

UVic Chemistry course offerings Fall 2020

Draft 19 June 2020

The table below lists the Chemistry undergraduate courses offered in Fall 2020. UVic will operate under COVID restrictions. All chemistry courses will follow the published UVic timetable for lectures, tutorials and lab classes. All classes will be offered virtually with the exception of six lab classes. Chem 101 will include a virtual lab class. Some courses will offer recordings of lectures for a limited time period. The Department of Chemistry will not approve time conflict overrides.
