CANADIAN ALCOHOL POLICY EVALUATION (CAPE) COMMUNITY OF PRACTICE

Know Alcohol web app launch and Canada's Guidance on Alcohol and Health knowledge mobilization activities update

Event #30: November 20, 2024

The views and opinions expressed as part of this presentation are those of the presenters and do not necessarily represent those of our funders or other organizations acknowledged.

Canadian Institute I for Substance c Use Research I

Institut canadien de recherche sur l'usage de substances

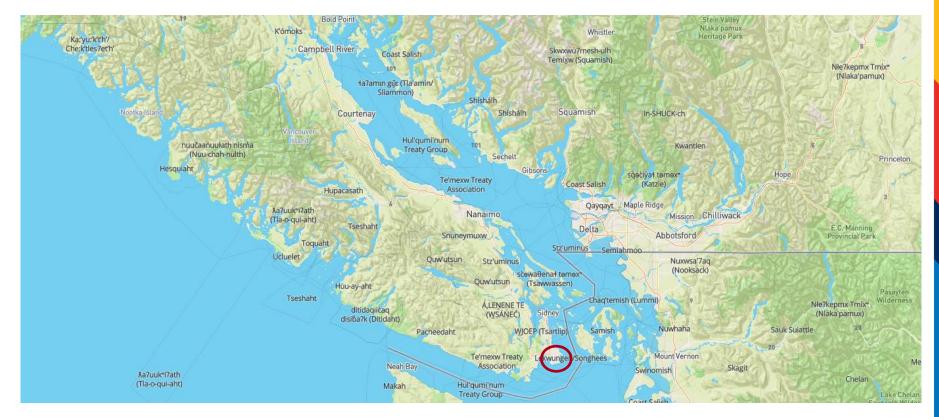

INTERPRÉTATION SIMULTANÉE

- Veuillez noter que l'événement sera en anglais / This event will be in English.
- Une interprétation simultanée en francias est offerte sauf pour la période de questions / Simultaneous French interpretation is available except for the Q&A portion.

We acknowledge and respect the Ləkwəŋən (Songhees and Esquimalt) Peoples on whose territory the university stands, and the Ləkwəŋən and WSÁNEĆ Peoples whose historical relationships with the land continue to this day.

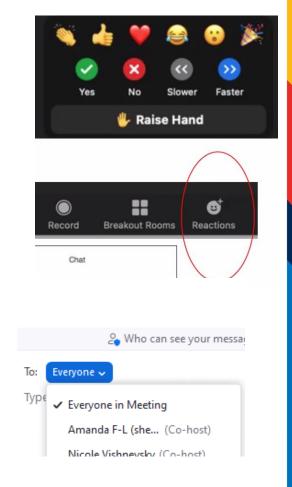

HOUSEKEEPING

- Today's webinar includes a presentation and Q&A = 90mins
- The presentation segment will be recorded (not Q&A). Links to the recording and webinar slides (English and French), will be emailed.
- We invite your feedback about today's session. A survey link will be shared in the Chat box and via email.
- For persons with lived/living experience stipends: email
 <u>capecopcoord@uvic.ca</u>
- Next event: Thursday, December 5
 Alcohol and cancer: strategies, impacts and challenges of public health campaigns and advocacy efforts

Q&A FORMAT

- Use the chat box or Q&A tool to submit a question at any time (either privately to the moderator or to everyone).
- 'raise hand' during Q&A segment. The moderator will ask you to unmute to pose your question.
- The moderator may read aloud questions typed in the chat or Q&A tool.
- Technical difficulties? please message us in the chat.

Guidance and Know Alcohol

To reduce the risk of harm from alcohol, it is recommended that people living in Canada consider reducing their alcohol use.

Knowledge Mobilization Approach

www.ccsa.ca | www.ccdus.ca

Focus on:

- answering questions most important to communities,
- building awareness.

Goal:

 Facilitate collaboration and encourage tailoring and use of the guidance.

Plan:

 Support the building of tools tailored specifically to community needs, outlooks, interests, and priorities.

Partner Reception and Endorsement

- The Council of Chief Medical Officers of Health
- Health Officers Council of British Columbia, Position Statement
 on Alcohol
- Chief Medical Officer of Health Report, Ontario
- Ontario Association of Local Public Health Agencies, Resolution
- Canadian Medical Association, Policy Endorsement
- Government of British Columbia Clinical Practice Guideline, High-Risk Drinking and Alcohol Use Disorder

National Engagement

- National events (e.g., Canadian Public Health Association Conference)
- Canadian Cancer Society, Canadian Partnership Against Cancer, Canadian Armed Forces, Association of Faculties of Medicine of Canada
- CISUR collaboration on Know Alcohol

Regional Guidance Campaigns: PEI

Regional Guidance Campaigns: ON

Regional Cancer Program Ontario Health (Cancer Care Ontario)

Central East

Alcohol does not come with a warning label, but it should.

Drinking alcohol increases your risk of cancer.

To lower your risk, limit drinking alcohol to only 1-2 drinks a week.

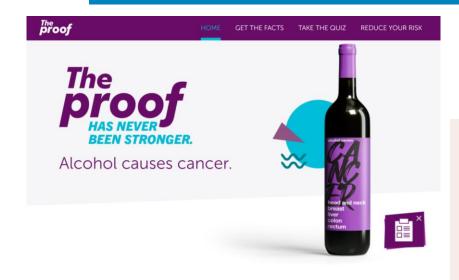

Visit cercp.ca to learn more.

Regional Guidance Campaigns: NB

Regional Guidance Campaign: BC

About the campaign

This campaign is a joint initiative of BC Cancer^[2] and British Columbia's Ministry of Health^[3]. It reflects Canada's new Guidance on Alcohol and Health^[4] which provides evidence-based advice on alcohol to support you in making informed decisions about your health.

Ministry of Health COLUMBI

Follow BC Cancer for the latest news and updates.

Drink Less, Live More

Regional/Local amplification

Health regions and organizations amplified the campaign:

- Adapted one-pager for geo-targeted campaign: Southwestern Public Health; Middlesex-London Health Unit; York Region Public Health
- Adapted ads for Kingston, Frontenac and Lennox & Addington Public Health for digital screens in region.
- Alberta Health Services adapted ads for electronic billboards in health environments in their jurisdiction.
- The Nunalituqait Ikajuqatigiittut Inuit Association translated one of the ads into Inuktitut to be used in 14 municipalities.

Regional/Local amplification

- Community Alcohol Strategy Steering Committee in Prince Albert created a digital community billboard ad that cycles through all nine ads.
- Durham County Public Health has used the ads for Go Transit, Landmark movie theatres, OHL hockey arenas and more.
- Uptake continues, with Sudbury, Middlesex 2.0 and more...

Canada's Guidance on Alcohol & Heath

Canada has a new <u>alcohol</u> guidance that outlines a continuum of risk for alcohol-related harms as follows:

- No risk at 0 standard drinks per week
- Low risk at ≤ 2 standard drinks per week
- Moderate risk at 3-6 standard drinks per week
- Increasingly high risk at ≥ 7 standard drinks per week

Did you know?

- Consuming more than 2 <u>standard drinks</u> per occasion increases the risk of <u>harm</u> to yourself and others
- · When pregnant, trying to get pregnant, or breastfeeding, no alcohol use is safest
- Youth under the legal drinking age should delay alcohol use for as long as possible

No matter where you are on the continuum, <u>drinking less is best</u>. Explore our <u>calculator</u> to see how alcohol impacts you and what you can gain from drinking less.

Promotion

- Target audiences \checkmark
 - General population
 - Men (25-50, high-risk drinkers)
 - Women (18-40)
 - Youth (15-24)

Campaign Assets

- Focus group tested
- Emphasis on knowledge
- Leverage curiosity (provocative, catchy taglines)
- Direct users to the calculator
- Simple but bold imagery
- CISUR logo for credibility

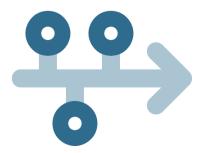

Campaign Rollout

- National & bilingual ad campaign
- Digital ads (primarily on social media)
- Outreach with social media package
 - CISUR's network (CAPE CoP)
 - UVic network
 - Health authorities & agencies
 - Community organizations
- St. Francis Xavier University

Campaign Timeline

- General public: January 2025
- Men: March 2025
- Youth: May 2025
- Women: July 2025

KNOWALCOHOL.CA

Next steps

- Jan 2025 launch
- Invitation to partner & help promote
 - Social media package coming soon
- Evaluation study
- Ongoing optimization
