Di Castri, John A., 1924-2005

SC429

Title

John Di Castri fonds

Dates

1918-2005

Extent

3 m of textual records
3,023 architectural plans
1,118 photographs

Biographical Sketch

John A. Di Castri (1924-2005) was a Canadian architect born in Victoria, British Columbia and a key figure in establishing modern architecture in that city. At the age of 16, he was hired as an apprentice at the Architectural Branch of the B.C. Department of Public Works and received his education by correspondence. In 1947, he worked briefly in the office of Birley, Wade & Stockdill before leaving to study at the University of Oklahoma under Bruce Goff, a protégé of Frank Lloyd Wright. Di Castri returned to Victoria in 1951 and went into partnership with W. Nicholls before starting his own practice in 1952. He was committed to establishing modern architecture in Victoria and had a major impact on the community throughout his career. He designed shops and churches, private residences and public buildings. Major works include his award-winning Trend House; the Canadian Institute for the Blind building; the University of Victoria Student Union Building, Cornett Building and Interfaith Chapel; and the Crystal Pool. In his obituary, Di Castri was called "an essential figure in West Coast architecture in the postwar years."

Scope and Content

The fonds consists of architectural plans and drawings by Di Castri for homes and buildings in Victoria and other locations in B.C. Fonds also includes notes, correspondence, construction contracts and photographs of commissioned projects, as well as portfolios, proposals, articles about Di Castri, notebooks, and manuscripts.

Finding Aids

An inventory is available.

Title Source

Title based on the contents of the fonds.

Notes

The fonds was originally stored in the Di Castri firm's offices before being transferred to the basement of Di Castri's home. The material donated was selected by Martin Segger and Chris Gower in 2007 and transferred to Special Collections.

Biographical Sketch

John A. Di Castri (1924-2005) was a Canadian architect born in Victoria, British Columbia and a key figure in establishing modern architecture in that city. At the age of 16, he was hired as an apprentice at the Architectural Branch of the B.C. Department of Public Works and received his education by correspondence. In 1947, he worked briefly in the office of Birley, Wade & Stockdill before leaving to study at the University of Oklahoma under Bruce Goff, a protégé of Frank Lloyd Wright. Di Castri returned to Victoria in 1951 and went into partnership with W. Nicholls before starting his own practice in 1952. He was committed to establishing modern architecture in Victoria and had a major impact on the community throughout his career. He designed shops and churches, private residences and public buildings. Major works include his award-winning Trend House; the Canadian Institute for the Blind building; the University of Victoria Student Union Building, Cornett Building and Interfaith Chapel; and the Crystal Pool. In his obituary, Di Castri was called "an essential figure in West Coast architecture in the postwar years."

Description of the Fonds

The fonds documents John Di Castri's career as an architect in Victoria between 1951 and 1998. The majority of the fonds consists of architectural plans and drawings by Di Castri for homes and buildings in Victoria and other locations in B.C. Other materials include notes, correspondence, construction contracts and photographs of commissioned projects, as well as portfolios, proposals, newspaper articles about Di Castri, notebooks, and manuscripts. A spreadsheet provided by Martin Segger and listing all of Di Castri's projects with corresponding commission numbers was used to identify and organize the project records and plans.

Arrangement

The fonds is arranged into five series: I. Project records, II. Personal papers, III. Writings, IV. Additional materials, and V. Project drawings and plans.

Inventory

Series I. Project records

The series, organized by the original commission number used by Di Castri for each of his projects, is comprised of booklets, certificates, contracts, correspondence, financial statements, negatives, newspaper articles, notebooks, notes, photographs, portfolios, proposals, sketches, slides, and specifications. Additional materials related to individual projects can also be found in Series IV. Additional materials and V. Project drawings and plans.

Box 1

- Dunsmuir Residence (101)**
- 1.1 images; booklet page; article from *Western Homes and Living* (November, 1955); 7 b&w photographs
- Prince Robert House (112)**
