**RESEARCH
PARTICIPANTS
NEEDED**

FOR A PAIN SCIENCE STUDY

**UNIVERSITY OF VICTORIA
3800 FINNERTY RD
VICTORIA BC V8P 5C2
CANADA**

**ARE YOU A HEALTHY ADULT (AGE 19- 65) WHO WANTS TO
CONTRIBUTE TO THE FIELD OF PAIN STUDY?**

**IF SO, YOU YOU MAY BE ELIGIBLE TO PARTICIPATE IN OUR STUDY AT
THE UNIVERSITY OF VICTORIA!**

OUR AIMS Our lab is focused on investigating the individuals' perceived pain, and perceived damage experiences under different conditions. Specifically, how we can increase or decrease painful sensations using topical creams. Ultimately we are aiming to contribute to the field of pain study by furthering our understanding of what controls the pain experience and how it can be managed.

WHAT WOULD YOUR PARTICIPATION ENTAIL?

ONLINE

You will complete several online components via RedCap. Including a consent form, a demographics survey and a COPI-A questionnaire

IN PERSON

In the session, we will get you to test some creams and see how they impact your pain

DEBRIEF

After data collection is concluded you will be sent information about the full breadth of the study, so you can see how your participation contributed to the impact of our results!

**CONTACT
INFORMATION:**

If you would like to participate in this study or have any questions, please contact:
Sophia Mastrangelo (Grad Student): Email: sophiamastrangelo@uvic.ca or David Kennedy (Assistant professor, EPHE, UVic): Email: davidkennedy@uvic.ca
