

Palestine Photo Project

This visual exhibition of craft and photographs speaks to the long, diverse and rich histories, cultures and everyday life of Palestinian peoples, and their connections to land. In bringing together this collection we hope to acknowledge the resistance of Palestinians, and spark conversations on remembering, and reclaiming.

Visitors are welcome to come by and visit the display anytime between 11:30am and 1:00pm. CMS directors Shemine Gulamhusein and Zaheera Jinnah will be on hand to host and discuss. Light refreshments will be served.

The Critical Muslim Studies Hub is a collaborative initiative connecting faculty, students, and community partners focused on multidisciplinary scholarship in Muslim studies.
