Purpose
The 2018 Strategic Framework “defines UVic’s role in creating a strong, healthy future for our students and for our local and global communities... To meet the challenges and opportunities of globalization and the social, environmental and technological change faced by our students, communities and university, we must align our efforts and focus our activities.”

UVic is committed to becoming “a global leader in environmental, social and institutional sustainability through our research, academic programs, campus operations, and the impact and influence of our students, faculty, staff and alumni.”

This Supplier Code of Conduct (SCoC) is intended to support that commitment, and aligns with triple-bottom-line procurement goals identified in UVic’s Sustainability Action Plan.

The SCoC also aligns with the International Labour Organization’s *Declarations on Fundamental Principles and Rights of Work*, the United Nation’s Sustainable Development Goals, and the *United Nations Convention on the Rights of the Child*.

Scope
The SCoC applies to all Suppliers who provide goods or services to the University of Victoria, as well as their Subcontractors. It establishes the minimum ethical, social, and environmental standards expected of UVic Suppliers. Additional requirements may be described in individual contracts executed with UVic.

UVic expects Suppliers to strive to exceed both international and industry best practices. UVic also expects that its Suppliers encourage and work with their own suppliers and Subcontractors to ensure that they also strive to meet the principles of this Code of Conduct.

UVic recognizes that reaching some of the standards established in this Code of Conduct is a dynamic rather than static process and encourages suppliers to continually improve their workplace conditions accordingly. UVic believes in cooperation and is willing to work with its Suppliers to improve practices where necessary.

A Supplier’s failure to adhere to the provisions of this SCoC may be a breach of contract and could result in termination of the contract.

It is preferred, but not mandatory, that Suppliers exceed these Code of Conduct provisions.
