

Informational poster on the left door panel, likely detailing safety protocols or equipment specifications.

Blue top panel of the biosafety cabinet, featuring a red logo and several informational labels.

Control panel on the front of the biosafety cabinet, including a digital display and various buttons.

Shelves on the right side of the cabinet containing various laboratory supplies, including boxes and plastic bags.

The main work area of the biosafety cabinet, enclosed by a glass front and a metal frame.

Three large white gas cylinders (likely nitrogen or oxygen) positioned to the right of the biosafety cabinet, with associated regulators and tubing.

Black metal stand supporting the biosafety cabinet, with several yellow and red buckets and a black stool positioned underneath.
