

Supervisory Committee Structure

For (Student): _____

Law and Society graduate-level supervisory committees can follow one of two structures: co-supervisory or supervisor/member. The level of responsibility and participation for each role within these structures is outlined in the Faculty of Graduate Studies *Graduate supervision policy* available on the Student-supervisor Relationship page:
<https://www.uvic.ca/graduatestudies/research/home/yoursupervisor/relationship/index.php>

It is important to have these roles determined and responsibilities established early in a student's program to avoid confusion by all parties.

Please indicate the structure of your supervisory committee, sign, and obtain sign-off from all committee members before submitting this form to the Graduate Assistant.

Choose only one of the following possible committee structures.
