

ENVIRONMENTAL ENRICHMENT OPTIONS

PI:	RESEARCHER:	PROTOCOL #:
Species:		DATE:

Standard in all cages: (unless specified in protocol) – with no additional charges		Standard	
<p>Nestlet: Nesting material Aids in thermoregulation Offers enrichment for multiple animals in cage Allows for tunneling and foraging Chemically inert, odorless and non-ingestible Made of pulped virgin cotton fiber Portion controlled – 22"x12"x12" Autoclavable</p>		<p>Standard</p>	
<p>Igloos: Provides shelter and a secluded place to build a nest Transparent material provides ease of visibility Made of high temp polycarbonate Great addition to breeding programs Autoclavable</p>		<p>Standard</p>	
<p>Paper huts: Provides sheltering and nesting opportunities low profile (2½" tall) Made of non-recycled, 100% virgin wood pulp Autoclavable</p>		<p>Standard</p>	
<p>Crinkle Paper: Aids in thermoregulation Offers enrichment for multiple animals in cage Allows for tunneling and foraging Made of 100% virgin kraft paper Portion controlled – 4 or 8 gram Irradiated Autoclavable</p>		<p>Standard</p>	
Enrichment Available – with no additional charges:		Allowed	Not Allowed
<p>Nesting Sheets: Lint free sheets do not cause eye irritation alternative to cotton nesting material Encourages natural nest building behavior Made of 100% virgin wood pulp Autoclavable</p>		<input type="checkbox"/>	<input type="checkbox"/>
<p>Running Wheel: Activity wheel for use with the Mouse Igloo Supports natural and instinctive running behavior Benefits mice with stereotypic behaviour – i.e. food shredders Made of high temp polycarbonate Autoclavable</p>		<input type="checkbox"/>	<input type="checkbox"/>
<p>Mouse Tunnels: Offers rodents shelter and security Transparency makes routine cage checks easy and fast Helps reduce boredom and aggressive behaviour Made of high temp polycarbonate Optional: trapeze tunnel - increase physical activity and usable floor space, suspend from cage with a stainless steel hanger Autoclavable</p>		<input type="checkbox"/> Tunnel only <input type="checkbox"/> Optional trapeze	<input type="checkbox"/> Tunnel only <input type="checkbox"/> Optional trapeze

PI:	Researcher:	Protocol #:	Date:
Species:			

Enrichment Available:		Allowed	Not Allowed
<p>Cardboard tunnels: Sheltering, nesting and gnawing enrichment Helps reduce boredom and aggressive behavior Made of 100% recycled pulp paper Increases physical activity Disposable Not autoclavable contains adhesives Available sterile by gamma irradiation</p>		<input type="checkbox"/>	<input type="checkbox"/>
<p>Wood Gnawing Blocks: Made of high quality kiln dried hardwood Provides the most natural form of gnawing enrichment Cube shape reduces loss through cage floor Autoclavable</p>		<input type="checkbox"/>	<input type="checkbox"/>
<p>Gnawing enrichment: Provides gnawing enrichment for rodents Nylon bone made of pure virgin nylon Orange cone made of durable polyurethane Durable For exploratory behavior Autoclavable</p>		<input type="checkbox"/>	<input type="checkbox"/>
<p>Climbing enrichment: Rattles(rabbit specific): Clips onto cage wire lid Provides climbing opportunity Autoclavable</p>		<input type="checkbox"/>	<input type="checkbox"/>
Treats:			
<p>Star puffs: A low sugar, low calorie treat (< 1 kcal/puff) Delicious banana-flavored light crunchy puff Made with simple wholesome ingredients Excellent for reward or foraging opportunities</p>		<input type="checkbox"/>	<input type="checkbox"/>
<p>Black Oil Sunflower seeds: A healthy, natural foraging treat Excellent source of omega 6 essential fatty acids Excellent source of dietary fiber, protein and vitamin E Sterile Recommended for difficult breeders Helps to deter rodent cannibalism</p>		<input type="checkbox"/>	<input type="checkbox"/>
<p>Supreme mini-treats: Nutritionally complete 1 gm treat compliments enrichment programs Excellent for training, conditioning or as a reward following a less desirable procedure Helps to deter rodent maternal cannibalism; Excellent source of vitamin C Nutritionally Assayed</p>		<input type="checkbox"/>	<input type="checkbox"/>
<p>Timothy Hay: 100% natural sun-cured timothy hay Roughage aids in natural digestive process Use as a routine supplement for beneficial therapeutic effects Inexpensive and healthy enrichment for a variety of species Gamma irradiated to eliminate natural biological contaminants</p>		<input type="checkbox"/>	<input type="checkbox"/>
