

UNIVERSITY OF VICTORIA BOATING REVIEW FORM

To ensure your project meets Transport Canada (TC) requirements for marine vessels, any person utilizing boats for research or teaching purposes must complete this form and return to Occupational Health, Safety & Environment at ohs@uvic.ca. OHSE will then advise you of the requirements for boat registration, operator competencies and inspections, and assist with the submission of any additional TC forms. This form needs to be completed only once for any particular boating activity or project. However, if your project will take place out of the Bamfield Marine Sciences Centre, please contact Bamfield directly at info@bms.bc.ca.
