interaction in groups | 3.7 | 3.7 | 3.6 | 3.6 | 3.6 |
| b. Oral communication skills | 3.5 | 3.6 | 3.5 | 3.4 | 3.4 |
| Note: Those students who did not respond or claimed that it was 'not applicable' have been excluded from the calculation of the average.  5=A:Excellent, 4=B:Good, 3=C:Fair, 2=D:Poor, 1=F:Fail. | | | | | |

On average, students in Education and Arts and Humanities programs give their universities higher marks for contributing to the growth of their *written communication skills,* while students in Engineering programs give their universities lower marks on this item.

Students in Education programs tend to give higher grades to their universities for contributing to the growth of their *oral communication skills* and *cooperative group interaction* (as do Business students the latter case). In both cases, students in Physical Science programs give their universities lower marks on these items.

| Table 84: University contribution to communication skills by discipline | | |
|---|---|---|
| **Contribution to…** | **Discipline** | **Average grade (5=A)** |
| Written communication skills | Education | 3.8 |
| | Arts and Humanities | 3.8 |
| | Overall | 3.6 |
| | Engineering | 3.3 |
| Cooperative interaction in groups | Education | 4.0 |
| | Overall | 3.7 |
| | Arts and Humanities | 3.5 |
| | Physical Science | 3.5 |
| | Biological Science | 3.5 |
| Oral communication skills | Education | 3.7 |
| | Business | 3.7 |
| | Overall | 3.5 |
| | Engineering | 3.3 |
| | Physical Science | 3.2 |

### 5.3.3  Analytical and learning skills

Almost all students graded their universities in terms of developing analytical and learning skills.

Once again, the average grade is about a C+, and a majority of students grade their universities as good or excellent on each analytical and learning skill. Specifically:

- *Thinking logically and analytically.* Almost 7 in 10 grade their university as good (49%) or excellent (19%). Just over 1 in 20 gives it a poor or failing grade.

- *Identifying and solving problems.* Almost 6 in 10 grade their university as good (46%) or excellent (13%). Less than 1 in 10 gives it a poor or failing grade.

- *Skills to understand abstract reasoning*. Over half grade their university as good (43%) or excellent (13%). About 1 in 10 gives it a poor or failing grade.

- *Effective study and learning skills*. About half rate their university as good (42%) or excellent (11%). Just over 1 in 10 gives it a poor or failing grade.

- *Skills for planning and completing projects.* More than half rate their university as good (41%) or excellent (12%). About 1 student in 10 gives it a poor or failing grade.

See Table 85.

| Table 85: Analytical/learning skills Q20 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **Percent who graded the university** | | | | | |
| c. Effective study and learning skills | 97% | 97% | 97% | 97% | 95% |
| e. Thinking logically and analytically | 97% | 97% | 97% | 97% | 96% |
| d. Skills to understand abstract reasoning | 95% | 96% | 96% | 94% | 94% |
| m. Identifying and solving problems | 95% | 95% | 95% | 94% | 92% |
| l. Skills for planning and completing projects | 95% | 95% | 96% | 94% | 92% |
| **Average grade (out of 5)** | | | | | |
| c. Effective study and learning skills | 3.5 | 3.6 | 3.5 | 3.4 | 3.5 |
| e. Thinking logically and analytically | 3.8 | 3.8 | 3.8 | 3.8 | 3.9 |
| d. Skills to understand abstract reasoning | 3.6 | 3.6 | 3.5 | 3.5 | 3.6 |
| m. Identifying and solving problems | 3.6 | 3.7 | 3.6 | 3.6 | 3.6 |
| l. Skills for planning and completing projects | 3.5 | 3.6 | 3.5 | 3.5 | 3.5 |
| Note: Those students who did not respond or claimed that it was 'not applicable' have been excluded from the calculation of the average.  5=A:Excellent, 4=B:Good, 3=C:Fair, 2=D:Poor, 1=F:Fail. | | | | | |

### 5.3.4  Life skills: work and knowledge skills

About 9 students in 10 or more grade their universities in terms of their contributions to students' *working independently, persistence with difficult tasks,* or *preparation for employment*. Some 8 students in 10 provide a rating for *living in an international world* and *appreciation of the arts.*

Universities tend to receive grades of Bs or Cs.  About three-quarters of students give their university a grade of "B-good" or "A-excellent" in terms of:

- *Working independently*. Almost half rate their university as good (49%), and over a quarter grade it as excellent (27%). Less than 1 student in 20 gives his or her university a poor or failing grade.

Half or less give their university a grade of B or A in terms of its contribution to:

- *Persistence with difficult tasks.* About half grade their university as good (38%) or excellent (12%). Just over 1 in 10 grades it as poor or fail.

- *Preparation for employment*. Some 4 students in 10 grade their university as good (29%) or excellent (10%). Over 1 in 4 grades it as poor or fail.

- *Living in an international world*. Almost half rate their university as good (32%) or excellent (15%). About 1 in 5 rates it as poor or fail.

- *Appreciation of the arts.* Over 1 student in 3 rates his or her university as good (25%) or excellent (12%). Almost as many, 3 in 10, rate it as poor or fail.

See Table 86.

| Table 86: Life skills: work and knowledge Q20 | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| **Percent who graded the university** | | | | | |
| f. Working independently | 97% | 97% | 98% | 97% | 96% |
| o. Persistence with difficult tasks | 94% | 94% | 94% | 93% | 90% |
| s. Preparation for employment | 89% | 89% | 90% | 89% | 87% |
| v. Living in an international world | 84% | 84% | 84% | 84% | 84% |
| t. Appreciation of the arts | 84% | 86% | 84% | 82% | 80% |
| **Average grade (out of 5)** | | | | | |
| f. Working independently | 4.0 | 3.9 | 4.0 | 4.0 | 4.0 |
| o. Persistence with difficult tasks | 3.5 | 3.5 | 3.5 | 3.5 | 3.5 |
| s. Preparation for employment | 3.2 | 3.3 | 3.1 | 3.1 | 3.1 |
| v. Living in an international world | 3.4 | 3.4 | 3.3 | 3.4 | 3.3 |
| t. Appreciation of the arts | 3.1 | 3.2 | 3.0 | 3.0 | 3.2 |
| Note: Those students who did not respond or claimed that it was 'not applicable' have been excluded from the calculation of the average.  5=A:Excellent, 4=B:Good, 3=C:Fair, 2=D:Poor, 1=F:Fail. | | | | | |

Students in Education programs tend to give higher grades to their universities for contributing to their *preparation for employment,* while those in Biological Science programs give their universities a lower rating for this item.

Those in Arts and Humanities programs rate their universities higher in terms of contributing to their *appreciation of the arts,* while those in Engineering and Business programs rate their universities lower for this item.

| Table 87: Contribution to work and knowledge by discipline | | |
|---|---|---|
| **Contribution to…** | **Discipline** | **Average grade (5=A)** |
| Preparation for employment | Education | 3.7 |
| | Overall | 3.2 |
| | Biological Science | 2.9 |
| Appreciation of the arts | Arts and Humanities | 3.7 |
| | Overall | 3.1 |
| | Business | 2.7 |
| | Engineering | 2.4 |

### 5.3.5  Life skills: personal and relationship skills

Generally, the vast majority of students are able to rate personal and relationship skills, except for *spiritual development,* for which only 74% of students provide a rating.

Typically, students give their universities a rating of a C or C+ on personal and relationship skills. About half of the students rate their university as A or B in terms of the following skills:

- *Moral and ethical development*. About 37% of students rate their university as good, and 16% rate it as excellent. Just over 1 in 7 rates it as poor or fail.

- *Personal self-confidence*. About 38% rate their university as good and 13% rate it as excellent. About 1 in 6 rates it as poor or fail.

- *Personal time management skills*. Some 36% of students rate their university as good, and 14% rate it as excellent. About 1 in 6 rates it as poor or fail.

- *Development of interpersonal skills*. Some 39% of students rate their university as good, and 11% rate it as excellent. Just over 1 in 10 rates it as poor or fail.

- *Leadership skills.* Some 33% of students rate their university as good, and 14% rate it as excellent. Almost 1 in 5 rates it as poor or fail.

About 4 students in 10 or fewer rate their university as good or excellent in terms of:

- *Ability to address issues in personal life.* Some 29% of students rate their university as good, and 9% rate it as excellent. Almost 1 in 4 rates it as poor or fail.

- *Spiritual development.* About 18% of students rate their university as good, and 8% rate it as excellent. Over 4 students in 10 rate it as poor (26%) or fail (17%).

See Table 88.

| Table 88: Life skills: personal and relationship Q20 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| **Percent who graded the university** | | | | | |
| n. Personal time management skills | 95% | 95% | 95% | 94% | 91% |
| x. Personal self-confidence | 93% | 94% | 93% | 92% | 89% |
| u. Development of interpersonal skills | 92% | 93% | 93% | 90% | 89% |
| p. Leadership skills | 91% | 92% | 92% | 89% | 87% |
| q. Moral and ethical development | 91% | 92% | 91% | 89% | 87% |
| h. Ability to address issues in personal life | 89% | 90% | 89% | 87% | 83% |
| w. Spiritual development | 74% | 75% | 75% | 72% | 70% |
| **Average grade (out of 5)** | | | | | |
| n. Personal time management skills | 3.4 | 3.5 | 3.4 | 3.4 | 3.4 |
| x. Personal self-confidence | 3.4 | 3.5 | 3.4 | 3.3 | 3.4 |
| u. Development of interpersonal skills | 3.5 | 3.6 | 3.4 | 3.4 | 3.4 |
| p. Leadership skills | 3.4 | 3.5 | 3.3 | 3.3 | 3.2 |
| q. Moral and ethical development | 3.5 | 3.6 | 3.4 | 3.4 | 3.5 |
| h. Ability to address issues in personal life | 3.2 | 3.3 | 3.1 | 3.0 | 3.1 |
| w. Spiritual development | 2.7 | 2.9 | 2.7 | 2.6 | 2.7 |
| Note: Those students who did not respond or claimed that it was 'not applicable' have been excluded from the calculation of the average.  5=A:Excellent, 4=B:Good, 3=C:Fair, 2=D:Poor, 1=F:Fail. | | | | | |

Students in Engineering and Physical Science programs tend to give their universities lower ratings than students overall in terms of contributing to the *development of interpersonal skills* and *moral and ethical development.* On this latter item, students in Professional programs tend to give their universities higher ratings.

| Table 89: Contribution to personal and relationship skills by discipline | | |
|---|---|---|
| **Contribution to…** | **Discipline** | **Average grade (5=A)** |
| Development of interpersonal skills | Overall | 3.5 |
| | Physical Science | 3.2 |
| | Engineering | 3.2 |
| Moral and ethical development | Professional | 3.7 |
| | Overall | 3.5 |
| | Physical Science | 3.2 |
| | Engineering | 3.1 |

## 6.0     Overall satisfaction

Below, we consider students' measures of satisfaction with their university.

### 6.1     Concern with students as individuals

We asked students to rate how satisfied they are in terms of the concern shown by their universities for them as individuals.

- Overall, about 6 students in 10 report that they are satisfied or very satisfied with their universities in this regard. Students attending Group 1 universities (21%) are twice as likely to be very satisfied than students attending Group 2 (11%) or Group 3 (8%) universities.

- While 1 student in 3 is dissatisfied with the concern shown for him/her as an individual, only 10% are very dissatisfied.

See Table 90.

| Table 90: Satisfaction with concern shown by the university for students as individuals Q14H | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Very satisfied | 13% | 21% | 11% | 8% | 16% |
| Satisfied | 47% | 51% | 48% | 43% | 47% |
| Dissatisfied | 23% | 18% | 25% | 28% | 23% |
| Very dissatisfied | 10% | 5% | 10% | 14% | 5% |
| Don't know/no response | 6% | 5% | 7% | 7% | 10% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

### 6.2    Students feel part of the university

We asked students if they feel as if they are part of the university.

- Overall, some 7 students in 10 agree that they feel as if they are part of the university, although only 11% strongly agree. While it appears that those attending Group 1 universities are more likely to agree that they feel like they are part of the university, the differences are not statistically significant.

- Almost 3 students in 10 disagree that they feel as if they are part of the university, although only 4% of students strongly disagree.

See Table 91.

| Table 91: Agreement level: I feel as if I am part of the university Q16Q | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Agree strongly | 11% | 15% | 10% | 8% | 11% |
| Agree | 59% | 62% | 58% | 57% | 62% |
| Disagree | 24% | 19% | 25% | 29% | 22% |
| Disagree strongly | 4% | 3% | 4% | 4% | 3% |
| Don't know/no response | 2% | 1% | 3% | 2% | 2% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

### 6.3    Satisfaction with choice of university

We asked students to rate their level of agreement with the
statement: *"I am satisfied with my decision to attend this
university."*

- Almost 9 students in 10 agree with this statement, including
  more than 30% who strongly agree.  Overall, it appears that a
  higher percentage of Group 1 students strongly agree that they
  are satisfied with their decision than Group 2 or Group 3
  students; however, this difference is not statistically significant.

- Few (9%) disagree that they are satisfied with their choice of
  university.

See Table 92.

| Table 92: Agreement level: I am satisfied with my decision to attend this university Q16T | | | | | |
|---|---|---|---|---|---|
| | **All students (n=12,783)** | **Group** | | | **University of Victoria (n=341)** |
| | | **1 (n=4,441)** | **2 (n=3,801)** | **3 (n=4,541)** | |
| Agree strongly | 31% | 39% | 28% | 25% | 36% |
| Agree | 58% | 54% | 59% | 62% | 57% |
| Disagree | 7% | 5% | 8% | 9% | 5% |
| Disagree strongly | 2% | 1% | 2% | 2% | <1% |
| Don't know/no response | 2% | <1% | 2% | 2% | 1% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

### 6.4    Overall quality of education

We asked students to rate their satisfaction with the overall quality of education they received from their university. As shown in Table 93:

- Overall, almost 9 students in 10 are at least satisfied with the overall quality of the education they have received at their university. This includes 21% who are very satisfied. Those attending Group 1 universities (28%) are twice as likely as those attending Group 3 universities (14%) to be very satisfied.

- About 1 student in 10 is dissatisfied, including 3% who are very dissatisfied.

| Table 93: Satisfaction with overall quality of education Q21 | All students (n=12,783) | Group | | | University of Victoria (n=341) |
|---|---|---|---|---|---|
| | | 1 (n=4,441) | 2 (n=3,801) | 3 (n=4,541) | |
| Very satisfied | 21% | 28% | 20% | 14% | 22% |
| Satisfied | 65% | 61% | 65% | 68% | 67% |
| Dissatisfied | 7% | 4% | 8% | 9% | 3% |
| Very dissatisfied | 3% | 3% | 3% | 4% | 2% |
| Don't know/no response | 4% | 4% | 4% | 4% | 6% |
| Note: Columns may not sum to 100% due to rounding. | | | | | |

Students appear to link quality of education with the concern shown by their university for them as individuals. More than 6 students in 10 (62%) who are dissatisfied with the quality of their education are also dissatisfied with the concern shown to them by their university.

Students' perceptions of the quality of their education also appear to be linked with whether they feel as if they are a part of the university. Almost 6 students in 10 (57%) who are dissatisfied with the quality of their education disagree that they feel as if they are a part of the university.

## 7.0    Conclusion

In 2005, nearly 13,000 students at 28 universities took part in what is the most comprehensive survey of undergraduates in Canada. This year's survey involved a random sample of students from all undergraduate years, thus providing an opportunity to examine differences among students as they progress through their studies. While our report presents an overview of these findings, no attempt has been made to fully analyze the data. Indeed, it provides a rich source for further research.

There is remarkable consistency among students across time.  As in past years, undergraduate students are generally satisfied, if not very satisfied, with their university experience. Almost all students report being satisfied with two key facets: the overall quality of education they are receiving (86%) and their choice of university (89%).

However, students can identify areas that require improvement. When students are asked to name the three top areas needing improvement at their university, four issues stand out:

- **Emphasis on teaching excellence.**  Although most students are satisfied with the quality of their education, many (41%) cite teaching excellence as an area requiring improvement. Most students report very positive experiences with their professors, and a majority are satisfied with the quality of teaching (83%). However, on this latter point, only 16% are very satisfied and as many (16%) are dissatisfied.

- **University spending on financial aid.**  Many students (35%) say that university spending on financial aid needs improvement. Perhaps this is not surprising, given that most students (71%) have at least some concerns about having sufficient funding to complete their university education.

  The average debt for students overall – both those who report having debt and those who do not – is about $8,500. Only about half the students report having at least some debt, and, the amount they owe is much higher, ranging on average from about $9,000 in first year to over $21,000 by the fourth.

- **Balance between academic and social life.** Many
  students (29%) name this as an area that needs
  improvement. Students spend 31 hours a week studying in
  and out of class. If paid work is included in their weekly
  commitments, then this number increases to 40 hours (and
  this is just the average, many students devote far more
  hours to these activities). Many students (40%) report that
  given their studies, work, and family responsibilities, they
  have little or no time for leisure activities. Indeed, almost
  half (47%) are dissatisfied with the amount of time that
  they can devote to these activities.

- **Sense of community among students.** Again, 29% of
  students named this as an area that needs improvement. In
  part, this results from a lack of leisure time to become more
  integrated into their university, but it appears to go beyond
  this. Many students also report that they do not feel as if
  they are part of their university (28%), and many also
  report that they are dissatisfied with the concern that their
  university shows for them as individuals (33%). This
  suggests that universities face a challenge in getting
  students to feel as if they belong, which would enrich their
  overall experience.

Students identify other areas of dissatisfaction as well (such as
course availability, with which 35% of students report being
dissatisfied). However, while we have attempted to identify some
of the challenges that universities face in making students'
experiences more positive, we must emphasize that the vast
majority of students report satisfaction with their universities.
Further, this appears to be the case for students across all
university types and regardless of their year of study.

# Survey of University Students: 2005

This survey is being completed by undergraduate students at a number of Canadian universities so that we may learn more about our students and their experience at university. Using either a pen or pencil, please take a few minutes to complete and return your survey and be sure to answer the items on both sides of the page. All of your responses are confidential.

**INSTRUCTIONS:** Read each question carefully and then enter a check ($\checkmark$) in the appropriate circles or fill in blank lines as necessary. Please return your completed questionnaire today.

## Your academic program and plans

1. Are you currently enrolled at this institution as a: (Check one)

   $\Phi_1$ Part-time student    $\Phi_2$ Full-time student

2. In what year of your current undergraduate program are you registered? (Check one)

   $\Phi_1$ 1st    $\Phi_2$ 2nd    $\Phi_3$ 3rd    $\Phi_4$ 4th    $\Phi_5$ 5th or more

3. What is the highest academic degree that you ever plan to obtain? (Check one)

   $\Phi_{00}$ None

   $\Phi_{01}$ Bachelor's degree    $\Phi_{05}$ Ph.D. or Ed.D.
   $\Phi_{02}$ Second Bachelor's degree    $\Phi_{06}$ M.D., D.D.S., or D.V.M.
   $\Phi_{03}$ Vocational certificate or diploma    $\Phi_{07}$ L.L.B. (Law)
   $\Phi_{04}$ Master's degree    $\Phi_{66}$ Other_____
   _____

4. In what year did you first begin your post-secondary education?
   Year: _____

5. In what year did you first begin your studies at this university (e.g., 2001)?
   Year: _____

6. What is your major, intended major, or subject of concentration in your current undergraduate program?

   _____

7. Has your intended major changed since you first came to university?

   $\Phi_1$ Yes    $\Phi_2$ No

8. Since starting university, have you ever interrupted your studies for one or more terms (not including inter-sessions, summer sessions, or a work term)? (Check all that apply)

   $\Phi_{00}$ No

   $\Phi_{01}$ Yes, due to illness    $\Phi_{05}$ Yes, for employment
   $\Phi_{02}$ Yes, for financial reasons    $\Phi_{06}$ Yes, to have/raise children
   $\Phi_{03}$ Yes, for other family reasons    $\Phi_{07}$ Yes, to travel
   $\Phi_{04}$ Yes, required to withdraw by the university
   $\Phi_{66}$ Yes, other reasons_____

9. Do you plan to complete your degree at this university?
   $\Phi_1$ Yes    $\Phi_2$ No    $\Phi_8$ Not sure

## Your study patterns and grades

10. During an average week in the current term, about how many hours do you spend on the following academic activities?

a. In scheduled classes and laboratories?    _____ (hours)

b. Academic work **outside** of classes and labs (including studying, assignments, and research)?    _____ (hours)

11. By the end of the current academic year, about how many term papers or other written reports will you have completed during the school year?

   _____ (term papers/written reports completed)

12. What is your average grade so far in the courses you have completed at university? (Check one)

   If your university uses a grade-point system, please select the letter grade equivalent that best reflects your grade point average.

   If your university uses percentage grades, please use this guide to select the approximate letter grade equivalent of your percentage grade.

   | Percentage | Equivalent for survey response |
   | --- | --- |
   | 85% - 100% | A or A+ |
   | 80% - 84.99% | A- |
   | 76% - 79.99% | B+ |
   | 70% - 75.99% | B |
   | 66% - 69.99% | C+ |
   | 60% - 65.99% | C |
   | 50% - 59.99% | D |

   ➡ (Please check one)

   | A or A+ | A- | B+ | B | C+ | C | D |
   | --- | --- | --- | --- | --- | --- | --- |
   | $\Phi_7$ | $\Phi_6$ | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ |

13. Are you currently enrolled in a program that provides credit for work experience (e.g., co-op or internship programs)?
   $\Phi_1$ Yes    $\Phi_2$ No    $\Phi_8$ Not sure

## Perception of the university

14. How satisfied are you with each of the following aspects of the university? (Check one for each item)

| | Very dissatisfied | Dissatisfied | Satisfied | Very satisfied | Don't know |
| --- | --- | --- | --- | --- | --- |
| a. Average size of your classes | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| b. Instructional facilities (e.g., classrooms, labs, equipment) | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| c. The process of registering for your courses | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| d. Library facilities | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| e. Study space | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| f. General condition of buildings and grounds | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| g. Personal safety on campus | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| h. Concern shown by the university for you as an individual | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| i. Availability of courses required for your program | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |

15. For the following items, please make TWO checks in each row –one to indicate personal use and one to indicate a satisfaction rating. (Please check "No" and "Don't know" if you have not personally used the service.)

| | Have you personally used this? | | Satisfaction ratings | | | | |
| --- | --- | --- | --- | --- | --- | --- | --- |
| | Yes | No | Very dissatisfied | Dissatisfied | Satisfied | Very satisfied | Don't know |
| a. Academic advising | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| b. Tutoring services | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| c. Computer facilities | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| d. Athletic facilities | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| e. University residences | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| f. Facilities for student associations, clubs, etc. | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| g. Parking facilities | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| h. University-based social activities | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| i. Campus book store(s) | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| j. Services for students with disabilities | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| k. Services for international students | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| l. Services for students in need of financial aid | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| m. Services for First Nations students | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| n. Co-op programs | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| o. Personal counselling services | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| p. Career counselling services | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| q. Study skills/learning support services | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| r. Campus medical services | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| s. Employment services | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| t. Food services | $\Phi_1$ | $\Phi_2$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |

Using the alphabetic characters from question 15 (a, b, c, etc.), please indicate the top three priorities for improvement at your university.

1. _____      2. _____      3. _____

16. For the following items, please check your level of agreement. Please check one for each item.

| | Disagree strongly | Disagree | Agree | Agree strongly |
| --- | --- | --- | --- | --- |
| a. Some of my professors have taken a personal interest in my academic progress | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| b. My professors show sensitivity to gender issues | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| c. My professors show sensitivity to racial issues | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| d. Some professors at this university have had a major positive influence on my academic career | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| e. My professors generally look out for students' interests | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| f. I feel free to turn to some of my professors for advice on personal matters | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| g. Most of my professors encourage students to participate in class discussions | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| h. At this university, professors treat students as individuals, not just numbers | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| i. In most of my classes, I have been given the chance to evaluate the course | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| j. Most of my professors are reasonably accessible outside of class to help students | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| k. Teaching assistants have been helpful in my academic program | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| l. Grading is consistent and fair at this university | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| m. Generally, I am satisfied with the quality of teaching I have received | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| n. My learning experiences at this university have been intellectually stimulating | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| o. Most university support staff (e.g., clerks, secretaries, etc.) are helpful | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| p. I sometimes feel I get the run around at this university | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| q. I feel as if I am part of the university | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| r. The university treats students fairly, independently of their race | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| s. The university treats students fairly, independently of their gender | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |
| t. I am satisfied with my decision to attend this university | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ |

**INSTRUCTIONS:**
Read each question carefully and then enter a check (✓) in the appropriate circles or fill in blank lines as necessary.
Please return your completed questionnaire today.

17. Do any of the following need improvement at your university?
(Check one for each item)

| | Improvement needed | | | | | |
|---|---|---|---|---|---|---|
| | None | Very little | Some | Much | Very much | Don't know |
| a. Emphasis on teaching excellence (ability) | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| b. Sense of community among students | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| c. Balance between academics and social life (too little social life) | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| d. Course accessibility for mature and part-time students | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| e. Opportunities for international study and exchange | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| f. Student employment services | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| g. Work study opportunities | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| h. University spending on financial aid | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| i. Use of technology in the classroom | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |
| j. Work opportunities on campus | $\Phi_0$ | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_8$ |

**Your involvement in activities**

18. During the current academic year, about how often have you…
(Check one for each item)

| | Never | Occasionally | Often | Very often | Not applicable |
|---|---|---|---|---|---|
| a. Attended campus social events | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| b. Attended campus lectures (in addition to regular classes) | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| c. Attended campus cultural events (theatre, concerts, art exhibits, etc.) | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| d. Participated in student government | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| e. Participated in student clubs | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| f. Participated in on-campus student recreational and sports programs | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| g. Attended home games of university athletic teams | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| h. Participated in on-campus community service/volunteer activities | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| i. Participated in off-campus community service/volunteer activities | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |

19. How many hours per week do you normally engage in community service/volunteer activities?

_____ (hours per week)

**INSTRUCTIONS:**
Read each question carefully and then enter a check (✓) in the appropriate circles or fill in blank lines as necessary.
Please return your completed questionnaire today.

## Personal growth and development

20. How would you grade this university for contributing to your personal growth and development in each of the following? (Check one for each item)

| | Excellent | Good | Fair | Poor | Fail | Not applicable |
|---|:---:|:---:|:---:|:---:|:---:|:---:|
| | **A** | **B** | **C** | **D** | **F** | **n/a** |
| a. Written communication skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| b. Oral communication skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| c. Effective study and learning skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| d. Skills to understand abstract reasoning | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| e. Thinking logically and analytically | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| f. Working independently | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| g. Cooperative interaction in groups | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| h. Ability to address issues in personal life | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| i. Mathematical skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| j. Language skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| k. Effective use of library resources | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| l. Skills for planning and completing projects | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| m. Identifying and solving problems | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| n. Personal time management skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| o. Persistence with difficult tasks | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| p. Leadership skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| q. Moral and ethical development | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| r. Computer literacy skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| s. Preparation for employment | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| t. Appreciation of the arts | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| u. Development of interpersonal skills | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| v. Living in an international world | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| w. Spiritual development | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |
| x. Personal self-confidence | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ | $\Phi_7$ |

21. How satisfied are you with the overall quality of the education you have received at this university? (Check one)

$\Phi_1$ Very dissatisfied  $\Phi_3$ Satisfied
$\Phi_2$ Dissatisfied  $\Phi_4$ Very satisfied
$\Phi_8$ Don't know

22. During a typical week at university, how much time do you have available to pursue the following activities? (Check one for each item)

| | Lots of time | Enough time | Some time | Little time | No time |
|---|:---:|:---:|:---:|:---:|:---:|
| a. Study outside of scheduled classes and labs | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ |
| b. Work | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ |
| c. Family responsibilities | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ |
| d. Leisure activities | $\Phi_5$ | $\Phi_4$ | $\Phi_3$ | $\Phi_2$ | $\Phi_1$ |

23. Thinking about all the things that you need to do in a typical school week, how satisfied are you with the amount of time you have available to spend on…? (Check one for each item)

| | Very dissatisfied | Dissatisfied | Satisfied | Very satisfied | Not applicable |
|---|:---:|:---:|:---:|:---:|:---:|
| a. Study outside of scheduled classes and labs | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| b. Work | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| c. Family responsibilities | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| d. Leisure activities | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |

24. Traditionally, academic instruction occurred in classrooms. Now some courses are taught exclusively on-line, while others are a mix of classroom and on-line instruction. Thinking about all the courses you are taking this academic year, how many use …?

a. On-line instruction (that is, taught completely on-line with no classroom instruction)
_____

b. A mix of classroom and on-line instruction (that is, involved reduced classroom instruction and at least some instruction on-line)
_____

c. Classroom instruction with on-line supports (that is, while instruction is carried out in-class, such supports as study notes, lecture notes, etc. are available on-line)
_____

d. Strictly classroom-based (that is, instruction is classroom-based with no on-line supports)
_____

25. Based on your experience, how satisfied are you with each type of instruction? (Check one for each item)

| | Very dissatisfied | Dissatisfied | Satisfied | Very satisfied | Not applicable |
|---|:---:|:---:|:---:|:---:|:---:|
| a. On-line instruction | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| b. A mix of classroom and on-line instruction | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
| c. Classroom instruction with on-line supports | $\Phi_1$ | $\Phi_2$ | $\Phi_3$ | $\Phi_4$ | $\Phi_7$ |
