TO TAN OR NOT TO TAN, THAT IS THE QUESTION

Let’s talk science with med students at UVic

- What are the risks of too much sun exposure?
- How does sunscreen work?
- What strength sunscreen should I use? How often?
- Are there risks with using sunscreen?
- Does tanning provide more natural/safe protection?
- What about vitamin D?

Join first-year Island Medical Program students Sergiy Shatenko, Samuel Harder and Andrew Watters to learn the answers to these questions.

Tuesday, April 5 @ 7:00 pm
Medical Sciences Building Room 150

Refreshments available | This is the latest in a series of medical student presentations
