

# SILENT GENOMES:

Reducing health care disparities and improving diagnostic success for children with genetic diseases from Indigenous populations

▶ Laura Arbour MD - Pediatrician, Medical Geneticist (UBC, UVic, BCCHRI)

▶ Nadine Caron MD - Sagamok Anishnawbek (Ojibwa) - Surgeon (UBC, UNBC, BCCA, Associate Faculty Johns Hopkins, Co-director of the Centre for Excellence, Indigenous Health UBC)

▶ Jeff Reading PhD - Mohawk Indigenous Scholar (SFU, Providence Health, FNHA-Chair in Heart Health and Wellness)

▶ Wyeth Wasserman PhD – Bioinformatics (UBC, Executive Director of the BCCHRI)

▶ Dean Regier PhD - Economist (UBC, BCCA)

University of Victoria

UNIVERSITY OF CALGARY

“The genomic health divide must be kept in check and ultimately bridged through equitable economic investment, clinical research, and provision and use of genomic services and technologies globally”

## THE PROBLEM

*Data from persons who identify as Indigenous are starkly absent from reference databases used for genomic diagnosis.*

Therefore access to precision diagnosis is limited- increasing health disparity

**First Nations:** 618 FN communities N=851,560.

**The Inuit:** 53 communities N=59,445.

**The Metis:** N=451,795.

## THE SUSTAINABLE SOLUTION

- *With Indigenous partners (Nationally, regionally and on a community level) we will:*
  - **build** a strong governance model for genomics research;
  - **plan together**, the necessary steps for development of an Indigenous Background Variant Library (IBVL);
  - **offer genomic diagnosis** to Indigenous Children across Canada;
  - **assess the cost-effectiveness** of the system.

## END USERS / PARTNERS

Assembly of First Nations  
Inuit Tapiriit Kanatami (ITK)  
Métis National Council (MNC)  
First Nations Health Authority (FNHA)  
National FN Alliance Working Group  
BC Ministry of Health  
Nunavut Department of Health  
Canadian National Clinical Network (NCN)

## MOLECULAR GENOMICS

Marco Marra (UBC)  
Maja Tarailo-Graovac (UC)  
Anna Lehman (UBC)

## BIOINFORMATICS

Wyeth Wasserman (UBC)

## CLINICAL GENOMICS

Anna Lehman (UBC)  
Maja Tarailo-Graovac (UC)  
Laura Arbour (UBC/UVic)  
Francois Bernier (UC)  
**National Clinical Network**

## POPULATION GENOMICS

Ripan Malhi (UI)  
Simon Gravel (McGill)

# The Team

## INDIGENOUS HEALTH

Nadine Caron (UBC/UNBC)  
Jeff Reading (SFU)  
Sonia Isaac Mann (FNHA)  
Nanibaa' Garrison (UW)  
Laura Arbour (UBC/UVic)  
Sonia Anand (McMaster)

## COMMUNITY INFORMED ECONOMICS

Dean Regier (UBC/BCCA)  
Michael Burgess (UBC)  
Nanibaa' Garrison  
Anne-Marie Laberge (UM)

## COMMUNITY EDUCATION

Sarah McIntosh (UBC)  
Anne-Marie Laberge (UM)

## INTERNATIONAL INDIGENOUS GENOMICS PERSPECTIVES

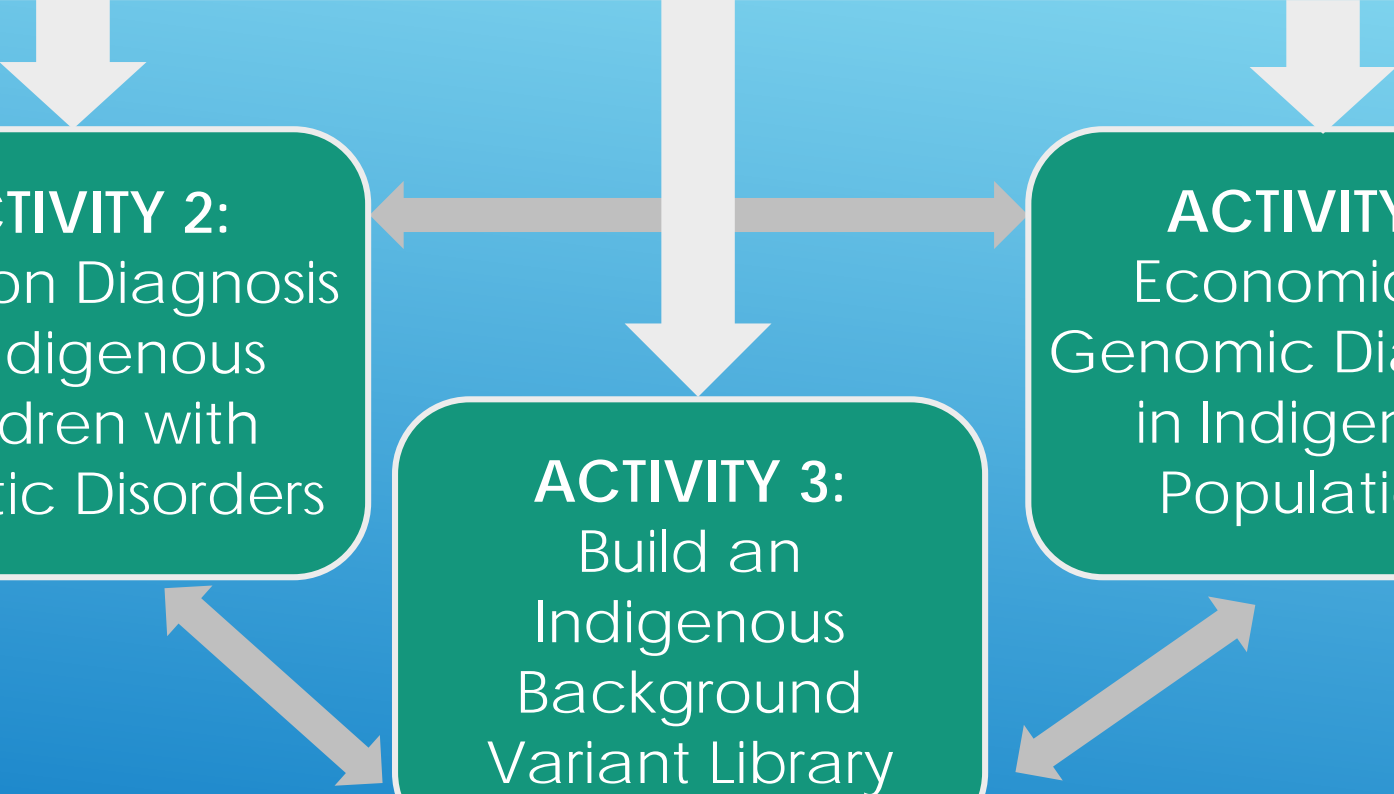

Nanibaa' Garrison (USA/Wash)

# Chart of Project Timeline

DELIVERABLES

- ▶ Assembly of First Nations Support
- ▶ First Canadian **S**ummer internship for **I**ndigenous Peoples in **G**enomics (SING Workshop) enabled by LifeLabs Scholarship program to *Silent Genomes*

UPDATES

*We will take a quantum step forward to address the “genomic divide” through reducing barriers to access in both the diagnosis of genetic diseases and the research that drives it for Indigenous Canadians*

1. Indigenous led Governance will be the model for Canadian Guidelines and International Best Practices
2. Genomic Education Tools for Communities
3. Genomics Capacity Building for Indigenous Students
4. The platform for a sustainable IBVL will be in place with room to grow to provide precision diagnosis for children, their families and communities

**BENEFITS**

In 2015 Canada signed on to the United Nations Declaration of the Rights of Indigenous Peoples confirming Indigenous Canadians:

*(Article 24) 'have the right to access, without any discrimination, to all social and health services';*

*(Article 4) 'have the right to self determination'.*

- ▶ *Indigenous persons deserve to have their genetic disease diagnosed and managed-And they have the right to guide the process*
- ▶ *Silent Genomes has the potential to lead the world by example in developing Indigenous led policy on Genomic research to be integrated into on-going health care.*
- ▶ *We are uniquely qualified to bridge the 'Genomic Divide' for Indigenous Canadians by improving access to genomics diagnosis.*

EXTRA SLIDES

**Activity 1.1: Gathering Ceremony & Project launch with FN and Inuit Elders and Knowledge Keepers**  
Dialogue to establish governance and to guide policy development and capacity building

**Activity 1.2: Engagement with Alliance communities**  
Face-to-face meeting to establish process for research and engagement

**Activity 1.3: Engagement with non-Alliance communities**  
Face-to-face meeting to establish process for research and engagement

**Engagement**

**Activity 1.5.1: Community education**

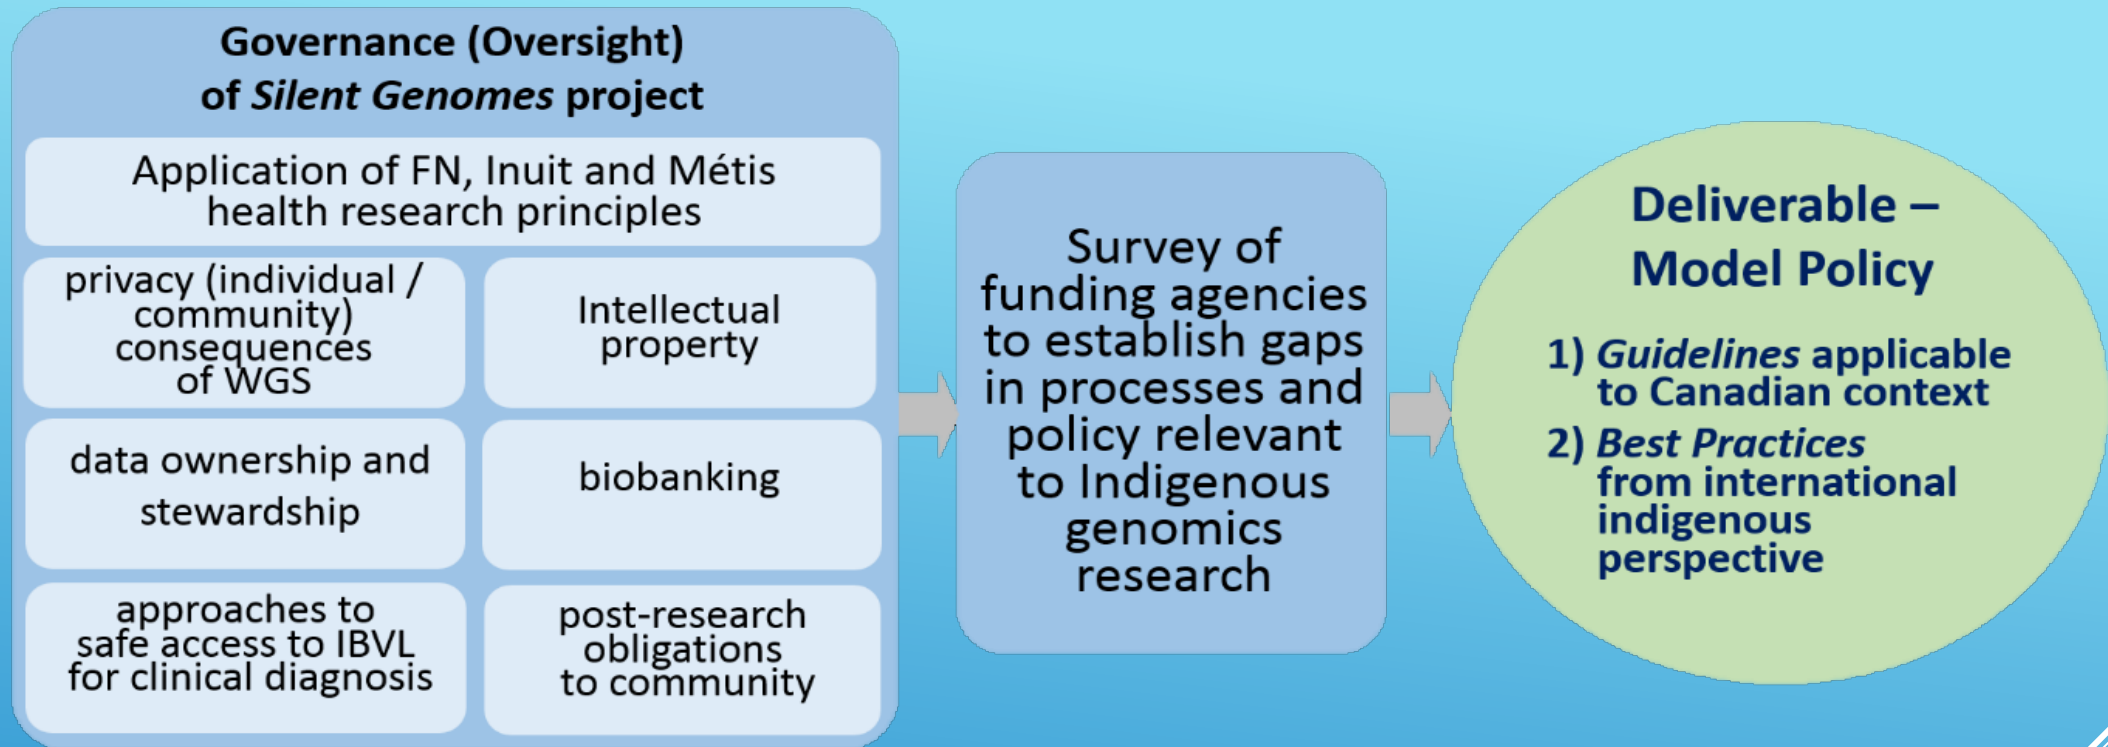

Development of culturally-appropriate and community-specific education aids

**Activity 1.5.2: Research, clinical, academic capacity building**

SING: Summer internship with Indigenous Peoples in Genomics  
IMNPN: Indigenous Mentorship Network of the Pacific Northwest

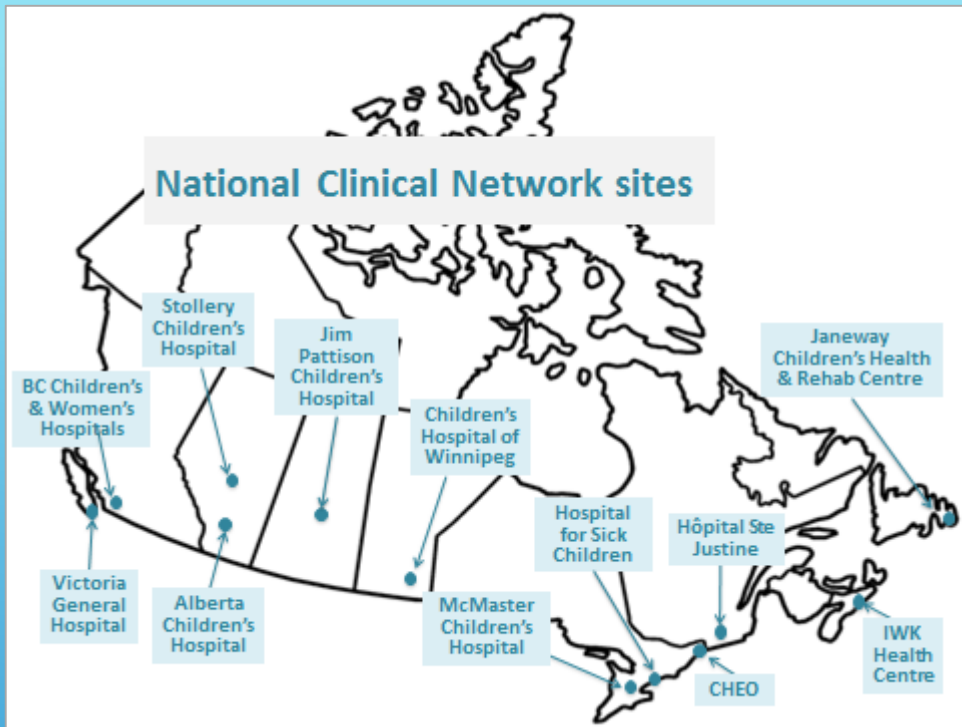

**Deliverable:**  
**Indigenous Focused Community Education Tools and Student Genomics Training**

  Milestone
  Annual Reports

Milestone 1- Act 1.1: Gathering ceremony (Q4)  
 Milestone 2a- Act 1.4: Governance process in place (Q8)  
 Milestone 2b Guidelines (Canadian) (Q12)  
 Milestone 2c: Best Practices (International) (Q14)  
 Milestone 3- Act 3.1: Security system completed for IBVL (Q8)  
 Milestone 4- Act 3.2: Begin sample transfer of existing samples for IBVL (Q9)  
 Milestone 5- Act 3.4: Data analysis for IBVL (Q15)

Milestone 6- Act 3.4: Validation of Clinical diagnosis samples with IBVL (Q15)  
 Milestone 7- Act 1.4: Complete development of process for use of IBVL beyond Silent Genomes (Q16)  
 Milestone 8- Act 4.1 - Focus groups and qualitative interviews and analyses completed (Q8)  
 Milestone 9- Act 4.1 - Preference-based analyses completed (Q12)  
 Milestone 10 - Act 4.2 - Chart review and associated analyses completed (Q8)  
 Milestone 11- Act 4.2 - Decision model 1 completed (Q11)  
 Milestone 12- Act 4.2 - Decision model 2 completed (Q15)
