3.3 University Safety Committee (USC) Update

Nykita and Jaclyn provided the following update:

Emergency Planning (EP)

The rapid damage assessment team took part in two training sessions, UCAM also recently attended a ½ day training session and ATRS participated in training on the campus assembly area. He continues to work closely with emergency services on updating and improving their mapping data for locations on campus; with a commitment to review and update every six months.

AED project update

The working group and FMGT are continuing to work on mapping out the locations for the first phase of AEDs for installation. Further review and planning for co-locating naloxone kits continues as well.

District Energy Plant

An inspector from Technical Safety BC (TSBC) met with FMGT management in the spring to clarify the definition of “continuous supervision”. FMGT management followed up again with TSBC this month seeking clarification to ensure UVic remains in compliance within the guidelines of its operating permit.

First Aid Update

University
of Victoria

Changes include the requirement for advanced certification by some Campus Security (CSEC) first aid attendants, in addition to existing intermediate certifications. CSEC will be reviewing and establishing first aid staffing levels (both the number of first aid attendants and the complement of attendants who are either trained to the Intermediate or Advanced level, per shift).

WHMIS

WHMIS training is provided by OHSE and is available both online and in-class. Training completion numbers have exceeded pre-pandemic numbers.
