

JOB POSTING

JOB TITLE: FORB Hawkins – Nutrition and cold hardiness of conifers

DEPARTMENT NAME: Centre for Forest Biology

CONTACT NAME: Dr. Barbara Hawkins

JOB DESCRIPTION:

The student will assist with projects examining the response of conifers to abiotic stress. Projects include: nitrogen dynamics of conifer seedlings and their mycorrhizal partners, and cold hardiness of trees. The student will be involved in seedling care, preparation of nutrient solutions, watering, preparation of plant samples for chemical analysis, assessment of cold damage and data analysis.
