

## SEOS course offerings

This table summarizes when EOS courses are **usually** offered, for program planning purposes. EOS 110 and 120 are offered both autumn and spring. EOS 170 and all second and third year classes are offered once per year. Forth year classes are offered either once a year or once every two years.

For *BSc Earth sciences*: [ \* = required class ] [ <sup>2</sup> = two courses from this list are required ] (September 2016 Calendar).

This table is a guide only. The only definitive source of information on program requirements and when classes are offered is the UVic Calendar: <http://web.uvic.ca/calendar/undergrad/science/eosc.html>
