A key role of a leading research university such as UVic is in the dissemination of intellectual and creative work. Today we are celebrating the publication of over 60 works by members of the UVic Community, including faculty, sta_, and alumni. Four celebrated authors have been asked to read from their works: John Borrows, Carla Funk, Robert Budd, and Peter Stephenson. They represent but a small portion of the scholarly activity that occurs here - an activity that continues to contribute to UVic’s ascendancy into the elite of the world’s universities.
