

An X in the applicable boxes indicates which communities the service is provided, and the frequency of visits to each community (to drop off or pick up containers; or to undertake on-site destruction).

A community whose row is shaded is a mandatory location; the scheduled Container Services **must** be provided in these communities as a condition of retaining a CSA. Other communities are optional.

For the columns labeled "other" refer to the legend to determine the frequency offered for that community and service.
